FINAL TERMS

BARCLAYS BANK PLC
(Incorporated with limited liability in England and Wales)

EUR 30,000,000 Securities due October 2024 under the Global Structured Securities Programme
Issue Price: 100 per cent

This document constitutes the final terms of the Securities (the "Final Terms") described herein for the purposes of Article 5.4 of the Prospectus Directive and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "Issuer"). These Final Terms are supplemental to and should be read in conjunction with the GSSP Base Prospectus 9 dated 10 August 2018, as supplemented on 4 September 2018, which constitutes a base prospectus (the "Base Prospectus") for the purposes of the Prospectus Directive, save in respect of the Terms and Conditions of the Securities which are extracted from the 2017 GSSP Base Prospectus 9 dated 11 August 2017 (as supplemented on 21 November 2017, the "2017 GSSP Base Prospectus 9") and which are incorporated by reference into the Base Prospectus. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus, save in respect of the Terms and Conditions of the Securities which are extracted from the 2017 GSSP Base Prospectus 9. A summary of the individual issue of the Securities is annexed to these Final Terms.

The Base Prospectus, any supplements to the Base Prospectus, the 2017 GSSP Base Prospectus 9 and any supplements to the 2017 GSSP Base Prospectus 9 are available for viewing at https://www.home.barclays/prospectuses-and-documentation/structured-securities/prospectuses.html and during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office. Words and expressions defined in the 2017 GSSP Base Prospectus 9 and not defined in the Final Terms shall bear the same meanings when used herein.

The 2017 GSSP Base Prospectus 9 expired on 11 August 2018. Following expiry of the 2017 GSSP Base Prospectus 9 the offering of the Securities continues under the Base Prospectus.

SUMMARY

Section A – Introduction and warnings

A.1 Introduction and warnings

This Summary should be read as an introduction to the Base Prospectus. Any decision to invest in Securities should be based on consideration of the Base Prospectus as a whole, including any information incorporated by reference, and read together with the Final Terms.

Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff might, under the national legislation of the relevant Member State of the European Economic Area, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

No civil liability shall attach to any responsible person solely on the basis of this Summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Securities.

A.2 Consent by the Issuer to the use of prospectus in subsequent resale or final placement of Securities

The Issuer may provide its consent to the use of the Base Prospectus and Final Terms for subsequent resale or final placement of Securities by financial intermediaries, provided that the subsequent resale or final placement of Securities by such financial intermediaries is made during the offer period specified in the Final Terms. Such consent may be subject to conditions which are relevant for the use of the Base Prospectus.

Specific consent: The Issuer consents to the use of the Base Prospectus and these Final Terms with respect to the subsequent resale or final placement of Securities (a "Public Offer") which satisfies all of the following conditions:

(a) the Public Offer is only made in Spain; and the Public Offer is only made during the period from (and including) 19 July 2018 to (but excluding) 27 September 2018; and

(b) the Public Offer is only made by Barclays Bank PLC and each financial intermediary whose name is published on the Issuer's website (https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html) and who is identified as an authorised offeror for these Securities (each an "Authorised Offeror").

Information on the terms and conditions of an offer by any Authorised Offeror is to be provided at the time of that offer by the Authorised Offeror.

Section B – Issuer

B.1 Legal and commercial name of the Issuer

The Securities are issued by Barclays Bank PLC (the "Issuer").

B.2 Domicile and legal form of the Issuer, legislation under which

The Issuer is a public limited company registered in England and Wales.

The principal laws and legislation under which the Issuer operates are laws of England and Wales including the Companies Act.

</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>B.4b Known trends affecting the Issuer and industries in which the Issuer operates</th>
</tr>
</thead>
</table>

The business and earnings of the Issuer and its subsidiary undertakings (together, the "Bank Group" or "Barclays") can be affected by the fiscal or other policies and other actions of various governmental and regulatory authorities in the UK, EU, US and elsewhere, which are all subject to change, as a result, regulatory risk will remain a focus. A more intensive regulatory approach and enhanced requirements together with the uncertainty (particularly in light of the UK’s decision to withdraw from the EU) and potential lack of international regulatory coordination as enhanced supervisory standards are developed and implemented may adversely affect the Bank Group's business, capital and risk management strategies and/or may result in the Bank Group deciding to modify its legal entity structure, capital and funding structures and business mix, or to exit certain business activities altogether or not to expand in areas despite otherwise attractive potential.

The most significant of the regulatory reforms affecting the Bank Group in 2018 is the creation of the ring-fenced bank under the structural reform programme carried out by the ultimate holding company of the Bank Group (Barclays PLC, together with its subsidiaries, the "Group").

There are several other significant pieces of legislation which will require significant management attention, cost and resource which include:

- Changes in prudential requirements, including the proposals for amendment of the Capital Requirements Directive (CRD IV) and the EU Bank Recovery and Resolution Directive (BRRD) which may impact minimum requirements for own funds and eligible liabilities (MREL), leverage, liquidity or funding requirements, applicable buffers and/or add-ons to such minimum requirements and risk weighted assets calculation methodologies all as may be set by international, EU or national authorities from time to time.

- The derivatives market has been the subject of particular focus for regulators in recent years across the G20 countries and beyond, with regulations introduced which require the reporting and clearing of standardised over the counter ("OTC") derivatives and the mandatory margining of non-cleared OTC derivatives. Reforms in this area are ongoing with further requirements expected to be implemented in the course of 2018.

- The recast Markets in Financial Instruments Directive in Europe, which came into force in January 2018, has fundamentally changed the European regulatory framework, and entails significant operational changes for market participants in a wide range of financial instruments as well as changes in market structures and practices.

- The EU Benchmarks Regulation which also came into force in January 2018 regulates the administration and use of benchmarks in the EU. Compliance with this evolving regulatory framework entails significant costs for market participants and is having a significant impact on certain markets in which the Bank Group operates.

- Other regulations applicable to swap dealers, including those promulgated by the US Commodity Futures Trading Commission, have imposed significant costs on the Bank Group’s derivatives business.
These and any future requirements are expected to continue to impact such business.

#### C.1 Type and class of Securities being offered and/or admitted to trading

Securities described in this Summary (the "Securities") may be debt securities or, where the repayment terms are linked to an underlying asset, derivative securities, in the form of notes.

**Identification:** Series number: NX000216369; Tranche number: 1

**Identification codes:** ISIN: XS1787830410, Common Code: 178783041.

#### C.2 Currency

Subject to compliance with all applicable laws, regulations and directives, Securities may be issued in any currency.

This issue of Securities will be denominated in Euro ("EUR").

#### C.5 Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States.

No offers, sales, resales or deliveries of any Securities may be made in or from any jurisdiction and/or to any individual or entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or the (the "Manager").
Subject to the above, the Securities will be freely transferable.

<th>C.8</th>
<th>Description of rights attached to the Securities, including ranking and limitations to those rights</th>
</tr>
</thead>
</table>

**RIGHTS**

The Securities will be issued on 28 September 2018 (the “Issue Date”) at 100 per cent. of par (the “Issue Price”) and will give each holder of Securities the right to receive a potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities.

**Interest:** Whether or not interest is payable will depend on the performance of the EURO STOXX Select Dividend 30 Index (the “Underlying Asset”).

**Final redemption:** If the Securities have not redeemed early they will redeem on the Scheduled Redemption Date and the cash amount payable to investors will depend on the performance of: the Underlying Asset the EURO STOXX Select Dividend 30 Index (the “Underlying Asset (Final Redemption)” ) on the specified valuation dates during the life of the Securities.

**Taxation:** All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

**Events of default:** If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder (or, in the case of French law Securities, the representative of the holders).

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

**STATUS**

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

**LIMITATIONS ON RIGHTS**

**Certain limitations:**

- Notwithstanding that the Securities are linked to the performance of the underlying asset(s), holders do not have any rights in respect of the underlying asset(s).

- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Issuer with another permitted entity.
subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset(s) (if any).

- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

C.11 Admission to trading

Securities may be admitted to trading on a regulated market in Belgium, Denmark, Finland, France, Ireland, Italy, Luxembourg, Malta, the Netherlands, Norway, Portugal, Spain, Sweden or the United Kingdom. Securities may be admitted to trading on a market in Switzerland or Italy that is not a regulated market for the purposes of the Prospectus Directive.

Application has been/is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the Luxembourg Stock Exchange with effect from 28 September 2018.

C.15 Description of how the value of the investment is affected by the value of the underlying instrument

The return on and value of the Securities is dependent on the performance of:

(i) one or more specified equity indices, shares, depository receipts representing shares and/or exchange traded funds; or
(ii) foreign exchange rates (each an "Underlying Asset"), for the purposes of determining a redemption amount, Underlying Asset shall mean the Underlying Asset (Final Redemption).

The Underlying Asset is:

Calculations in respect of amounts payable under the Securities are made by reference to a "Calculation Amount", being EUR 1,000.

Indicative amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or indicative amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

Determination Agent: Barclays Bank PLC/Barclays Capital Securities Limited will be appointed to make calculations and determinations with respect to the Securities.

A – Interest
Interest Valuation Date(s): | Interest Payment Date(s): | Interest Barrier Percentage(s): |
---|---|---|
30 September 2019 | 7 October 2019 | 100.00% |
28 September 2020 | 5 October 2020 | 95.00% |
28 September 2021 | 5 October 2021 | 90.00% |
28 September 2022 | 5 October 2022 | 85.00% |
28 September 2023 | 5 October 2023 | 85.00% |
30 September 2024 | 7 October 2024 | 85.00% |

The interest amount payable on each Security on each Interest Payment Date, will be calculated on each Interest Valuation Date and is calculated as follows:

(i) If the Modified Performance is greater than or equal to the corresponding Interest Barrier Percentage, the interest amount is calculated as the sum of (a) the Fixed Interest Rate (being 5.00 per cent.) multiplied by the Calculation Amount, and (b) the number of previous Interest Valuation Dates in respect of which no interest was payable (after which interest shall be considered to have been payable in respect of such previous Interest Valuation Dates) multiplied by the Fixed Interest Rate (being 5.00 per cent.) and then multiplied by the Calculation Amount; or

(ii) Otherwise, the interest amount is zero.

In respect of an Interest Valuation Date, the "Interest Barrier" means the Interest Barrier Percentage multiplied by the Initial Price of the Underlying Asset.

"Initial Price" means the closing price of the Underlying Asset on the Initial Valuation Date.

"Initial Valuation Date" means 28 September 2018, subject to adjustment.

"Interest Valuation Price" means, in respect of an Interest Valuation Date and an Underlying Asset, the closing price of such Underlying Asset on such Interest Valuation Date.

"Modified Performance" means, in respect of an Interest Valuation Date, the Interest Valuation Price on such day divided by the Initial Price.

B – Automatic Redemption (Autocall)

The Securities will automatically redeem if the value of performance calculated in respect of the closing price or level of the Underlying Asset is at or above its corresponding Autocall Barrier Percentage on any Autocall Valuation Date. If this occurs, you will receive a cash payment equal to the nominal amount of your securities multiplied by 100.00 per cent. payable on
the Autocall Redemption Date corresponding to such Autocall Valuation Date.

C – Issuer Optional Early Redemption

Not Applicable.

D – Final Redemption

If the Securities have not otherwise redeemed, each Security will be redeemed on 7 October 2024 (the "Scheduled Redemption Date") by payment of the Final Cash Settlement Amount. The Final Cash Settlement Amount is calculated as follows:

(i) if the Final Performance is greater than or equal to the Strike Price Percentage ("SPP") (being 100%), or the Final Performance is greater than or equal to the Knock-in Barrier Percentage (being 60%), 100% multiplied by the Calculation Amount;

(ii) otherwise, the Final Performance divided by SPP multiplied by the Calculation Amount.

"Final Performance" means the Final Valuation Price divided by the Initial Price (Redemption).

"Final Valuation Date" means 30 September 2024, subject to adjustment.

"Final Valuation Price" means, in respect of an Underlying Asset, the closing level of the Underlying Asset on the Final Valuation Date.

C.16 Expiration or maturity date of the Securities

The Securities are scheduled to redeem on the scheduled redemption date. This day may be postponed following the postponement of a valuation date due to a disruption event.

The scheduled redemption date of the Securities is 7 October 2024.

C.17 Settlement procedure of

Securities may be cleared and settled through Euroclear Bank S.A./N.V., Clearstream Banking société anonyme, CREST, Euroclear France S.A., VP
the derivative securities

Securities, A/S, Euroclear Finland Oy, Norwegian Central Securities Depositary, Euroclear Sweden AB or SIX SIS Ltd.

The Securities will be cleared and settled through Euroclear Bank S.A./N.V. Clearstream Banking société anonyme.

C.18 Description of how the return on derivative securities takes place

The performance of the Underlying Asset to which the Securities are linked may affect: (i) the interest paid on the Securities (if any); and (ii) if the Securities have not redeemed early, the amount paid on the Scheduled Redemption Date.

Interest and any amount payable if the Securities redeem before the Scheduled Redemption Date will be paid in cash.

On the Scheduled Redemption Date, if the Securities have not redeemed early, the settlement amount will be paid in cash.

C.19 Final reference price of the Underlying Asset

The final reference level of any equity index, share, depository receipt, fund or foreign exchange rate to which Securities are linked, will be determined by the Determination Agent by reference to a publicly available source on a specified date or dates and, if applicable, at a specified time.

C.20 Type of Underlying Asset

Securities may be linked to one or more:

- common shares;
- depositary receipts representing common shares;
- exchange traded funds ("ETFs") (being a fund, pooled investment vehicle, collective investment scheme, partnership, trust or other similar legal arrangement and holding assets, such as shares, bonds, indices, and/or other securities such as financial derivative instruments);
- equity indices; or
- foreign exchange rates.

Information about the Underlying Asset is available at: http://www.stoxx.com.

C.21 Market where Securities are traded

Application has been/is expected to be made by the Issuer (or on its behalf) to list the Securities on the Luxembourg Stock Exchange and admit the Securities to trading on the regulated market of the Luxembourg Stock Exchange with effect from 28 September 2018.

Section D – Risks

D.2 Key information on the key risks that are specific to the Issuer

The risks described below are material risks that senior management has identified with respect to the Group. In connection with the planned implementation in the first half of 2018 of ring-fencing certain of the Group’s UK businesses, the Issuer will transfer what are materially the assets and business of the Barclays UK division to another subsidiary of the Group, Barclays Bank UK PLC (the "UK Ring-fenced Bank"). Senior management expects that upon this transfer the material risks with respect to the Bank Group will be the same in all material respects as those risks with respect to the Group (save in relation to certain potential differences in risks as described in "Certain potential consequences of ring-fencing to the Issuer" below).

The Issuer classifies eight risks as "Principal Risks": (1) Credit Risk; (2) Market Risk; (3) Treasury and Capital Risk; (4) Operational Risk; (5) Model Risk; (6) Conduct Risk; (7) Reputation Risk; and (8) Legal Risk (each a
"Principal Risk"). Material risks to the Group and their impact are described below in the sections (i) material existing and emerging risks potentially impacting more than one Principal Risk and (ii) material existing and emerging risks impacting individual Principal Risks.

(i) Material existing and emerging risks potentially impacting more than one Principal Risk

Business conditions, general economy and geopolitical issues

The Group offers a broad range of services, including to retail, institutional and government customers, in a large number of countries. The breadth of these operations means that deterioration in the economic environment, or an increase in political instability in countries where the Group is active, or in any systemically important economy, could adversely affect the Group's operating performance, financial condition and prospects.

Interest rate rises adversely impacting credit conditions

To the extent that central banks increase interest rates particularly in the Group’s main markets, in the UK and the US, there could be an impact on consumer debt affordability and corporate profitability. While interest rate rises could positively impact the Group’s profitability, as retail and corporate business income may increase due to margin de-compression, future interest rate increases, if larger or more frequent than expectations, could cause stress in the loan portfolio and underwriting activity of the Group. Higher credit losses driving an increased impairment allowance would most notably impact retail unsecured portfolios and wholesale non-investment grade lending.

Interest rates rising faster than expected could also have an adverse impact on the value of high quality liquid assets which are part of the Group Treasury function’s investment activity that could consequently create more volatility through the Group’s available for sale reserves than expected.

Process of UK withdrawal from the European Union

The uncertainty and increased market volatility following the UK’s decision to leave the EU in 2019 is likely to continue until the exact nature of the future trading relationship with the EU becomes clear. The potential risks associated with an exit from the EU include:

- Increased market risk with the impact on the value of trading book positions;

- Potential for credit spread widening for UK institutions which could lead to reduced investor appetite for the Group's debt securities, which could negatively impact the cost of and/or access to funding;

- Changes in the long-term outlook for UK interest rates which may adversely affect International Accounting Standards 19 pension liabilities and the market value of equity investments funding those liabilities;

- Increased risk of a UK recession with lower growth, higher unemployment and falling UK house prices. This would negatively impact a number of the Group's portfolios;

- Changes to current EU "Passporting" rights which will likely require
adjustments to the current model for the Group’s cross-border banking operation which could increase operational complexity and/or costs;

- The ability to attract, or prevent the departure of, qualified and skilled employees may be impacted by the UK’s future approach to the EU freedom of movement and immigration from the EU countries; and

- The legal framework within which the Group operates could change and become more uncertain as the UK takes steps to replace or repeal certain laws currently in force, which are based on EU legislation and regulation.

**Regulatory change agenda and impact on business model**

The Group remains subject to ongoing significant levels of regulatory change and scrutiny in many of the countries in which it operates (including, in particular, the UK and the US). A more intensive regulatory approach and enhanced requirements together with the uncertainty (particularly in light of the UK’s decision to withdraw from the EU) and potential lack of international regulatory coordination as enhanced supervisory standards are developed and implemented may adversely affect the Group's business, capital and risk management strategies and/or may result in the Group deciding to modify its legal entity structure, capital and funding structures and business mix, or to exit certain business activities altogether or not to expand in areas despite otherwise attractive potential.

**Certain potential consequences of ring-fencing to the Issuer**

In connection with the planned implementation in the first half of 2018 of ring-fencing certain of the Group’s businesses, the Issuer will transfer what are materially the assets and business of the Barclays UK division to another subsidiary of the Group, the UK Ring-fenced Bank. Senior management expects that upon this transfer, the material risks with respect to the Bank Group will be the same in all material respects as those risks with respect to the Group. However, senior management has identified certain potential differences in risks with respect to the Bank Group as compared to risks to the Group.

- The transfer of the assets and liabilities of the Barclays UK division from the Issuer will mean that the Bank Group will be less diversified than the Group as a whole.

- The Issuer will not be the parent of the UK Ring-fenced Bank and thus will not have recourse to the assets of the UK Ring-fenced Bank.

- Relative to the Group, the Bank Group will be, among other things, more focused on businesses outside the UK, particularly in the US; exposed to the US economy and more affected by movements in the US Dollar (and other non-Sterling currencies) relative to Sterling, with a relatively larger portion of its business exposed to US regulation; more focused on wholesale businesses, such as corporate and investment banking and capital markets; more dependent on wholesale funding sources; and potentially subject to different regulatory obligations.

Accordingly, the implementation of ring-fencing may adversely affect the market value and/or liquidity of the Securities.
(ii) Material existing and emerging risks impacting individual Principal Risks

Credit risk: The risk of loss to the Group from the failure of clients, customers or counterparties, including sovereigns, to fully honour their obligations to the Group, including the whole and timely payment of principal, interest, collateral and other receivables. The Group may suffer financial loss if any of its customers, clients or counterparties fails to fulfil their contractual obligations to the Group.

Market risk: The risk of a loss arising from potential adverse changes in the value of the Group's assets and liabilities from fluctuation in market variables including, but not limited to, interest rates, foreign exchange, equity prices, commodity prices, credit spreads, implied volatilities and asset correlations. The Group's trading business is generally exposed to a prolonged period of elevated asset price volatility, particularly if it negatively affects the depth of marketplace liquidity.

Treasury and capital risk: The risk that the Group (i) is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount, tenor and composition of funding and liquidity to support its assets, (ii) has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements, or (iii) is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its assets and liabilities. The Group may not be able to achieve its business plans due to, among other things: a) being unable to maintain appropriate capital ratios; b) being unable to meet its obligations as they fall due; c) rating agency downgrades; d) adverse changes in foreign exchange rates on capital ratios; e) adverse movements in the pension fund; and f) non-traded market risk/interest rate risk in the banking book.

Operational risk: The Group is exposed to many types of operational risk. These include: (i) the risk of failing to adequately manage the threat of cyber attacks and to continually evolve enterprise security and provide an active cyber security response capability could result in increased fraud losses, inability to perform critical economic functions, customer detriment, potential regulatory censure and penalty, legal liability, reduction in shareholder value and reputational damage; (ii) the risk of loss of or disruption to the Group’s business processing, whether arising through impacts on technology systems, real estate services, personnel availability or the support of major suppliers, and which may result in significant customer detriment, cost to reimburse losses incurred by the Group’s customers, potential regulatory censure or penalty, and reputational damage; (iii) to the extent that the Group depends on suppliers for the provision of many of its services and the development of future technology driven product propositions, there is a risk that client information or critical infrastructures is not adequately protected, the potential for a negative impact on the Group’s ability to continue to provide services that are material to the Group following a failure by any such supplier and the potential for increased losses, inability to perform critical economic functions, customer detriment, potential regulatory censure and penalty, legal liability and reputational damages upon a failure to adequately manage outsourcing risk; (iv) the risk of material errors in operational processes, including payments, which could disadvantage the Group's customers, clients or counterparties and could result in regulatory censure and penalties, legal liability, reputational damage and financial loss by the Group; (v) the risk of a failure to closely monitor risk exposure to new and emergent technology, which could lead to customer detriment, loss of business, regulatory censure, missed business opportunity and reputational damage; (vi) the risk of fraudulent and other internal and external criminal activities, which could result in high profile material losses together with regulatory censure,
penalties and significant reputational damage; (vii) the risk of the inability to hire and retain appropriately qualified employees, which could negatively impact the Group's financial performance, control environment and level of employee engagement as well as the disenfranchisement of certain customer groups, customer detriment and reputational damage; (viii) the risk that the Group failing to comply with tax laws and practices or managing its tax affairs in an appropriate manner, which could lead to losses due to additional tax charges, other financial costs or reputational damage; (ix) the risk that of incorrect judgements being exercised, or incorrect estimates or assumptions being used, in relation to International Financial Reporting Standards, which could result in significant loss to the Group, beyond what was anticipated or provided for; and (x) the risk of failing to accurately collect and maintain the large volumes of data (including personally identifiable information, intellectual property, and financial data) that the Group holds and to protect it from breaches of confidentiality and interference with its availability, which could lead to loss or unavailability of data and data integrity issues and could result in regulatory censure, legal liability and reputational damage.

**Model risk:** The risk of the potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports. Models are, by their nature, imperfect and incomplete representations of reality because they rely on assumptions and inputs, and so they may be subject to errors affecting the accuracy of their outputs. Models may also be misused. Model errors or misuse may result in the Group making inappropriate business decisions and being subject to financial loss, regulatory risk, reputational risk and/or inadequate capital reporting.

**Conduct risk:** The risk of detriment to customers, clients, market integrity, competition or the Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Ineffective product governance, could lead to poor customer outcomes, as well as regulatory sanctions, financial loss and reputational damage. The Group may be adversely affected if it fails to effectively mitigate the risk that its employees or third parties facilitate, or that its products and services are used to facilitate financial crime (money laundering, terrorist financing, bribery and corruption and sanctions evasion). Failure to protect personal data can lead to potential detriment to the Group’s customers and clients, reputational damage, regulatory sanctions and financial loss, which under the new EU Data Protection Regulation may be substantial. Failure to meet the requirements and expectations of the UK Senior Managers Regime, Certification Regime and Conduct Rules may lead to regulatory sanctions, both for the individuals and the Group.

**Reputation risk:** The risk that an action, transaction, investment or event will reduce trust in the Group's integrity and competence by clients, counterparties, investors, regulators, employees or the public.

**Legal risk and legal, competition and regulatory matters:** The risk of loss or imposition of penalties, damages or fines from the failure of the Group to meet its legal obligations including regulatory or contractual requirements. Legal disputes, regulatory investigations, fines and other sanctions relating to conduct of business and breaches of legislation and/or regulations may negatively affect the Group's results, reputation and ability to conduct its business. Legal outcomes can arise as a consequence of legal risk or because of past and future actions, behaviours and business decisions as a result of other Principal Risks.

equal to or greater than their initial purchase price, you will lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.

You may also lose some or all of your entire investment, or part of it, if:

- the Underlying Asset performs in such a manner that the redemption amount payable or deliverable to you (whether at maturity or following any early redemption and including after deduction of any applicable taxes and expenses) is less than the initial purchase price;
- you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price;
- the Securities are redeemed early following the occurrence of an extraordinary event in relation to the Underlying Asset(s), the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such redemption is less than the initial purchase price; and/or
- the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to you and/or the value of the Securities is reduced.

**Risk of withdrawal of the public offering:** In case of a public offer, the Issuer may provide in the Final Terms that it is a condition of the offer that the Issuer may withdraw the offer for reasons beyond its control, such as extraordinary events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

**Reinvestment risk/loss of yield:** Following an early redemption of the Securities for any reason, holders may be unable to reinvest the redemption proceeds at a rate of return as high as the return on the Securities being redeemed.

**Issuer optional early redemption:** The ability of the Issuer to early redeem the Securities will mean an investor is no longer able to participate in the performance of any Underlying Assets. This feature may limit the market value of the Securities.

**Settlement expenses:** Payments, deliveries and settlement under the Securities may be subject to deduction of taxes and settlement expenses, if applicable.

**Conditions to settlement:** Settlement is subject to satisfaction of all conditions to settlement by the investor.

**Volatile market prices:** The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in foreign exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.
Return linked to performance of an Underlying Asset: The return payable on the Securities is linked to the change in value of the Underlying Asset over the life of the Securities. Any information about the past performance of any Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of any Underlying Asset.

US withholding on dividend equivalent amounts: Certain actual or deemed payments on the securities held by non-US investors generally may be subject to a US withholding tax of 30 per cent. No additional amounts will be payable in respect of such withholding taxes.

Equity index risks: Securities linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Securities linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares.

The Index Sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.

Capped return: As the redemption amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.

Capped return: As the redemption amount is subject to a cap, the return holders may receive is limited.

Underlying foreign exchange rates: Securities will be exposed to the performance of one or more underlying foreign exchange rates. Foreign exchange rates are highly volatile and are determined by a wide range of factors including supply and demand for currencies, inflation, interest rates; economic forecasts, political issues, the convertibility of currencies and speculation.

Digital interest: the interest amount is either a higher pre-determined interest amount or zero, depending on whether the performance criteria are met. It is possible that you will not receive any interest at all over the lifetime of the Securities.
