Final Terms

BARCLAYS BANK PLC
(Incorporated with limited liability in England and Wales)

USD 9,120,000 Floating Rate Securities due October 2019 pursuant to the Global Structured Securities Programme (the Tranche 1 Securities)

Issue Price: 100 per cent.

This document constitutes the final terms of the Securities (the "Final Terms") described herein for the purposes of Article 5.4 of the Prospectus Directive and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "Issuer"). These Final Terms are supplemental to and should be read in conjunction with the GSSP Base Prospectus 1 dated 26 August 2016 (the "Base Prospectus"), which constitutes a base prospectus for the purposes of the Prospectus Directive. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. A summary of the individual issue of the Securities is annexed to these Final Terms.

The Base Prospectus, and any supplements thereto, are available for viewing at http://irreports.barclays.com/prospectuses-and-documentation/structured-securities/prospectuses and during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office. Words and expressions defined in the Base Prospectus and not defined in the Final Terms shall bear the same meanings when used herein.

SUMMARY

Section A – Introduction and warnings

A.1 Introduction and warnings

This Summary should be read as an introduction to the Base Prospectus. Any decision to invest in Securities should be based on consideration of the Base Prospectus as a whole, including any information incorporated by reference, and read together with the Final Terms.

Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff might, under the national legislation of the relevant Member State of the European Economic Area, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

No civil liability shall attach to any responsible person solely on the basis of this Summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Securities.

A.2 Consent by the Issuer to the use of prospectus in subsequent resale or final placement of Securities

Not Applicable: the Issuer does not consent to the use of the Base Prospectus for subsequent resales.

Section B – Issuer

B.1 Legal and commercial name of the Issuer

The Securities are issued by Barclays Bank PLC (the "Issuer").

B.2 Domicile and legal form of the Issuer, legislation under which the Issuer operates and country of incorporation of the Issuer

The Issuer is a public limited company registered in England and Wales.

The principal laws and legislation under which the Issuer operates are the laws of England and Wales including the Companies Act.

B.4b Known trends affecting the Issuer and industries in which the Issuer operates

The business and earnings of the Issuer and its subsidiary undertakings (together, the "Bank Group" or "Barclays") can be affected by the fiscal or other policies and other actions of various governmental and regulatory authorities in the UK, EU, US and elsewhere, which are all subject to change. The regulatory response to the financial crisis has led and will continue to lead to very substantial regulatory changes in the UK, EU and US and in other countries in which the Bank Group operates. It has also (amongst other things) led to (i) a more assertive approach being demonstrated by the authorities in many jurisdictions, and (ii) enhanced capital, leverage, liquidity and funding requirements (for example pursuant to the fourth Capital Requirements Directive (CRD IV)). Any future regulatory changes may restrict the Bank Group’s operations, mandate certain lending activity and impose other, significant compliance costs.

Known trends affecting the Issuer and the industry in which the Issuer operates include:

- continuing political and regulatory scrutiny of the banking industry which is leading to increased or changing regulation that is likely to have a significant effect on the structure and management of the Bank Group;
- general changes in regulatory requirements, for example, prudential rules relating to
the capital adequacy framework and rules designed to promote financial stability and increase depositor protection, increased regulation and procedures for the protection of customers and clients of financial services firms and an increased willingness on the part of regulators to investigate past practices, vigorously pursue alleged violations and impose heavy penalties on financial services firms;

- increased levels of legal proceedings in jurisdictions in which the Bank Group does business, including in the form of class actions;
- the US Dodd-Frank Wall Street Reform and Consumer Protection Act, which contains far-reaching regulatory reform (including restrictions on proprietary trading and fund-related activities (the so-called 'Volcker rule'));
- the United Kingdom Financial Services (Banking Reform) Act 2013 which gives United Kingdom authorities powers to implement measures for, among others: (i) the separation of the United Kingdom and EEA retail banking activities of the largest United Kingdom banks into a legally, operationally and economically separate and independent entity (so-called 'ring-fencing'); (ii) a statutory 'bail-in' stabilisation option; and
- changes in competition and pricing environments.

The type of interest (if any) payable on the Securities may be the same for all Interest Payment Dates or may be different for different Interest Payment Dates. Securities may include an option for the Issuer, at its discretion, to switch the type of interest payable on the Securities once during the term of the Securities. </tbody>
</table>
Floating rates during the observation period relating to that interest payment date.

Securities may include an option for the Securities to be redeemed prior to maturity at the election of the Issuer or the investor. If Securities are not redeemed early they will redeem on the Scheduled Redemption Date and the amount paid will either be a fixed redemption amount, or an amount linked to the performance of a specified inflation index.

Securities may be cleared through a clearing system or uncleared and held in bearer or registered form. Certain cleared Securities may be in dematerialised and uncertificated book-entry form. Title to cleared Securities will be determined by the books of the relevant clearing system.

Securities will be issued in one or more series (each a "Series") and each Series may be issued in tranches (each a "Tranche") on the same or different issue dates. The Securities of each Series are intended to be interchangeable with all other Securities of that Series. Each Series will be allocated a unique Series number and an identification code.

The Securities are transferable obligations of the Issuer that can be bought and sold by investors in accordance with the terms and conditions set out in the Base Prospectus (the "General Conditions"), as completed by the final terms document (the "Final Terms") (the General Conditions as so completed, the "Conditions").

**Interest:** The interest payable in respect of the Securities will be determined by reference to a floating rate of interest. The amount of interest payable in respect of a security for an interest calculation period will be determined by multiplying the interest calculation amount of such security by the applicable interest rate and day count fraction.

**Call or Put option:** Not applicable

**Final redemption:** The final redemption amount will be 100 per cent. of USD 1,000 (the Calculation Amount).

**Form:** The Securities will initially be issued in global bearer form.

**Identification:** Series number: NX000184496; Tranche number: 1

**Identification codes:** ISIN Code: XS1426195712; Common Code: 142619571

**Governing law:** The Securities will be governed by English law.

### C.2 Currency

Subject to compliance with all applicable laws, regulations and directives, Securities may be issued in any currency. The terms of Securities may provide that all amounts of interest and principal payable in respect of such Securities will be paid in a settlement currency other than the currency in which they are denominated, with such payments being converted into the settlement currency at the prevailing exchange rate as determined by the Determination Agent.

The Securities will be denominated in United States dollars ("USD").

### C.5 Description of restrictions on free transferability of the Securities

Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S and must comply with transfer restrictions with respect to the United States.

Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system.

Subject to the above, the Securities will be freely transferrable.

### C.8 Description of rights attached to the Securities including ranking and limitations to those rights

**Rights:** Each Security includes a right to a potential return of interest and amount payable on redemption together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on future amendments.

**Price:** Securities will be issued at a price and in such denominations as agreed between the Issuer and the relevant dealer(s) and/or manager(s) at the time of issuance. The minimum denomination will be the Calculation Amount in respect of which interest and redemption amounts will be calculated. The issue price of the Securities is 100 per cent. The denomination of a Security is USD 1,000 (the "Calculation Amount").
**Taxation:** All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, pay additional amounts to cover the amounts so withheld or deducted.

**Events of default:** If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the Holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the Holder (or, in the case of French law Securities, the representative of the Holders).

**Ranking:** The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

**Limitations to rights:** Notwithstanding that the Securities are linked to the performance of the underlying asset(s), Holders do not have any rights in respect of the underlying assets. The terms and conditions of the Securities contain provisions for calling meetings of Holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all Holders, including all Holders who voted in a manner contrary to the majority. Furthermore, in certain circumstances, the Issuer may amend the terms and conditions of the Securities, without the Holders’ consent. The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the Holders’ consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset(s) (if any).

### C.9 Interest/Redemption

**Interest:** In respect of each interest calculation period, Securities may or may not bear interest. For each interest calculation period in respect of which the Securities bear interest, interest will accrue at one of the following rates: a fixed rate, a floating rate plus a fixed percentage, a rate equal to a fixed percentage minus a floating rate, a rate that is equal to the difference between two floating rates, a rate that is calculated by reference to movements in a specified inflation index, a rate that will vary between two specified fixed rates (one of which may be zero) depending on whether the specified floating rate exceeds a specified level on the relevant date of determination, or a rate that is compounded floating rate. Securities may include an option for the Issuer, at its discretion, to switch the type of interest payable on the Securities once during the term of the Securities (the "Switch Option"). The amount of interest payable in respect of the Securities on an Interest Payment Date may also be subject to a range accrual factor that will vary depending on the performance of a specified inflation index or one or more specified floating rates, as described in 'Range Accrual Factor' below (the "Range Accrual Factor").

**Final Redemption:** The amount payable on final redemption of the Securities will either be fixed at a percentage of the Calculation Amount of the Securities, or may reference the Calculation Amount of the Securities (being the minimum denomination of the Securities) as adjusted upwards or downwards to account for movements in an inflation index.

**Optional Early Redemption:** Certain Securities may be redeemed earlier than the Scheduled Redemption Date following the exercise of a call option by the Issuer or the exercise of a put option by a Holder of the Securities.

**Mandatory Early Redemption:** Securities may also be redeemed earlier than the Scheduled Redemption Date if performance of the Issuer's obligations becomes illegal, if the Determination Agent so determines, following cessation of publication of an inflation index, or following the occurrence of a change in applicable law, a currency disruption or a tax event affecting the Issuer's ability to fulfil its obligation under the Securities.
**Indicative amounts:** If the Securities are being offered by way of a Public Offer and any specified product values below are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, an indicative minimum amount, an indicative maximum amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

**INTEREST**

**Floating Rate Interest.** Each Security will bear interest from 4 October 2016 and will pay an amount of interest linked to the Floating Rate (as defined below) at the end of each interest calculation period on 4 January, 4 April, 4 July and 4 October in each year (each, an "Interest Payment Date").

The applicable rate of interest ("Rate of Interest") will be equal to the Floating Rate and then adding 0.00%, provided that such rate shall not be greater than 4.00% or less than 1.30%.

"Floating Rate" means the quotation for 3 month USD-LIBOR that appears on Reuters Screen LIBOR01 Page at 11:00 a.m. London Time on the date for determining the floating rate.

**FINAL REDEMPTION**

The Securities are scheduled to redeem on 4 October 2019 by payment by the Issuer of an amount in USD equal to USD multiplied by 100%.

**OPTIONAL EARLY REDEMPTION**

These Securities cannot be redeemed early at the option of the Issuer or the Holder.

<tr>
<th><strong>Principal Risks relating to the Issuer</strong>: Material risks and their impact are described below in two sections: (i) Material existing and emerging risks by Principal Risk and (ii) Material existing and emerging risks potentially impacting more than one Principal Risk. The five principal risks are currently categorised as: (1) Credit Risk; (2) Market Risk; (3) Funding Risk; (4) Operational Risk; and (5) Conduct Risk (within the meaning of the Issuer’s Enterprise Risk Management Framework, each a &quot;Principal Risk&quot;).</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) Material existing and emerging risks by Principal Risk: Credit risk: The financial condition of the Group’s customers, clients and counterparties, including governments and other financial institutions, could adversely affect the Group. The term &quot;Group&quot; means Barclays PLC together with its subsidiaries. The Group may suffer financial loss if any of its customers, clients or market counterparties fails to fulfil their contractual obligations to the Group. Furthermore, the Group may also suffer loss when the value of the Group’s investment in the financial instruments of an entity falls as a result of that entity’s credit rating being downgraded. In addition, the Group may incur significant unrealised gains or losses due to changes in the Group’s credit spreads or those of third parties, as these changes affect the Group’s derivative instruments, debt securities that the Group holds or issues, and loans held at fair value.</td>

<td>Market risk: The Group’s financial position may be adversely affected by changes in both the level and volatility of prices leading to lower revenues, or reduced capital. The Group is also at risk from movements in foreign currency exchange rates as these impact the sterling equivalent value of foreign currency denominated assets in the banking book, exposing it to currency translation risk.</td>

<tr>
<td>Funding risk: The ability of the Group to achieve its business plans may be adversely impacted if it does not effectively manage its capital (including leverage), liquidity and other regulatory requirements. The Group may not be able to achieve its business plans due to: (i) being unable to maintain appropriate capital ratios; (ii) being unable to meet its obligations as they fall due; (iii) rating agency methodology changes resulting in ratings downgrades; and (iv) adverse changes in foreign exchange rates on capital ratios.</td>

| | **Structural Reform (emerging risk):** The UK Financial Services (Banking Reform) Act 2013 (the UK Banking Reform Act) and associated secondary legislation and regulatory rules, require the separation
of the Group’s UK and EEA retail and SME deposit-taking activities into a legally, operationally and economically separate and independent entity and restrict the types of activity such an entity may conduct (so-called ‘ring fencing’).

**Business conditions, general economy and geopolitical issues:**

The Group’s performance could be adversely affected in relation to more than one Principal Risk by a weak or deteriorating global economy or political instability. These factors may also occur in one or more of the Group’s main countries of operation. The Group offers a broad range of services to retail, institutional and government customers, in a large number of countries. The breadth of these operations means that deterioration in the economic environment, or an increase in political instability in countries where it is active, or any other systemically important economy, could adversely affect the Group’s performance.

**Business Change/Execution (emerging risk):**

As Barclays moves towards a single point of entry (Holding Company) resolution model and implementation of the Structural Reform Programme Execution, the expected level of structural and strategic change to be implemented over the medium term will be disruptive and is likely to increase funding and operational risks for the Group and could impact its revenues and businesses.

If any of the risks were to occur, singly or in aggregate, they could have a material adverse effect on the Group’s business, results of operations and financial condition.

**UK exit from the EU:**

The UK held a referendum on 23 June 2016 on whether it should remain a member of the EU. This results in a vote in favour of leaving the EU. The result of the referendum means that the long-term nature of the UK’s relationship with the EU is unclear and there is uncertainty as to the nature and timing of any agreement with the EU. In the interim, there is a risk of uncertainty for both the UK and the EU, which could adversely affect the economy of the UK and other economies in which the Group operates. The potential risks associated with an exit from the EU have been carefully considered by the Board of Directors during the first half of 2016 and relevant actions taken where appropriate.

**Regulatory action in the event a bank in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities:** The Bank Recovery and Resolution Directive (the “BRRD”) provides an EU-wide framework for the recovery and resolution of credit institutions and investment firms, their subsidiaries and certain holding companies. The BRRD (including the Bail-In tool) was implemented in the United Kingdom Banking Act 2009 as amended (“Banking Act”) in January 2015 and came into force on 1 January 2016. The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks or investment firms and certain of their affiliates in the event a bank or investment firm in the same group is considered to be failing or likely to fail. The exercise of any of these actions in relation to the Issuer could materially adversely affect the value of the Securities.

Under the terms of the Securities governed by Swiss law, investors have agreed to be bound by the exercise of any UK bail-in power by the relevant UK resolution authority.

A downgrade of the credit rating assigned by any credit rating agency to the Issuer could adversely affect the liquidity or market value of the Securities. Credit ratings downgrade could occur as a result of, among other causes, changes in the ratings methodologies used by credit rating agencies. Changes in credit rating agencies’ views of the level of implicit sovereign support for European banks and their groups are likely to lead to credit ratings downgrades.

**The Issuer is affected by risks affecting the Group:** The Issuer is also affected by risks affecting the Group as there is substantial overlap in the businesses of the Issuer and its subsidiaries. Further, the Issuer can be negatively affected by risks and other events...
### D.3 Key information on the key risks that are specific to the Securities

You may lose up to the entire value of your investment in the Securities:

The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, even if the relevant Securities are stated to be repayable at an amount that is equal to or greater than their initial purchase price, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Securities, you will lose some or all of your investment.

You may also lose some or all of your entire investment if:

- you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price;
- the Securities are redeemed early for reasons beyond the control of the Issuer (such as following a change in applicable law, a currency disruption or a tax event affecting the Issuer's ability to fulfil its obligations under the Securities) and the amount paid to investors is less than the initial purchase price; or
- the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to investors and/or the value of the Securities is reduced.

**Reinvestment risk/loss of yield:** Following an early redemption of the Securities for any reason, Holders may be unable to reinvest the redemption proceeds at a rate of return as high as the return on the Securities being redeemed.

**Volatile market prices:** The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in currency exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.

**Risks relating to Floating Rates:** The performance of floating interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors.

**Capped return:** As the interest amount is subject to a cap, the return Holders may receive is limited.

### D.6 Risk warning that investors may lose value of entire investment or part of it

The capital invested in the Securities is at risk. Consequently, you may lose the value of your entire investment, or part of it.
