Securities may include an option for the Securities to be redeemed prior to maturity at the election of the Issuer or the investor. If Securities are not redeemed early they will redeem

		<p>on the Scheduled Redemption Date and the amount paid will either be a fixed redemption amount, or an amount linked to the performance of a specified inflation index.</p> <p>Securities may be cleared through a clearing system or uncleared and held in bearer or registered form. Certain cleared Securities may be in dematerialised and uncertificated book-entry form. Title to cleared Securities will be determined by the books of the relevant clearing system.</p> <p>Securities will be issued in one or more series (each a "Series") and each Series may be issued in tranches (each a "Tranche") on the same or different issue dates. The Securities of each Series are intended to be interchangeable with all other Securities of that Series. Each Series will be allocated a unique Series number and an identification code.</p> <p>The Securities are transferable obligations of the Issuer that can be bought and sold by investors in accordance with the terms and conditions set out in the Base Prospectus (the "General Conditions"), as completed by the final terms document (the "Final Terms") (the General Conditions as so completed, the "Conditions").</p> <p>Interest: The interest payable in respect of the Securities will be determined by reference to a floating rate of interest. The amount of interest payable in respect of a security for an interest calculation period will be determined by multiplying the interest calculation amount of such security by the applicable interest rate and day count fraction.</p> <p>Call or Put option: Not applicable</p> <p>Final redemption: The final redemption amount will be 100 per cent. of EUR 100,000 (the Calculation Amount).</p> <p>Form: The Securities will initially be issued in global bearer form.</p> <p>Identification: Series number: NX000179109; Tranche number: 1</p> <p>Identification codes: ISIN Code: XS1281093077; Common Code: 128109307</p> <p>Governing law: The Securities will be governed by English law.</p>

The denomination of a Security is EUR 100,000 (the "Calculation Amount").</p> <p>Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. 		<p>Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the Holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the Holder (or, in the case of French law Securities, the representative of the Holders).</p> <p>Ranking: The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.</p> <p>Limitations to rights: Notwithstanding that the Securities are linked to the performance of the underlying asset(s), Holders do not have any rights in respect of the underlying assets. Furthermore, in certain circumstances, the Issuer may amend the terms and conditions of the Securities, without the Holders' consent. The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the Holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset(s) (if any).</p>

Securities may include an option for the Issuer, at its discretion, to switch the type of interest payable on the Securities once during the term of the Securities (the "Switch Option"). Section D – Risks

D.2	<p>Key information on the key risks that are specific to the Issuer</p>	<p>Business conditions and the general economy: Weak or deteriorating economic conditions or political instability in one or a number of countries in any of the Bank Group's main business markets or any other globally significant economy could have a material adverse effect on the Bank Group's operations, financial condition and prospects.</p> <p>Credit risk: The Issuer is exposed to the risk of suffering loss if any of its customers, clients or market counterparties fails to fulfil its contractual obligations. Credit risk and, consequently, the Bank Group's performance may also be adversely affected by the impact of deteriorating economic conditions (and their effects, including higher interest rates, falling property prices and potential instability or economic uncertainty) and risks relating to sovereign debt crises, Eurozone exit or a slowing or withdrawing of monetary stimulus. If some or all of these conditions arise, persist or worsen, they may have a material adverse effect on the Bank Group's operations, financial condition and prospects. In addition, the Issuer holds a significant portfolio of assets which (i) remain illiquid, (ii) are valued based on assumptions, judgements and estimates which may change over time and (iii) which are subject to further deterioration and write downs.</p> <p>Market risk: The Issuer is at risk from its earnings or capital being reduced due to changes in the level or volatility of positions in its trading books and being unable to hedge its banking book balance sheet at market levels. These risks could lead to significantly lower revenues, which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Funding risk: The Bank Group is exposed to the risk that it may not be able to achieve its business plans due to: an inability to maintain appropriate capital ratios; or inability to meet its obligations as they fall due; or adverse changes in interest rates impacting structural hedges and/or the impact of changes in foreign exchange rates on capital ratios. These risks could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Legal, competition and regulatory risk: The Bank Group is subject to extensive and comprehensive regulation under the laws of the various jurisdictions in which it does business. The Bank Group has also, in recent years, faced a risk of increased level of legal proceedings in these jurisdictions, in particular, the US. The Bank Group also faces existing regulatory and other investigations in various jurisdictions.</p> <p>The Bank Group may incur significant additional expense in connection with existing and potential future legal and regulatory proceedings including for non-compliance by the Bank Group with applicable laws, regulations and codes. This could expose the Bank Group to: substantial monetary damages; loss of significant assets; other penalties and injunctive relief; potential for criminal prosecution in certain circumstances; potential regulatory restrictions on the Bank Group's business; and/or have a negative effect on the Bank Group's reputation, any of which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Regulatory risks: The regulatory environment in which the Bank Group operates is subject to significant levels of change. There is a risk that such changes to the regulatory environment may adversely affect the Bank Group's business, capital and risk management planning and/or may result in the Bank Group increasing capital, reducing leverage, deciding to modify its legal entity structure, deciding to change how and where capital and funding is deployed within the Bank Group, require the Bank Group to increase its loss-absorbing capacity and/or undertake potential modifications to Barclays' business mix and model (including potential exit of certain business activities). In addition, the risk of such regulatory change will continue to require senior management attention and consume significant levels of business resources.</p> <p>The Bank Group faces significant regulatory scrutiny (for example in relation to systems and controls) in many of the jurisdictions in which it operates, particularly in the United Kingdom and the US. Non-compliance with the applicable laws, regulations or codes</p>

		<p>could lead to fines, public reprimands, damage to reputation, increased prudential requirements, changes to the Bank Group's structure and/or strategy, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate, as well as costs relating to investigations and remediation of affected customers.</p> <p>Conduct and Reputation risks: The Bank Group is exposed to the risk of inappropriate execution of its business activities or failures in corporate governance or management (for example, if Barclays were to provide funding or services to clients without fully implementing anti-money laundering, anti-bribery or similar controls), or the perception thereof, which may cause detriment to customers, clients or counterparties and may lead to reputational damage and reduce the attractiveness of the Bank Group to stakeholders. This may, in turn, lead to negative publicity, loss of revenue, litigation, higher scrutiny and/or intervention from regulators, regulatory or legislative action, loss of existing or potential client business, reduced workforce morale, and difficulties in recruiting and retaining talent. Sustained conduct and reputational damage could affect the Bank Group's operations, financial condition and prospects.</p> <p>Risk relating to United Kingdom bail-in power: The Bank Recovery and Resolution Directive grants supervisory authorities power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities of a failing financial institution (which could include Securities issued by the Issuer hereunder), and/or to convert certain debt claims into another security, including ordinary shares. Under the Banking Act 2009 of the United Kingdom as amended, the bail-in option is introduced to enable the United Kingdom resolution authority to recapitalise a failed institution by allocating losses to its shareholders and unsecured creditors. There remains uncertainty regarding the specific factors which the United Kingdom resolution authority would consider in deciding whether to exercise the United Kingdom bail-in power. Holders of the Securities may have only limited rights to challenge any decision of the United Kingdom resolution authority exercising its United Kingdom bail-in power.</p>
D.3	<p>Key information on the key risks that are specific to the Securities</p>	<p>You may lose up to the entire value of your investment in the Securities:</p> <p>The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, even if the relevant Securities are stated to be repayable at an amount that is equal to or greater than their initial purchase price, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Securities, you will lose some or all of your investment.</p> <p>You may also lose some or all of your entire investment if:</p> <ul style="list-style-type: none"> • you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price; • the Securities are redeemed early for reasons beyond the control of the Issuer (such as following a change in applicable law, a currency disruption or a tax event affecting the Issuer's ability to fulfil its obligations under the Securities) and the amount paid to investors is less than the initial purchase price; or • the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to investors and/or the value of the Securities is reduced. <p>Reinvestment risk/loss of yield: Following an early redemption of the Securities for any reason, Holders may be unable to reinvest the redemption proceeds at a rate of return as high as the return on the Securities being redeemed.</p> <p>Volatile market prices: The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in currency exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political,</p>

		<p>terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p> <p>Risks relating to Floating Rates: The performance of floating interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors.</p>
D.6	Risk warning that investors may lose value of entire investment or part of it	Not applicable: unless the Issuer fails or goes bankrupt and provided that you hold your securities to maturity and they are not early redeemed or adjusted, your invested capital is not at risk.
