Results Overview – H122

- **Income up 17%** with broad-based and steady growth across all businesses
 - Income excluding benefit from hedging arrangements relating to Over-issuance of Securities up 10%
- **Costs up £1.8bn or 25%** primarily driven by higher L&C charges
 - Operating costs (which excludes L&C) up 2%
- **Credit impairment charge** remains lower than pre-pandemic levels
- **Attributable profit of £2.5bn generated EPS of 14.8p and RoTE of 10.1%**
- **CET1 ratio of 13.6%** - down c.150bps from Dec-21 mainly driven by 1 Jan 2022 regulatory changes, the share buyback of up to £1bn announced at FY21 results, dividend accrual and higher RWAs, partially offset by earnings
- **Increased capital distributions**, with a 2.25p half year dividend and intention to initiate a further share buyback of up to £0.5bn announced
- **TNAV per share increased 6p YTD** primarily reflecting 14.8p of EPS, partially offset by net negative reserve movements driven by higher interest rates

Important Notice

The terms Barclays or Group refer to Barclays PLC together with its subsidiaries. The information, statements and opinions contained in this presentation do not constitute a public offer under any applicable legislation, an offer to sell or solicitation of any offer to buy any securities or financial instruments, or any advice or recommendation with respect to such securities or other financial instruments.

Information relating to:

- regulatory capital, leverage, liquidity and resolution is based on Barclays' interpretation of applicable rules and regulations as currently in force and implemented in the UK, including, but not limited to, CRD IV (as amended by CRD V applicable as at the reporting date) and CRR (as amended by CRR II applicable as at the reporting date) texts and any applicable delegated acts, implementing acts or technical standards and as such rules and regulations form part of UK law pursuant to the EU (Withdrawal) Act 2018 (as amended). On 31 March 2022, the temporary transitional powers (TTP) available to UK regulators to delay or phase-in on-shoring of EU legislation into UK law ended with full compliance of the on-shored regulations required from 1 April 2022. All such regulatory requirements are subject to change and disclosures made by the Group will be subject to any resulting changes as at the applicable reporting date;
- MREL is based on Barclays' understanding of the Bank of England's policy statement on "The Bank of England's approach to setting a minimum requirement for own funds and eligible liabilities (MREL)" published in December 2021, updating the Bank of England's June 2018 policy statement, and its MREL requirements communicated to Barclays by the Bank of England. Binding future MREL requirements remain subject to change including at the conclusion of the transitional period, as determined by the Bank of England, taking into account a number of factors as described in the policy, along with international developments. The Pillar 2A requirement is also subject to at least annual review;
- future regulatory capital, liquidity, funding and/or MREL, including forward-looking illustrations, are provided for illustrative purposes only and are not forecasts of Barclays' results of operations or capital position or otherwise. Illustrations regarding the capital flight path, end-state capital evolution and expectations and MREL build are based on certain assumptions applicable at the date of publication only which cannot be assured and are subject to change.

Forward-looking Statements

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to the Group. Barclays cautions readers that no forward-looking statement is a guarantee of future performance and that actual results or other financial condition or performance measures could differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as 'may', 'will', 'seek', 'continue', 'aim', 'anticipate', 'target', 'projected', 'expect', 'estimate', 'intend', 'plan', 'goal', 'believe', 'achieve' or other words of similar meaning. Forward-looking statements can be made in writing but also may be made verbally by members of the management of the Group (including, without limitation, during management presentations to financial analysts) in connection with this document. Examples of forward-looking statements include, among others, statements or guidance regarding or relating to the Group's future financial position, income levels, assets and liabilities, impairment charges, provisions, capital, leverage and other regulatory ratios, capital distributions (including dividend pay-out ratios and expected payment strategies), projected levels of growth in banking and financial markets, projected expenditures, costs or savings, any commitments and targets (including, without limitation, environmental, social and governance (ESG) commitments and targets), business strategy, plans and objectives for future operations, group structure, IFRS impacts and other statements that are not historical or current facts. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward-looking statements speak only as at the date on which they are made. Forward-looking statements may be affected by a number of factors, including, without limitation: changes in legislation, regulation and the interpretation thereof, the development of IFRS and other accounting standards, evolving practices with regard to the interpretation and application of accounting standards, emerging and developing ESG reporting standards, the outcome of current and future legal proceedings and regulatory investigations and any related impact on provisions, the policies and actions of governmental and regulatory authorities, the Group's ability along with governments and other stakeholders to measure, manage and mitigate the impacts of climate change effectively, environmental, social and geopolitical risks and incidents or similar events beyond the Group's control, and the impact of competition. In addition, factors including (but not limited to) the following may have an effect: capital, leverage and other regulatory rules applicable to past, current and future periods; UK, US, Eurozone and global macroeconomic and business conditions; volatility in credit and capital markets; market related risks such as changes in interest rates and foreign exchange rates; changes in valuation of credit market exposures; changes in valuation of issued securities; changes in credit ratings of any entity within the Group or any securities issued by such entities; changes in counterparty risk; changes in consumer behaviour; the direct and indirect consequences of the Russia-Ukraine War on European and global macroeconomic conditions, political stability and financial markets; direct and indirect impacts of the coronavirus (COVID-19) pandemic; instability as a result of the UK's exit from the European Union (EU), the effects of the EU-UK Trade and Cooperation Agreement and the disruption that may subsequently result in the UK and globally; the risk of cyber-attacks, information or security breaches or technology failures on the Group's reputation, business or operations; the Group's ability to access funding; and the success of acquisitions, disposals and other strategic transactions. A number of these influences and factors are beyond the Group's control. As a result, the Group's actual financial position, future results, capital distributions, capital, leverage or other regulatory ratios or other financial and non-financial metrics or performance measures or ability to meet commitments and targets may differ materially from the statements or guidance set forth in the Group's forward-looking statements. Additional risks and factors which may impact the Group's future financial condition and performance are identified in Barclays PLC's filings with the SEC (including, without limitation, Barclays PLC's Annual Report on Form 20-F, as amended, for the financial year ended 31 December 2021), which are available on the SEC's website at www.sec.gov.

Subject to Barclays' obligations under the applicable laws and regulations of any relevant jurisdiction (including, without limitation, the UK and the US), in relation to disclosure and ongoing information, we undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Non-IFRS Performance Measures

Barclays management believes that the non-IFRS performance measures included in this document provide valuable information to the readers of the financial statements as they enable the reader to identify a more consistent basis for comparing the businesses' performance between financial periods, and provide more detail concerning the elements of performance which the managers of these businesses are most directly able to influence or are relevant for an assessment of the Group. They also reflect an important aspect of the way in which operating targets are defined and performance is monitored by management. However, any non-IFRS performance measures in this document are not a substitute for IFRS measures and readers should consider the IFRS measures as well. Non-IFRS performance measures are defined and reconciliations are available on our results announcement for the period ended 30 June 2022.
