Barclays Group Finance Director

Summary Group financials: Adjusted profits up 12%

Year ended – December (£m)	2013	2014	
Income	27,896	25,728	
Impairment	(3,071)	(2,168)	
Total operating expenses	(19,893)	(18,069)	
– <i>Costs to achieve Transform (CTA)</i>	(1,209)	(1,165)	
Adjusted profit before tax	4,908	5,502	
Tax	(1,963)	(1,704)	
NCI and other equity interests	(757)	(1,019)	
Adjusted attributable profit	2,188	2,779	
Adjustments	– <i>Provisions for PPI and IRH redress</i>	(2,000)	(1,110)
	– <i>Gain on US Lehman acquisition assets</i>	259	461
	– <i>Provision for ongoing investigations and litigation relating to Foreign Exchange</i>	–	(1,250)
	– <i>Loss on announced sale of the Spanish business</i>	–	(446)
	– <i>ESHLA valuation revision</i>	–	(935)
	– <i>Own credit and goodwill impairment</i>	(299)	34
Statutory profit before tax	2,868	2,256	
Statutory attributable profit/(loss)	540	(174)	
Basic EPS ¹	15.3p	17.3p	
Return on average equity ¹	4.1%	5.1%	

Financial performance

- Adjusted profit before tax increased by 12% to £5.5bn as PCB and Barclaycard continued to grow profits. This was partly offset by reduced income in the Investment Bank, which made progress on its origination-led strategy whilst driving cost savings and RWA efficiencies
- Adjusted income decreased 8% while impairment reduced by 29% due to a £732m reduction in Non-Core to £168m and 8% reduction in the Core business
- Total adjusted operating expenses decreased 9% to £18.1bn driven by savings from Transform programmes and favourable currency movements. Operating expenses excluding CTA were £16.9bn, down from £18.7bn in 2013 and ahead of the £17bn 2014 target
- Adjusted attributable profit was £2.8bn, resulting in EPS of 17.3p
- Core RoE was 9.2% (or 10.9% excluding CTA) – Group RoE was 5.1%
- Barclays Non-Core attributable loss reduced by 43% to £1.1bn, and RoE drag fell to 4.1%

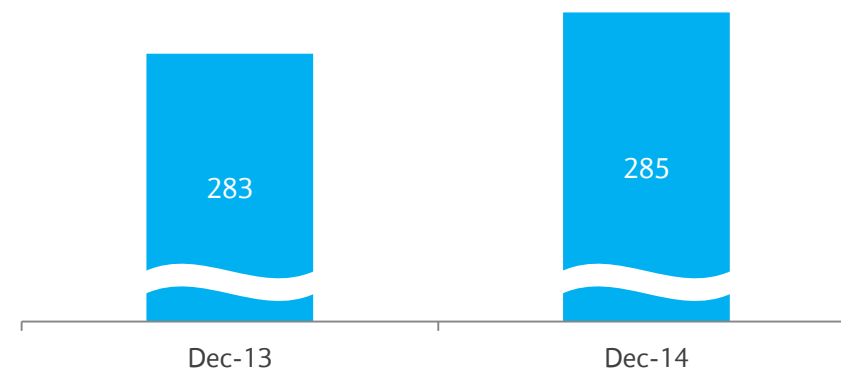

¹ EPS and RoE calculations are based on adjusted attributable profit, also taking into account tax credits on AT1 coupons |

Strengthening key financial metrics

Fully loaded CRD IV CET1 ratio¹

TNAV (pence per share)

Leverage ratio³

Dividends paid to shareholders (£m)

¹ Based on Barclays interpretation of the final CRD IV text and latest EBA technical standards | ² Including sale of the Spanish business which was completed on 2 January 2015 | ³ Dec-13 and Mar-13 not comparable to the estimates as of Jun-14 onwards due to different basis of preparation. Dec-13 and Mar-13 estimated ratio and T1 capital based on PRA leverage ratio calculated as fully loaded CRD IV T1 capital adjusted for certain PRA defined deductions, and a PRA adjusted leverage exposure measure. From Jun-14 onwards, estimated ratios based on current understanding of the BCBS 270 standards and the requirements contained in the European Commission delegated act |

Core business performing well

Year ended – December (£m)	2013	2014
Income	25,603	24,678
Impairment	(2,171)	(2,000)
Total operating expenses	(17,048)	(16,058)
– <i>Costs to achieve Transform (CTA)</i>	(671)	(953)
Adjusted profit before tax	6,470	6,682
Tax	(1,754)	(1,976)
NCI and other equity interests	(638)	(842)
Adjusted attributable profit	4,078	3,864
Adjusted financial performance measures		
Average allocated equity	£36bn	£42bn
Return on average tangible equity	14.4%	11.3%
Return on average equity	11.3%	9.2%
Cost: income ratio	67%	65%
Basic EPS contribution	28.5p	24.0p
	Dec-13	Dec-14
CRD IV RWAs	£333bn	£327bn
Leverage exposure ¹	n/a	£956bn

Financial performance

- PBT up 3% at £6.7bn:
 - PCB and Barclaycard profits up 29% and 13% respectively
 - Africa Banking profits down 6%, but up 13% on a constant currency basis
 - Investment Bank profits down 32% in a year of transition
- Income fell 4% to £24.7bn
- Impairment improved by 8% to £2.0bn, reflecting the improving UK economic environment benefitting PCB and reduced impairment in Africa Banking South Africa mortgages portfolio
- Operating expenses down 6% to £16.1bn reflecting Transform savings across the businesses, partially offset by an increase in CTA spend, including restructuring of the branch network and technology improvements to increase automation in PCB
- Core attributable profit was £3.9bn with Core EPS of 24p
- Core RoE was 9.2% (10.9% excluding CTA) on average allocated equity of £42bn, up £6bn from 2013

¹ BCBS 270 leverage exposure. All references to leverage exposure in this document is on this basis |

Core income – growth in NII

Core income year ended – December (£m)	2013	2014
Personal and Corporate Banking	8,723	8,828
Barclaycard	4,103	4,356
Africa Banking	4,039	3,664
Investment Bank	8,596	7,588
Total Core ¹	25,603	24,678

- Improved performance in PCB and Barclaycard income
 - PCB grew NII 7% driven by lending and deposit growth and margin improvement
 - Barclaycard grew NII 8% driven by volume growth
- Africa Banking income was up 7% on a constant currency basis, with NII up 9% on the same basis

Average customer assets and liabilities² (£bn)

- Average customer assets increased 2.7% to £280bn, with growth in PCB and Barclaycard, and in Africa Banking on a constant currency basis

Net interest margin² (bps)

- NIM increased from 402bps to 408bps, measured across PCB, Barclaycard and Africa Banking

NII for these businesses² grew 4%, reflecting an increase in customer assets and NIM

¹ Includes Head Office income | ² For Personal and Corporate Banking, Barclaycard and Africa Banking |

Continued strong asset quality

Impairment charge (£m)

Highlights

- Credit impairment charges improved 8% to £2bn, reflecting lower impairments in PCB and Africa Banking
- PCB benefitted from the improving economic environment in the UK, particularly for Corporate which benefited from one-off releases and lower defaults from large UK Corporate clients
- Africa Banking saw improvements in the South Africa mortgages portfolio and business banking
- Barclaycard increased 8% due to asset growth and enhanced coverage for forbearance. Delinquency rates remained broadly stable and the loan loss rate reduced 24bps to 308bps

Personal and Corporate Banking

Impairment (£m)

Barclaycard

Africa Banking¹

¹ Africa Banking impairment was down 14% on a constant currency basis |

PCB: Profits up 29%

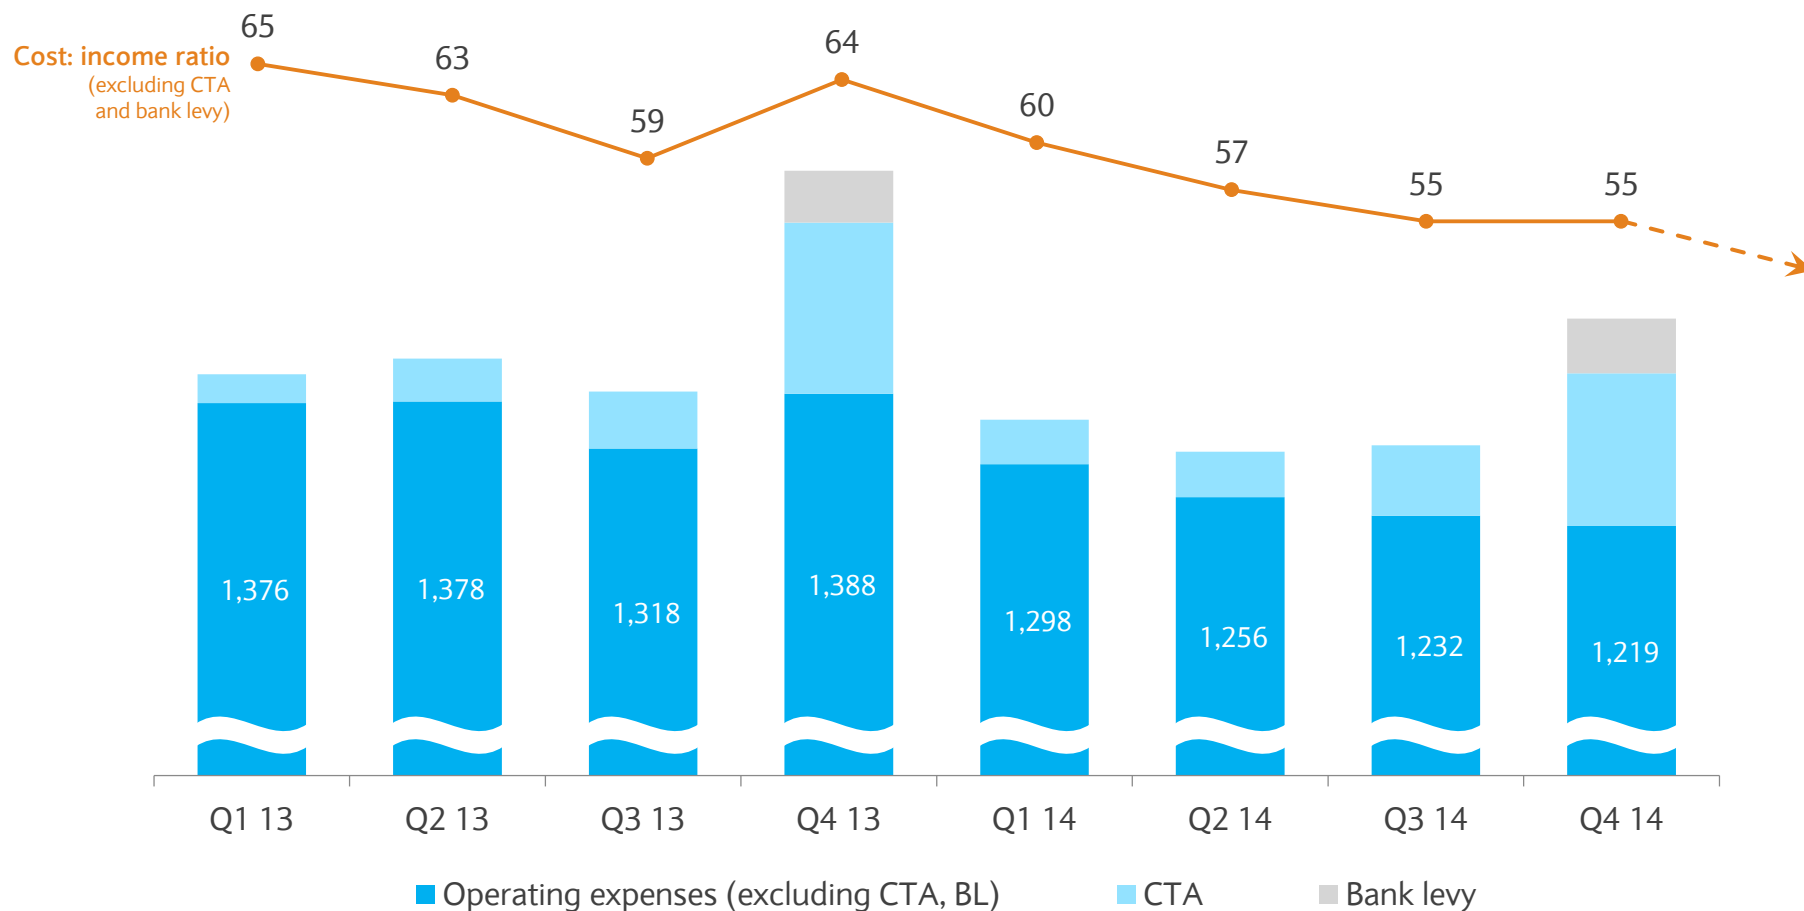

Year ended – December (£m)	2013	2014
Income	8,723	8,828
Impairment	(621)	(482)
Total operating expenses	(5,910)	(5,475)
– <i>Costs to achieve Transform</i>	(384)	(400)
Profit before tax	2,233	2,885
Financial performance measures		
Average allocated equity	£17.3bn	£17.5bn
Return on average tangible equity	12.7%	15.8%
Return on average equity	9.7%	11.9%
Cost: income ratio ¹	68%	62%
Loan loss rate	28bps	21bps
Net interest margin	2.91%	3.00%
	Dec-13	Dec-14
Loans and advances to customers	£212.2bn	£217.0bn
Customer deposits	£295.9bn	£299.2bn
CRD IV RWAs	£118.3bn	£120.2bn

Financial performance

- Total income increased 1% to £8.8bn due to balance growth and improved savings margins in Personal
- Net interest margin improved by 9bps to 300bps driven primarily by personal savings
- Credit impairment charges improved 22% due to the improving economic environment in the UK
 - Corporate benefitted from one-off releases and lower defaults from large UK Corporate clients
- Costs fell 7% due to savings from Transform programme, including branch optimisation (net branch closure of 72) and increased automation from technology improvements
- Positive jaws contributed to an increased RoE of 11.9%, while RoTE improved to 15.8%
- Continue to lead the UK banking market in technology:
 - 3.6 million customers of mobile banking
 - 2.2 million customers of Pingit
 - Payment volume through our Pingit app grew almost threefold in 2014
 - The number of personal unsecured loans originating through digital channels increased by over 80% year-on-year, and this now accounts for c. 35% of all personal unsecured lending
- UK mortgage market stock share was 10.1%²

¹ 2014 CIR excluding CTA was 57% | ² Bank of England lending statistics (December 2014) |

PCB: Positive jaws delivering reduction in cost: income ratio

Barclaycard: Profits up 13%

Year ended – December (£m)	2013	2014
Income	4,103	4,356
Impairment	(1,096)	(1,183)
Total operating expenses	(1,857)	(1,874)
– <i>Costs to achieve Transform</i>	(49)	(118)
Profit before tax	1,183	1,339
Financial performance measures		
Average allocated equity	£5.3bn	£5.9bn
Return on average tangible equity	19.9%	19.9%
Return on average equity	15.5%	16.0%
Cost: income ratio	45%	43%
Loan loss rate	332bps	308bps
Net interest margin	8.99%	8.75%
	Dec-13	Dec-14
Loans and advances to customers	£31.5bn	£36.6bn
Customer deposits	£5.1bn	£7.3bn
CRD IV RWAs	£35.7bn	£39.9bn

Financial performance

- Strong customer number and asset growth across all geographies
- Income increased 6%, reflecting growth in the UK consumer and merchant, Germany and US businesses, partially offset by depreciation of average USD against GBP
- NII increased 8% to £3bn driven by volume growth; NIM decreased to 8.75% from 8.99% due to a change in product mix and impact of promotional offers
- Impairment increased 8% due to asset growth and enhanced coverage for forbearance. Delinquency rates remained broadly stable and the loan loss rate reduced 24bps to 308bps
- Costs broadly flat despite continued investment in the business
- RoE increased to 16%
- Net L&A increased 16% reflecting growth across all geographies, including the impact of promotional offers and the acquisition of portfolios in the US
- 14% growth in customers and 9% increase in payments processed

Africa Banking: Constant currency profits up 13%

Year ended ¹ – December (£m)	2013	2013 Constant Currency	2014
Income	4,039	3,435	3,664
Impairment	(479)	(406)	(349)
Total operating expenses	(2,519)	(2,163)	(2,342)

Loan loss rate	128bps		93bps
Net interest margin	5.81%		5.95%
	Dec-13	Dec-13 Constant Currency	Dec-14
Loans and advances to customers	£34.9bn	£33.6bn	£35.2bn
Customer deposits	£34.6bn	£33.3bn	£35.0bn
CRD IV RWAs	£38.0bn		£38.5bn

Financial performance

Constant currency basis

- PBT increased by 13%, driven by 7% income growth and a 14% reduction in credit impairment charges
 - NII benefitted from increased NIM driven by higher deposit margins in RBB South Africa in addition to strong growth in Corporate and Investment Banking loans
- Impairment reduced 14% and the LLR improved by 35bps to 93bps driven by South Africa mortgages and business banking, partially offset by an increase in the card portfolio
- Costs were up 8% due to inflationary increases resulting in higher staff costs. There was also increased CTA and spend on other key initiatives
- RoE increased to 9.3% while RoTE was 12.9%

¹ Africa Banking business unit performance based on BAGL results, including Egypt and Zimbabwe | ² Barclays share of the statutory equity of the BAGL entity (together with that of the Barclays Egypt and Zimbabwe businesses which remain outside the BAGL corporate entity), as well as the Barclays' goodwill on acquisition of these businesses. The tangible equity for RoTE uses the same basis but excludes both the Barclays' goodwill on acquisition and the goodwill and intangibles held within the BAGL statutory equity |

Investment Bank: New strategy underpinning Q4 performance

Year ended – December (£m)	2013	2014
– Banking	2,485	2,528

Q4 13	Q4 14	% Change
639	638	–
1,146	1,028	(10%)
(3)	-	
1,782	1,666	(7%)

Financial performance

Q4 14 vs. Q4 13

- Banking is in line with prior year at £638m. Decrease in Investment Banking fees was offset by an increase in Lending income
- Markets income decreased 10%
 - Credit down 25% to £173m
 - Equities up 2% to £431m
 - Macro down 14% to £424m

FY14 vs. FY13

- Income decreased 12%
- Operating expenses decreased 6% reflecting a 9% reduction in compensation costs, as well as Transform savings
- FY14 highlights
 - #2 in All International Bonds¹
 - Banking strength in dual home markets with #2 position in total UK fees and #6 in the US¹

¹ Source: Dealogic |

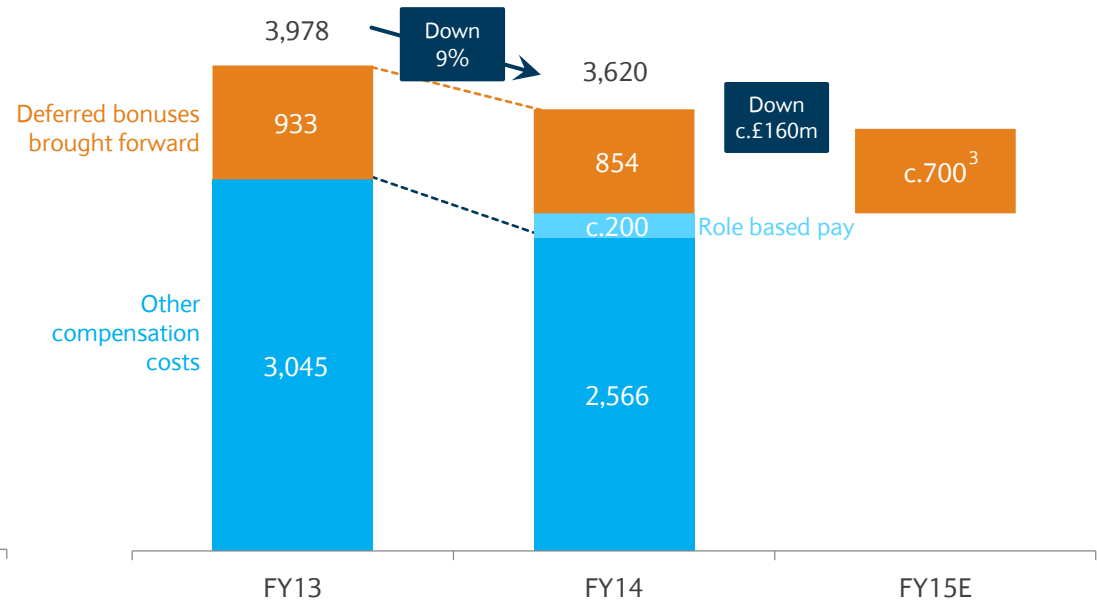

Investment Bank: Downward trend in compensation charge

Investment Bank operating expenses (£m)

Investment Bank – Compensation actions

- Headcount down by 2,100 net
- Incentive awards down 24%
- Role based pay introduced and charged in 2014
- Deferred bonus brought forward of £854m, but on downward trend

¹ Excludes compensation related CTA of £37m | ² Excludes CTA and bank levy | ³ The actual amount charged depends upon whether conditions have been met and will vary compared with the above expectation |

Barclays Non-Core: Continued shrinkage and capital return

Year ended – December (£m)	2013	2014
– <i>Businesses</i>	1,498	1,101
– <i>Securities and Loans</i>	642	117
– <i>Derivatives</i>	153	(168)
Income	2,293	1,050
Impairment	(900)	(168)
Total operating expenses	(2,845)	(2,011)
– <i>Costs to achieve Transform (CTA)</i>	(538)	(212)
Loss before tax	(1,562)	(1,180)
Tax	(209)	272
NCI and other equity interests	(119)	(177)
Attributable profit/(loss)	(1,890)	(1,085)
Financial performance measures		
Average allocated equity ¹	£17bn	£13bn
Period end allocated equity	£15bn	£11bn
Return on average tangible equity drag	(9.6%)	(5.4%)
Return on average equity drag	(7.2%)	(4.1%)
Basic EPS contribution	(13.2p)	(6.7p)

Highlights

- Loss before tax reduced by 24% to £1,180m as improvements in impairments and costs were partially offset by significant declines in income due to sales and rundown of businesses, securities and loans and the non-recurrence of favourable fair value movements on derivatives
- 2013 CTA spend primarily reflects restructuring in Europe, with the subsequent savings flowing through 2014 operating expenses
- The income and costs relating to Spain will exit on completion, with a c.£280m reduction in annualised income, offset by c.£240m saving in gross costs
- Period end equity reduced by £4.1bn to £11.0bn
- Reduced loss and lower allocated equity reduced drag on Group RoE to 4.1%, well within the 6% to 3% drag guidance

Barclays Non-Core: Income and cost profile

Non-Core quarterly income (£m)

Non-Core quarterly costs – excluding litigation, CTA and BL (£m)

Non-Core annual income (£m)

Non-Core annual costs (£m)

RoE drag is expected to track between 6% and 3% between now and the 2016 target of <3%

Barclays Non-Core: Outperforming on RWA

RWA reduction bridge (£bn)

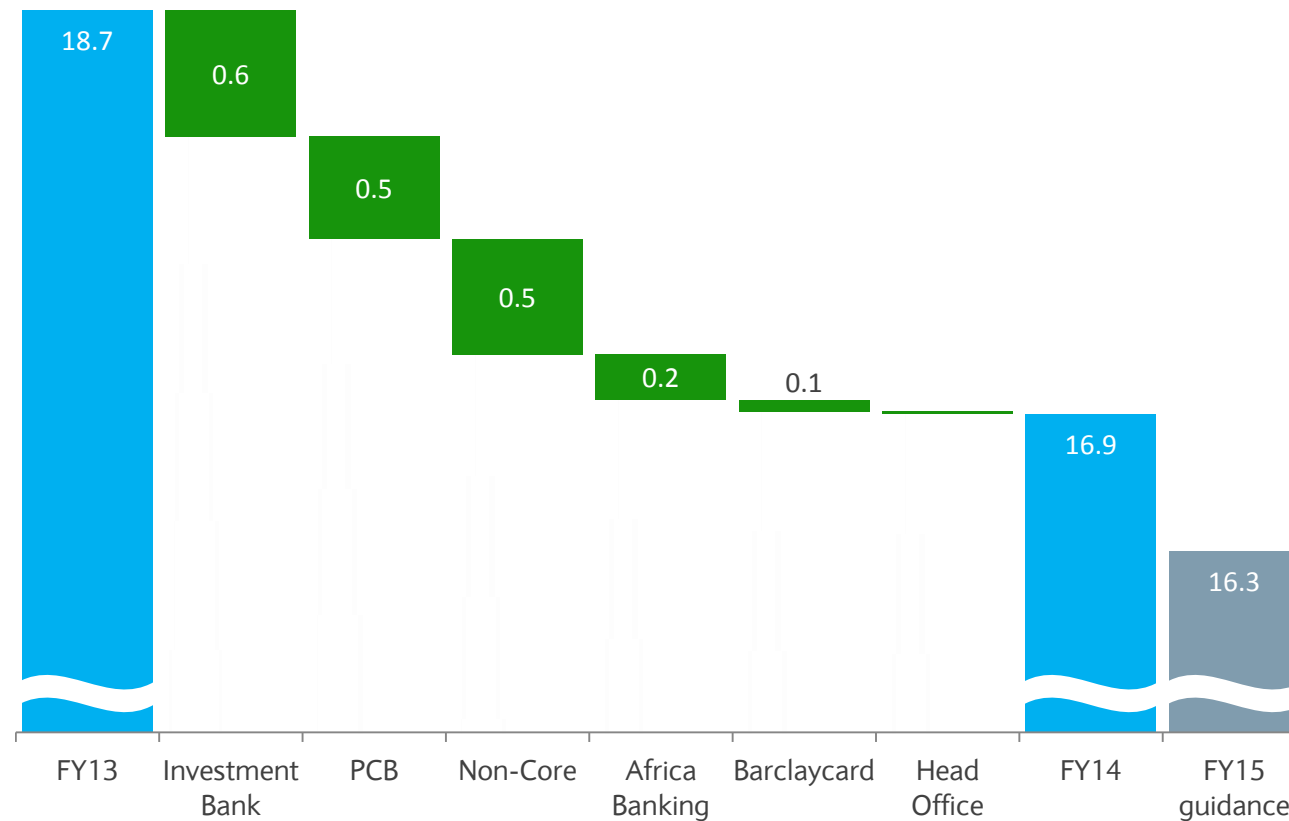

RWA by type (£bn)

¹ Derivatives figure for Sep-14 has been adjusted following reclassification of assets previously reported in securities and loans | ² Portion of Spain within Barclays Non-Core | ³ 2016 target amended to reflect the impact of Spain |

Operating expenses significantly reduced

Operating expenses progress – excluding CTA (£bn)

Highlights

- Transform saves:
 - FTE reductions from Investment Bank front office restructuring, branch network transformation in UK and Africa and restructuring of the European business
 - Optimisation of IT platforms, consolidation of middle office functions in the Investment Bank and process improvements
- Reduction of performance costs mainly in the Investment Bank and PCB
- Favourable currency moves from a cost perspective in Africa Banking, the Investment Bank and Barclaycard

Financial highlights

Increased adjusted pre-tax profits by 12% – Core up 3%, Non-Core losses down 24%

Costs excluding CTA £16.9bn, ahead of £17bn guidance

Building capital: CET1 ratio 10.5% and BCBS leverage ratio 3.8%¹

Core business performed well with PBT of £6.7bn and RoE of 9.2% (10.9% ex-CTA)

Strong progress on shrinking Non-Core and releasing capital

¹ Including Spain disposal |

Forward-looking Statements

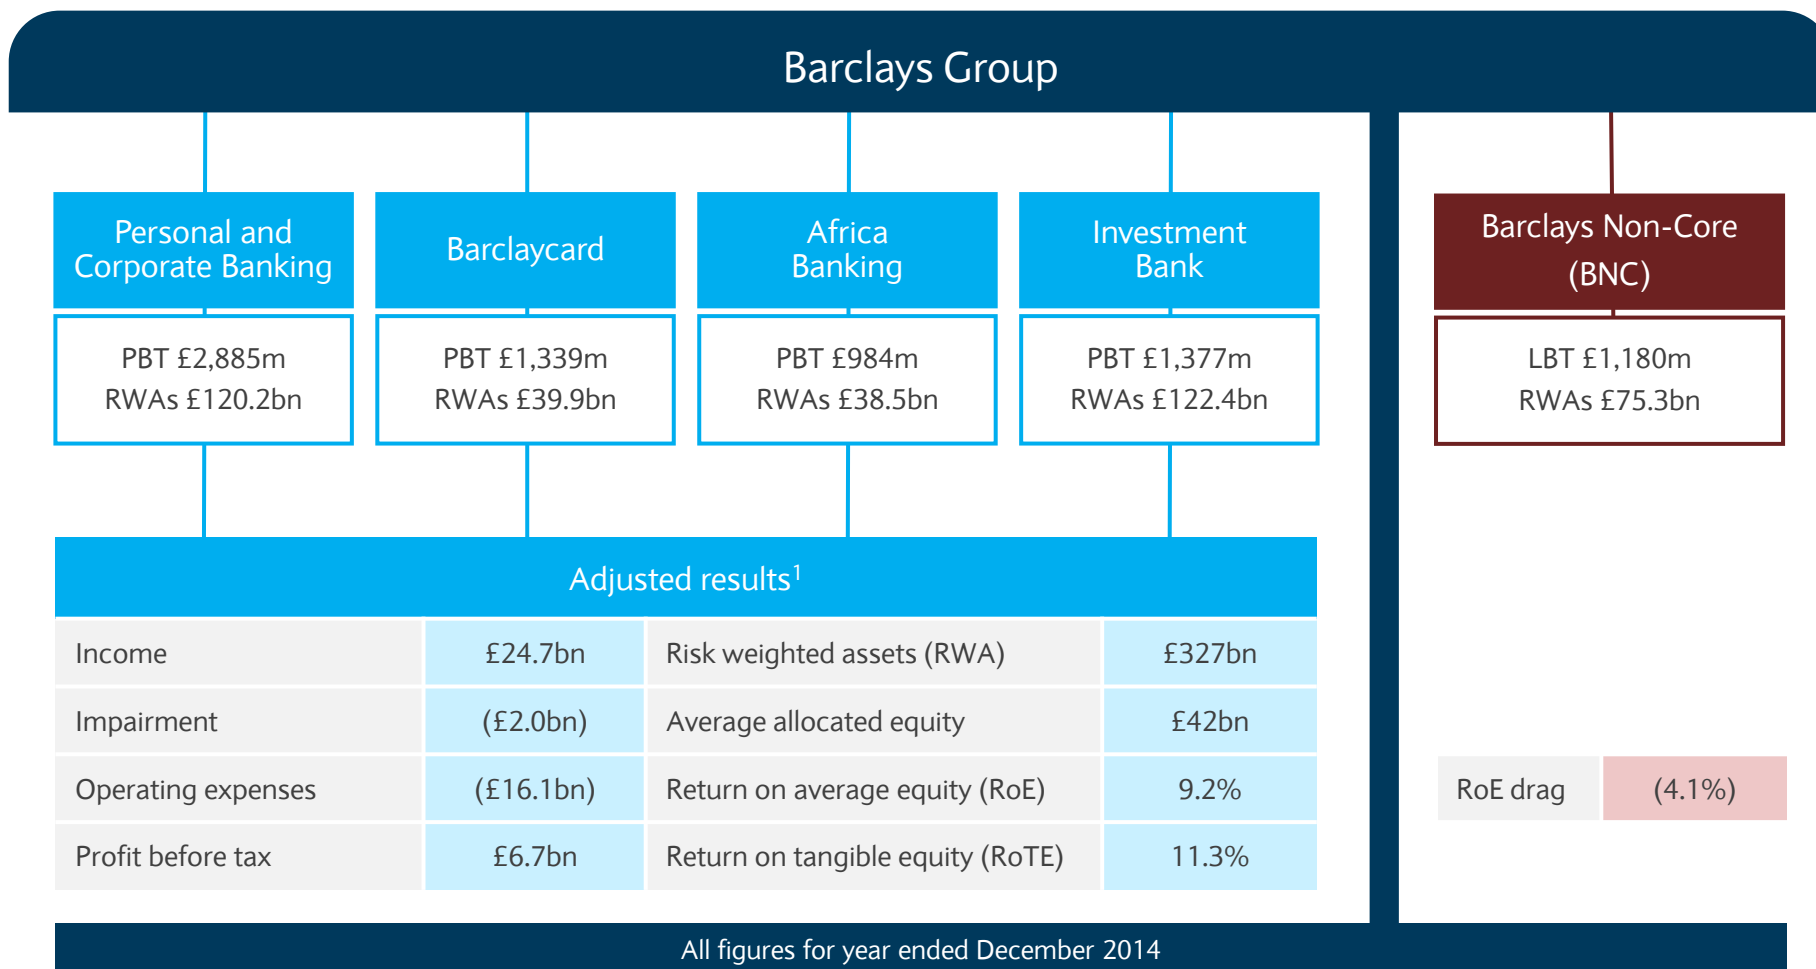

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to certain of the Group's plans and its current goals and expectations relating to its future financial condition and performance. Barclays cautions readers that no forward-looking statement is a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking statements. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as 'may', 'will', 'seek', 'continue', 'aim', 'anticipate', 'target', 'projected', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', 'achieve' or other words of similar meaning. Examples of forward-looking statements include, among others, statements regarding the Group's future financial position, income growth, assets, impairment charges and provisions, business strategy, capital, leverage and other regulatory ratios, payment of dividends (including dividend pay-out ratios), projected levels of growth in the banking and financial markets, projected costs or savings, original and revised commitments and targets in connection with the Transform Programme and Group Strategy Update, run-down of assets and businesses within Barclays Non-Core, estimates of capital expenditures and plans and objectives for future operations, projected employee numbers and other statements that are not historical fact. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. These may be affected by changes in legislation, the development of standards and interpretations under International Financial Reporting Standards (IFRS), evolving practices with regard to the interpretation and application of accounting and regulatory standards, the outcome of current and future legal proceedings and regulatory investigations, future levels of conduct provisions, the policies and actions of governmental and regulatory authorities, geopolitical risks and the impact of competition. In addition, factors including (but not limited to) the following may have an effect: capital, leverage and other regulatory rules (including with regard to the future structure of the Group) applicable to past, current and future periods; UK, US, Africa, Eurozone and global macroeconomic and business conditions; the effects of continued volatility in credit markets; market related risks such as changes in interest rates and foreign exchange rates; effects of changes in valuation of credit market exposures; changes in valuation of issued securities; volatility in capital markets; changes in credit ratings of the Group; the potential for one or more countries exiting the Eurozone; the impact of EU and US sanctions on Russia; the implementation of the Transform Programme; and the success of future acquisitions, disposals and other strategic transactions. A number of these influences and factors are beyond the Group's control. As a result, the Group's actual future results, dividend payments, and capital and leverage ratios may differ materially from the plans, goals, and expectations set forth in the Group's forward-looking statements. Additional risks and factors are identified in our filings with the SEC, including our Annual Report on Form 20-F for the fiscal year ended 31 December 2014 ("2014 20-F"), which are available on the SEC's website at <http://www.sec.gov>.

Any forward-looking statements made herein speak only as of the date they are made and it should not be assumed that they have been revised or updated in the light of new information or future events. Except as required by the Prudential Regulation Authority, the Financial Conduct Authority, the London Stock Exchange plc (the LSE) or applicable law, Barclays expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Barclays' expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The reader should, however, consult any additional disclosures that Barclays has made or may make in documents it has published or may publish via the Regulatory News Service of the LSE and/or has filed or may file with the SEC, including the 2014 20-F.

Africa Banking	2,245	38,640	5.81	2,093	35,153	5.95
Total Personal and Corporate Banking, Barclaycard and Africa Banking	10,967	272,596	4.02	11,435	279,955	4.08
Group	11,600			12,080		

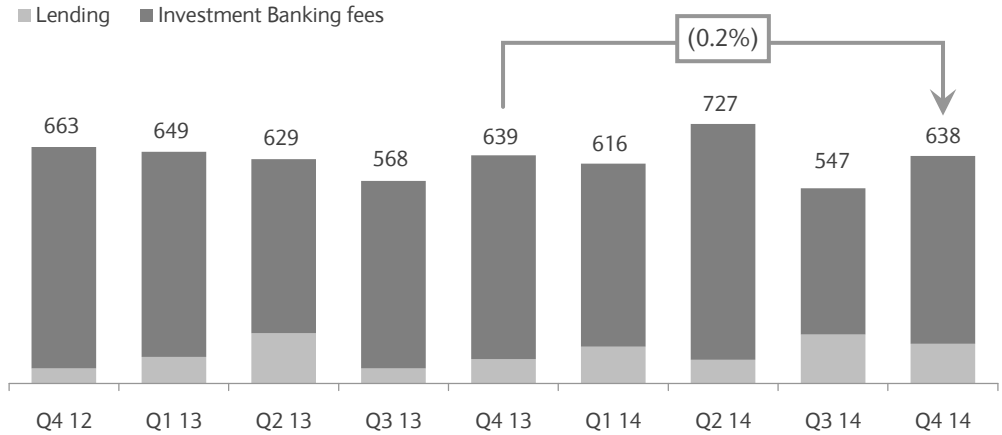

¹ Margins are calculated as net interest income over average customer assets |

Investment Bank: Quarterly progression

Q4 on Q4 change in income (£m)

Banking (£m)

Markets (£m)

TNAV

Tangible net asset value (pence per share)

¹ Includes dividend |

Highlights

- TNAV decreased 2p over the past three months to 285p
- £1.2bn increase in the cash flow hedging reserve due to a decrease in the forward interest rate curve which resulted in mark to market gains
- The strengthening of USD against GBP led to a £0.7bn increase in the currency translation reserve and a 4p improvement in TNAV per share
- Adjusting items reduced TNAV per share by 12p, mainly driven by the FX provision and ESHLA valuation revision
- Dividend paid in the quarter reduced TNAV per share by 1p

Group cost targets

Group cost guidance¹ (£bn)

Core cost targets¹ (£bn)

■ Core cost target

¹ Excludes provisions for PPI, IRHP and FX redress, goodwill impairment and CTA | ² 2016 CTA target of c.£0.2bn |

Core operating costs

Core operating expenses (£bn)

■ Staff costs ■ Other operating costs ■ Costs to achieve Transform

Highlights

- Core costs (excluding CTA) decreased by 8% year-on-year driven by Transform saves as well as currency movements
- Transform initiatives delivered significant and sustainable cost reductions across all businesses driven by restructuring, industrialisation and automation
- Savings were partially offset by increased costs of litigation and conduct charges and associated legal fees
- Net headcount reduced by 6,200 (5%) driven by voluntary redundancies through branch rationalisation and front office restructuring in the Investment Bank which was partially offset by in-sourcing in Barclaycard
- CTA increased by £300m year-on-year primarily reflecting further restructuring in the Investment Bank

Personal and Corporate Banking

Barclaycard

Africa Banking¹

Investment Bank

■ Operating costs (excluding CTA and bank levy) (£bn)

¹ Africa Banking operating expenses were up 7% on a constant currency basis, due to local inflationary pressures and investment |

Good progress on CET1 ratio towards 2016 Transform target

Fully loaded (FL) CRD IV CET1 ratio progression¹

- FL CRD IV CET1 ratio up 120bps, or c.140bps if including the sale of the Spanish businesses, demonstrating good progress towards 2016 Transform target of greater than 11%
- Continued capital build as FL CRDIV CET1 capital grew by £1.1bn to £41.5bn, after absorbing £3.3bn of adjusting items
- Confident that our planned trajectory positions us well to meet future regulatory requirements

RWA reduction (£bn)

- RWAs reduced by £41bn, or £46bn including the sale of the Spanish businesses, reflecting excellent progress on the run-down of Non-Core to £75bn
- Increases due to model updates largely offset by methodology and policy driven decreases

¹ Based on Barclays interpretation of the final CRD IV text and latest EBA technical standards. Following the full implementation of CRD IV reporting in 2014, the previously reported 31 December 2013 RWAs were revised by £6.9bn to £442bn and fully loaded CET1 ratio by (0.2%) to 9.1% | ² As announced on 2 January 2015 |

Progressive implementation of CET1 requirements

Regulatory targets, excluding internal buffer

- CRD IV minimum CET1 requirement
- Pillar 2A met with CET1 capital (varies annually)
- Fully loaded combined buffer requirement, excluding CCCB
- PRA regulatory minimum¹
- ➔ Barclays fully loaded CRD IV CET1 ratio progression

Key assumptions in this illustration

- CET1 minimum requirements per PRA implementation of Capital Requirements Regulation (CRR)
- Pillar 2A met with CET1 capital for 2014 is 1.6% of RWAs; subject to at least annual review², we hold it constant in 2019 for illustration purposes
- Combined buffer requirement (and associated rules for mandatory distribution restrictions), consisting of 2.5% capital conservation buffer and 2% G-SII buffer, transitions in from 1 January 2016 at 25% per annum
- In 2019, we have assumed that the PRA buffer will be less than 4.5% combined buffer requirement; however, this may not be the case
- Countercyclical (CCCB), other systemic and sectoral buffers are currently assumed to be zero³
- Internal management buffer, currently 1.5%, will be recalibrated over time and may be less than 1.5% by 2019

¹ Being the higher of 7% PRA expectation and CRD IV capital requirements | ² Held constant for illustration | ³ These buffers could be applied at the Group level, or at a legal entity, sub-consolidated or portfolio level |

Leverage ratio progression ahead of plan

Leverage ratio progression¹

- Leverage ratio up significantly to 3.7%, or 3.8% if reflecting the sale of the Spanish businesses², well on track to meet 2016 Transform target of in excess of 4%
- Improvement over the year driven by T1 capital growth, including £2.3bn of AT1 issuance, and leverage exposure reduction
- Leverage ratio already in line with expected minimum end-state requirement of 3.7% as outlined by the Financial Policy Committee

Leverage exposure reduction (£trn)¹

- Significant reduction in leverage exposure, driven principally by reductions in Non-Core and in the Core Investment Bank
- Leverage exposure decreased by £91bn in Q4 2014 driven mainly by a £35bn reduction in SFT exposure, £16bn reduction in PFE, and a seasonal £28bn reduction in settlement balances

¹ Dec-13 not comparable to the estimates as of Jun-14 onwards due to different basis of preparation. Dec-13 estimated ratio and T1 capital based on PRA leverage ratio calculated as fully loaded CRD IV T1 capital adjusted for certain PRA defined deductions, and a PRA adjusted leverage exposure measure. From Jun-14 onwards, estimated ratios based on current understanding of the BCBS 270 standards and the requirements contained in the European Commission delegated act. ² As announced on 2 January 2015

Steady progression on leverage ratio

BCBS leverage exposure¹ (£bn)

Highlights

- Leverage exposures during Q4 14 decreased by £91bn to £1,233bn
- Loans and advances and other assets decreased by £52bn to £713bn primarily due to a seasonal reduction in settlement balances of £28bn and a £13bn reduction in cash balances
- SFTs decreased £35bn to £157bn driven by a £26bn reduction in IFRS reverse repurchase agreements and £9bn in SFT adjustments, reflecting deleveraging in BNC and a seasonal reduction in trading volumes
- Total derivative exposures decreased £8bn due to a £16bn reduction in the potential future exposure (PFE), partially offset by an increase in IFRS derivatives and cash collateral
 - PFE on derivatives decreased £16bn to £179bn mainly due to reductions in business activity and optimisations, including trade compressions and tear-ups. This was partially offset by an increase relating to sold options driven by a change to the basis of calculation
 - Other derivatives exposures (excluding PFE) increased £8bn to £92bn driven by an increase in IFRS derivatives of £57bn to £440bn and cash collateral £13bn to £73bn. This was broadly offset by increases in allowable derivatives netting

¹ Current understanding of the BCBS 270 standards and the requirements contained in the European Commission delegated act | ² Loans and advances and other assets net of regulatory deductions and other adjustments |

Proxy Total Loss Absorbing Capacity (TLAC)¹

(£bn)	Dec-14
PRA transitional Common Equity Tier 1 capital	41
PRA transitional Additional Tier 1 regulatory capital	11
<i>Barclays PLC (HoldCo)</i>	4
<i>Barclays Bank PLC (OpCo)</i>	7
PRA transitional Tier 2 regulatory capital	14
<i>Barclays PLC (HoldCo)</i>	1
<i>Barclays Bank PLC (OpCo)</i>	13
PRA transitional total regulatory capital	66
HoldCo term non-structured senior unsecured debt ²	2
OpCo term non-structured senior unsecured debt ³	29
Total term non-structured senior unsecured debt	97
CRD IV RWAs	402
BCBS leverage exposure	1,233
Proxy risk-weighted TLAC ratio	~ 24%
Proxy leverage based TLAC ratio	~ 8%

- Proactive transition towards a HoldCo funding and capital model positions us well to meet potential future TLAC requirements
- While requirements remain to be set, Barclays current expectation is a multi-year conformance period
- Good portion of OpCo term senior unsecured debt maturing before 2019 which can be refinanced from HoldCo
- Based on Barclays current interpretation of TLAC requirements, proxy TLAC ratio at 24%⁴ on the assumption that Barclays Bank PLC term non-structured senior unsecured debt is refinanced from HoldCo and subordinated to OpCo excluded liabilities
- Currently do not intend to use HoldCo senior unsecured debt proceeds to subscribe for OpCo liabilities on a subordinated basis until required to do so
- The future TLAC-ratio will further benefit from CET1 capital growth and AT1 issuance towards end-state expectations
- As TLAC rules are finalised and as we approach implementation date, we will assess the appropriate composition and quantum of our future TLAC stack

¹ For illustrative purposes only reflecting Barclays interpretation of the FSB Consultative Document on "Adequacy of loss-absorbing capacity of global systemically important banks in resolution", including certain assumptions on the inclusion or exclusion of certain liabilities where further regulatory guidance is necessary. Evolving regulation, including the implementation of MREL beginning 1 Jan 2016 and any subsequent regulatory policy interpretations, may require a change to the current approach. ² Barclays PLC issued senior unsecured term debt assumed to qualify for consolidated TLAC purposes. ³ Comprise all outstanding Barclays Bank PLC issued public and private term senior unsecured debt, regardless of residual maturity. This excludes £35bn of notes issued under the structured notes programmes. ⁴ Including the 4.5% combined buffer requirement which needs to be met in CET1. The combined buffer requirement comprises a 2% G-SII buffer and 2.5% capital conservation buffer a fully phased in basis.

Continued progress on the transition towards our 'target' end-state capital structure

Evolution of capital structure

Fully loaded CRD IV capital position

- Fully loaded CRD IV CET1 ratio at 10.3% (10.2% on PRA transitional basis) on track to meet our target of > 11% in 2016. The ratio was well in excess of the 7% PRA regulatory target²
- Robust buffers to contingent capital triggers³
 - AT1 contingent capital: c.330bps or £13.3bn
 - T2 contingent capital: c.530bps or £21.5bn⁴
- As we build CET1 capital over the transitional period, we expect to reach a range of 11.5-12% in end-state reflecting our intention to hold an internal management buffer of up to 150bps over future minimum requirements⁵
- Transitional total capital ratio increased to 16.5% (2013: 15.0%), and fully loaded total capital ratio increased to 15.4% (2013: 13.9%)
- Further clarity required on Total Loss Absorbing Capacity (TLAC) quantum and composition. In the interim, we continue to build towards our 'target' end-state capital structure which assumes at least 17% of total capital; final requirements subject to PRA discretion

Pillar 2A requirement⁶

- Barclays 2015 Pillar 2A requirement as per the PRA's Individual Capital Guidance (ICG) is 2.8%. The ICG is subject to at least annual review
 - CET1 of 1.6% (assuming 56%)
 - AT1 of 0.5% (assuming 19%)
 - T2 of 0.7% (assuming 25%)
- The PRA consultation on the Pillar 2 framework (CP1/15), and Basel Committee consultations and reviews of approaches to Pillar 1 and Pillar 2 risk might further impact the Pillar 2A requirement in the future

¹ Difference to fully loaded ratio of 10.3% arises from a regulatory adjustment relating to unrealised gains | ² Being the higher of 7% PRA expectation and CRD IV capital requirements | ³ CRD IV rules on mandatory distribution restrictions apply from 1 January 2016 onwards based on transitional CET1 requirements | ⁴ Based on the CRD IV CET1 transitional (FSA October 2012 statement) the ratio was 12.3% as at 31 December 2014 | ⁵ Barclays current regulatory target is to meet a FL CRD IV CET1 ratio of 9% by 2019, plus a Pillar 2A add-on. Pillar 2A requirements for 2015 held constant out to end-state for illustrative purposes. The PRA buffer is assumed to be below the combined buffer requirement of 4.5% in end-state albeit this might not be the case. CCCB, other systemic and sectoral buffer assumed to be zero | ⁶ Point in time assessment made at least annually, by the PRA, to reflect idiosyncratic risks not fully captured under Pillar 1 |

RWAs: Well managed to support business growth and returns

RWAs (£bn)

Highlights

- RWAs reduced by £40.6bn, or £46bn including the sale of the Spanish businesses, reflecting excellent progress on the rundown of Non-Core, allowing for growth in Core businesses
- Non-Core RWAs reduced £35bn to £75bn reflecting the disposal of businesses, rundown and exit of securities and loans, and derivative risk reductions
- If excluding the impact of methodology and model changes, Investment Bank RWAs reduced by £11bn driven principally by trading book risk reductions
- Increases due to model updates largely offset by methodology and policy driven decreases

¹ Excludes model and methodology driven movements | ² Includes foreign exchange movements of £(1.5)bn. This does not include movements for modelled counterparty risk or modelled market risk |

Capital resources¹

(£m)		30 September 2014	31 December 2014
Shareholders' equity (excluding non controlling interests) per the balance sheet		59,571	59,567
Less: other equity instruments (recognised as AT1 capital)		(4,317)	(4,322)
Adjustment to retained earnings for foreseeable dividends		(787)	(615)

¹ Estimates based on current understanding of the BCBS 270 standards and the requirements contained in the European Commission delegated act |

Maintaining a robust liquidity position, with pool well in excess of internal and external minimum requirements

High quality liquidity pool (£bn)

■ Cash & Deposits at Central Banks ■ Government Bonds ■ Other Available Liquidity

Estimated CRD IV/Basel 3 liquidity ratios¹

Metric	2013	2014	Expected 100% requirement date
LCR ²	96%	124%	1 January 2018
Surplus	-	£30bn	
NSFR ³	94%	102%	1 January 2018

Surplus to 30-day Barclays-specific LRA

	2013	2014
LRA	104%	124%
Surplus	£5bn	£29bn

Key messages

- Further strengthened liquidity position with the Group liquidity pool up by £22bn to £149bn, building a larger surplus to the internal Liquidity Risk Appetite
- Quality of the pool remains high:
 - 82% held in cash, deposits with central banks and high quality government bonds
 - Over 95% of government bonds are securities issued by UK, US, Japanese, French, German, Danish, Swiss and Dutch sovereigns
- Even though not a regulatory requirement, the size of our liquidity pool is almost double that of wholesale debt maturing in less than a year
- Additional significant sources of contingent funding in the form of high quality assets pre-positioned with central banks globally
- Continued strengthening of estimated CRD IV/Basel 3 liquidity ratios:
 - Estimated LCR increased to 124%, mainly due to the increase in the size of the liquidity pool, resulting in a £30bn surplus above the future 100% requirement
 - Estimated NSFR strengthened to 102%, primarily driven by the progress on run-down of Non-Core

¹ Barclays interpretation of current rules and guidance | ² LCR estimated based on the EU delegated act | ³ Estimated based on the final BCBS rules published in October 2014 |

We maintain access to stable and diverse sources of funding, across customer deposits and wholesale debt

Broadly self-funded retail businesses¹ (£bn)

Total funding (excluding BAGL)

¹ LDR for PCB, Barclaycard and Africa Banking also includes the Non-Core (retail) deposits |

Key messages

- Group Loan to Deposit Ratio (LDR) and the LDR for PCB, Barclaycard and Africa Banking broadly unchanged at 100% and 89% respectively¹
- Excess customer deposits in PCB, Barclaycard and Africa Banking predominantly used to fund the liquidity buffer requirements for these businesses, making them broadly self funded
- The Group issued £15bn of term funding net of early redemptions during 2014 (excluding FLS) across senior unsecured, secured and subordinated debt, against £24bn of maturities
- Overall funding requirements for the Group reducing as Non-Core assets are run down

2015 Funding Plan

- Expect to issue a gross amount of £10-15bn in 2015 across public and private senior unsecured, secured and subordinated debt, materially below term maturities of £23bn for the year
- Most capital and non-structured senior unsecured debt expected to be issued out of Barclays PLC, the HoldCo, going forward
- Secured, short-term and structured notes expected to continue to be issued out of Barclays Bank PLC, the OpCo
- We intend to maintain access to diverse wholesale funding, through different products, currencies, maturities and channels
- We expect to be a regular issuer of AT1 securities over the next few years

Passing stress tests – stressed CET1 ratios

■ Barclays CET1 stressed ratio ■ UK Peers CET1 stressed ratio

- Barclays has always maintained internal stress tests
- Barclays passed both the PRA and EBA stress tests in 2014, with stressed CET1 ratios ahead of UK peers
- Under the PRA test, the 7.0% represents pre-management actions, and significantly above the 4.5% minimum threshold

¹ Total on and off balance sheet |

Shrinking Level 3 assets

Spain now sold, and ESHLA re-marked (£bn)
