**BARCLAYS BANK PLC**

*(Incorporated with limited liability in England and Wales)*

10 Index Linked Warrants due August 2021 ("**Tranche 1**")

Issue Price: GBP 25,000 per Warrant

This document constitutes the final terms of the Warrants (the "**Final Terms**") described herein for the purposes of Article 5.4 of the Prospectus Directive and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "**Issuer**"). These Final Terms are supplemental to and should be read in conjunction with the GSSP Base Prospectus 6 dated 12 June 2015 (the "**Base Prospectus**"), which constitutes a base prospectus for the purpose of the Prospectus Directive. Full information on the Issuer and the offer of the Warrants is only available on the basis of the combination of these Final Terms and the Base Prospectus. A summary of the individual issue of the Warrants is annexed to these Final Terms. Words and expressions defined in the Base Prospectus and not defined in this document shall bear the same meanings when used herein.

The Base Prospectus and any supplements thereto are available for viewing at <http://irreports.barclays.com/prospectuses-and-documentation/structured-securities/prospectuses> and during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office.

The Warrants contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority. Further, in certain circumstances, the Issuer may amend the terms and conditions of the Warrants, without the holders' consent. The Warrants permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Warrants, to cancel the Warrants prior to scheduled final cancellation, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Warrants, to change the currency in which payments are made under the Warrants, to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Warrants and the underlying asset(s) (if any).</p>   |

If the Settlement Value is not greater than the Exercise Price, the Warrants will be cancelled without exercise on the Exercise Date and no amount or entitlement will be payable or deliverable to investors.</p> <p>The Exercise Price for this issue of Warrants is GBP 2,500.</p> <p>The Settlement Value impacts the amount which is payable or the entitlement which is deliverable upon exercise. The Settlement Value will be calculated as the Exercise Price plus an amount dependent on the price or level of the Underlying</p> |

Asset on one or more specified dates during the life of the Warrants. In particular, the Settlement Value will depend on the following:

- The Exercise Price, being GBP 2,500;
- The "Initial Price" of the Underlying Asset, which reflects the price or level of that Underlying Asset near the issue date of the Warrants and is used as the reference point for determining the performance of any investment; and
- The "Final Valuation Price" of the Underlying Asset, which reflects the price or level of that Underlying Asset on or near the Exercise Date.
- The "Strike Price" of the Underlying Asset, which is calculated as 100.00% multiplied by the Initial Price of that Underlying Asset;
- The "Final Barrier" of the Underlying Asset, which is calculated as 80.00% multiplied by the Initial Price of that Underlying Asset;
- The "Knock-in Barrier Price" of the Underlying Asset, which is calculated as 50.00% multiplied by the Initial Price of that Underlying Asset;

**Initial Price:** The Initial Price of the Underlying Asset is the closing price or level of the Underlying Asset on 31 July 2015, as determined by the Determination Agent.

**Final Valuation Price:** The Final Valuation Price of the Underlying Asset is the closing price or level of the Underlying Asset on 2 August 2021, as determined by the Determination Agent.

#### **Calculation of the Settlement Value**

There are several threshold levels which will affect the calculation of the Settlement Value. In particular, the Settlement Value will be calculated differently depending on whether or not the price or level of the Underlying Asset on certain dates is equal to, above or below certain specified threshold levels. In other words, the Settlement Value will be calculated differently depending on whether or not the performance of the Underlying Asset satisfies certain "threshold tests".

**The first threshold test** for this issue of Warrants is whether or not:

The Final Valuation Price of the Underlying Asset is greater than or equal to the **Final Barrier** of the Underlying Asset.

**If the first threshold test is satisfied**, the Settlement Value will be calculated as follows:

Settlement Value = (i) the Exercise Price (being GBP 2,500 per Warrant), plus (ii) the Final Autocall Settlement Percentage (being 143.50%) multiplied by the Calculation Amount (being GBP 25,000)

**If the first threshold test is not satisfied**, a *second* threshold test will be considered:

**The second threshold test** for this issue of Warrants is whether or not:

The Final Valuation Price of the Underlying Asset is greater than or equal to the **Knock-in Barrier Price** of the Underlying Asset.

**If the second threshold test is satisfied**, the Settlement Value will be calculated as follows:

Settlement Value = (i) the Exercise Price (being GBP 2,500 per Warrant), plus (ii) 100% multiplied by the Calculation Amount (being GBP 25,000).

*If the second threshold test is not satisfied*, the Settlement Value will instead be calculated as follows:

Settlement Value = (i) the Exercise Price (being GBP 2,500), plus (ii) the Final Valuation Price of the Underlying Asset divided by the Strike Price of the Underlying Asset and then multiplied by the Calculation Amount (being GBP 25,000).

**Settlement**

Following exercise of the Warrants and provided that all conditions to settlement have been fulfilled by investors (including payment of any Exercise Price), investors will receive, per Calculation Amount:

a cash amount per Calculation Amount equal to the Settlement Value payable on 9 August 2021.

**Early cancellation following an autocal event:** If the closing price or level of the Underlying Asset is greater than or equal to its corresponding Autocall Barrier on any Autocall Valuation Date, the Warrants will be automatically cancelled prior to the exercise date and each investor will receive (per Calculation Amount):

a cash amount equal to the Autocall Early Cash Settlement Percentage as specified in the table below multiplied by the Calculation Amount (being GBP 25,000), payable on the relevant Autocall Early Cancellation Date.

The “Autocall Barrier” of the Underlying Asset is calculated as the Autocall Barrier Percentage specified in the table below multiplied by the Initial Price of the Underlying Asset.

Each Autocall Valuation Date and the corresponding Autocall Early Cancellation Date, Autocall Barrier and Autocall Early Cash Settlement Percentage is specified in the table below:

| <b>Autocall Valuation Date</b> | <b>Autocall Early Cancellation Date</b> | <b>Autocall Barrier Percentage</b> | <b>Autocall Early Cash Settlement Percentage</b> |

| <b>Section D – Risks</b> |  |  |
| D.2                      | <p><b>Key information on the key risks that are specific to the Issuer</b></p> | <p><b>Business conditions and the general economy:</b> Weak or deteriorating economic conditions or political instability in one or a number of countries in any of the Bank Group's main business markets or any other globally significant economy could have a material adverse effect on the Bank Group's operations, financial condition and prospects.</p> <p><b>Credit risk:</b> The Issuer is exposed to the risk of suffering loss if any of its customers, clients or market counterparties fails to fulfil its contractual obligations. Credit risk and, consequently, the Bank Group's performance may also be adversely affected by the impact of deteriorating economic conditions (and their effects, including higher interest rates, falling property prices and potential instability or economic uncertainty) and risks relating to sovereign debt crises, Eurozone exit or a slowing or withdrawing of monetary stimulus. If some or all of these conditions arise, persist or worsen, they may have a material adverse effect on the Bank Group's operations, financial condition and prospects. In addition, the Issuer holds a significant portfolio of assets which (i) remain illiquid, (ii) are valued based on assumptions, judgements and estimates which may change over time and (iii) which are subject to further deterioration and write downs.</p> <p><b>Market risk:</b> The Issuer is at risk from its earnings or capital being reduced due to changes in the level or volatility of positions in its trading books and being unable to hedge its banking book balance sheet at market levels. These risks could lead to significantly lower revenues, which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p><b>Funding risk:</b> The Bank Group is exposed to the risk that it may not be able to achieve its business plans due to: an inability to maintain appropriate capital ratios; or inability to meet its obligations as they fall due; or adverse changes in interest rates impacting structural hedges and/or the impact of changes in foreign exchange rates on capital ratios. These risks could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p><b>Legal, competition and regulatory risk:</b> The Bank Group is subject to extensive and comprehensive regulation under the laws of the various jurisdictions in which it does business. The Bank Group has also, in recent years, faced a risk of increased level of legal proceedings in these jurisdictions, in particular, the US The Bank Group also faces existing regulatory and other investigations in various jurisdictions.</p> <p>The Bank Group may incur significant additional expense in connection with existing and potential future legal and regulatory proceedings including for non-compliance by the Bank Group with applicable laws, regulations and codes. This could expose the Bank Group to: substantial monetary damages; loss of significant assets; other penalties and injunctive relief; potential for criminal prosecution in certain circumstances; potential regulatory restrictions on the Bank Group's business; and/or have a negative effect on the Bank Group's reputation, any of</p> |

which could have an adverse impact on the Bank Group's operations, financial condition and prospects.

**Regulatory risks:** The regulatory environment in which the Bank Group operates is subject to significant levels of change. There is a risk that such changes to the regulatory environment may adversely affect the Bank Group's business, capital and risk management planning and/or may result in the Bank Group increasing capital, reducing leverage, deciding to modify its legal entity structure, deciding to change how and where capital and funding is deployed within the Bank Group, require the Bank Group to increase its loss-absorbing capacity and/or undertake potential modifications to Barclays' business mix and model (including potential exit of certain business activities). In addition, the risk of such regulatory change will continue to require senior management attention and consume significant levels of business resources.

The Bank Group faces significant regulatory scrutiny (for example in relation to systems and controls) in many of the jurisdictions in which it operates, particularly in the United Kingdom and the US. Non-compliance with the applicable laws, regulations or codes could lead to fines, public reprimands, damage to reputation, increased prudential requirements, changes to the Bank Group's structure and/or strategy, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate, as well as costs relating to investigations and remediation of affected customers.

**Conduct and Reputation risks:** The Bank Group is exposed to the risk of inappropriate execution of its business activities or failures in corporate governance or management (for example, if Barclays were to provide funding or services to clients without fully implementing anti-money laundering, anti-bribery or similar controls), or the perception thereof, may cause detriment to customers, clients or counterparties and may lead to reputational damage and reduce the attractiveness of the Bank Group to stakeholders. This may, in turn, lead to negative publicity, loss of revenue, litigation, higher scrutiny and/or intervention from regulators, regulatory or legislative action, loss of existing or potential client business, reduced workforce morale, and difficulties in recruiting and retaining talent. Sustained conduct and reputational damage could affect the Bank Group's operations, financial condition and prospects.

**Risk relating to United Kingdom Bail-In Power:** The Bank Recovery and Resolution Directive grants supervisory authorities power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities of a failing financial institution (which could include Warrants issued by the Issuer hereunder), and/or to convert certain debt claims into another security, including ordinary shares. Under the Banking Act 2009 of the United Kingdom as amended, the bail-in option is introduced to enable the United Kingdom resolution authority to recapitalise a failed institution by allocating losses to its shareholders and unsecured creditors. There remains uncertainty regarding the specific factors which the United Kingdom resolution authority would consider in deciding whether to exercise the United Kingdom bail-in power. Holders of the Warrants may have only limited rights to challenge any decision of the United Kingdom

| D.6 | Key information on the key risks that are specific to the Warrants; and risk warning that investors may lose value of entire investment | <p>You may lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment or delivery obligations.</p> <p>The terms of the Warrants do not provide for scheduled minimum payment of the face value or issue price of the Warrants on exercise or following any early cancellation: depending on the performance of the Underlying Asset(s), you may lose some or all of your investment.</p> <p>The payment of any amount or delivery of any property due under the Warrants is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Warrants are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Warrants, you will lose some or all of your investment</p> <p>You may also lose the value of your investment if:</p> <ul style="list-style-type: none"> <li>• the Underlying Asset(s) perform in such a manner that the settlement amount or entitlement payable or deliverable to you (whether at exercise or following any early cancellation, and including after deduction of any applicable taxes and expenses) is less than the initial purchase price and could be as low as zero;</li> <li>• you sell your Warrants prior to scheduled exercise in the secondary market (if any) at an amount that is less than the initial purchase price;</li> <li>• the Warrants are cancelled early following the occurrence of an extraordinary event in relation to the Underlying Asset, the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such early cancellation is less than the initial purchase price; and/or</li> <li>• the terms and conditions of the Warrants are adjusted (in accordance with the terms and conditions of the Warrants) with the result that the settlement amount payable to you and/or the value of the Warrants is reduced.</li> </ul> <p><b>Return linked to performance of one or more Underlying Assets:</b> The return on the Warrants is linked to the change in value of the Underlying Asset(s) over the life of the Warrants. Any information about the past performance of the Underlying Asset(s) should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of the Underlying Asset(s).</p> <p><b>Conditions to settlement:</b> payment of any settlement amount or delivery of any settlement entitlement is subject to satisfaction of all conditions to settlement by you, including payment of any Exercise Price and/or taxes due with respect to the Warrants. If you fail to comply with these conditions, the obligations of the Issuer to you may be discharged without any payment or delivery being made.</p> |

|                          |   | <p><b>Reinvestment risk/loss of yield:</b> Following an early cancellation of the Warrants for any reason, holders may be unable to reinvest the cancellation proceeds at a rate of return as high as the return on the Warrants being cancelled.</p> <p><b>Equity Index risks:</b> Warrants linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Warrants linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Warrants than you would have received if you had invested directly in those shares.</p> <p>The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Warrants.</p> <p><b>Capped return:</b> As the amount payable or deliverable on exercise is subject to a cap, the value of or return on your Warrants may be significantly less than if you had purchased the Underlying Asset(s) directly.</p> <p><b>Volatile market prices:</b> the market value of the Warrants is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in currency exchange rates; exchange controls; the time remaining until the Warrants are scheduled to exercise; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p> |
