

BARCLAYS BANK PLC

(Incorporated with limited liability in England and Wales)

Pursuant to the Global Structured Securities Programme

What is this document?

This document (the "**Base Prospectus**") constitutes a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC of the European Parliament and of the Council as amended, including by Directive 2010/73/EU (the "**Prospectus Directive**"), and is one of a number of prospectuses which relate to the Global Structured Securities Programme (the "**Programme**").

This Base Prospectus is valid for one year and may be supplemented from time to time to reflect any significant new factor, material mistake or inaccuracy relating to the information included in it.

What type of Securities does this Base Prospectus relate to?

This particular Base Prospectus ("**GSSP Base Prospectus 11**") relates to the issuance of securities ("**Securities**") in the form of certificates which will be exercisable by the investor or cancellable by the Issuer on specified dates at a settlement amount that is linked to the performance of a specified equity index, share, depositary receipt or exchange traded fund and, where applicable, may automatically be cancelled if the price of such Underlying Asset breaches a specified threshold.

The Securities will have no expiration date.

Who is the Issuer?

The Securities will be issued by Barclays Bank PLC (the "**Issuer**"). The payment of any amount due under the Securities is subject to the Issuer's financial position and its ability to meet its obligations. The registration document for the Issuer (the "**Registration Document**") which is incorporated by reference into this Base Prospectus, together with other information provided in this Base Prospectus, provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer.

How do I use this Base Prospectus?

This Base Prospectus, together with certain other documents listed within, is intended to provide you with information necessary to enable you to make an informed investment decision before purchasing any Securities.

The contractual terms of any particular issuance of Securities will be composed of the terms and conditions set out at pages 56 to 110 of this Base Prospectus (the "**General Conditions**"), as completed by a separate Final Terms document, which is specific to that issuance of Securities (the "**Final Terms**").

The General Conditions comprise five sections (A to E):

- Sections A: INTRODUCTION, B: FORM, TITLE, TRANSFER, CALCULATIONS, PAYMENTS AND SETTLEMENT and E: GENERAL PROVISIONS are generic provisions which apply to issuances of Securities generally;
- Sections C: SPECIFIED EARLY CANCELLATION, CALL OPTION AND PUT OPTION EXERCISE and D: EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES contain certain optional provisions that will only apply to certain issuances of Securities. The Final Terms document will specify which provisions from Sections C and D apply to your Securities.

The provisions from Section C that are specified to be applicable in the Final Terms will contain the relevant economic terms applicable to your Securities, as follows:

- General Conditions 5.1(a) and 5.2(a) (*Specified early cancellation*) contain details on the calculation of the settlement amount which is payable following a "Specified Early Cancellation Event", if applicable;
- General Conditions 5.1(b), 5.2(b) and 5.3(a) (*Call option*) contain details on the calculation of the settlement amount which is payable following the exercise by the Issuer of its option to cancel all of the Securities; and
- General Conditions 5.1(c), 5.2(c) and 5.3(b) (*Put option*) contain details on the calculation of the settlement amount which is payable following the exercise by an investor of some or all of its Securities.

This Base Prospectus also includes other general information such as information about the material risks relating to investing in Securities and information on selling and transfer restrictions. The Registration Document incorporated by reference into this Base Prospectus provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer.

All capitalised terms used will be defined in this Base Prospectus or the Final Terms and are referenced in the Index to this Base Prospectus.

What other documents do I need to read?

This Base Prospectus (including the Registration Document and the other information which is incorporated by reference) contains all information which is necessary to enable investors to make an informed decision regarding the financial position and prospects of the Issuer and the rights attaching to the Securities. Some of this information is incorporated by reference from other publicly available documents and some of this information is completed in an issue-specific document called the Final Terms. You should read the documents incorporated by reference, as well as the Final Terms in respect of such Securities, together with this Base Prospectus.

Documents will be made available at the registered office of the Issuer and <http://www.bmarkets.com>, <http://irreports.barclays.com/prospectuses-and-documentation/structured-securities/prospectuses> and <http://www.barclays.com/barclays-investor-relations/results-and-reports/results.html> (as applicable) or any successor website and will also be published on the website of the Luxembourg Stock Exchange (<http://www.bourse.lu>).

What information is included in the Final Terms?

While this Base Prospectus includes general information about all Securities, the Final Terms is the document that sets out the specific details of each particular issuance of Securities. For example, the Final Terms will contain:

- the issue date;
- the 'Type of Security'; and
- any other information needed to complete the terms included in this Base Prospectus for the particular Securities (identified by the words 'as specified in the Final Terms' or other equivalent wording).

Wherever the General Conditions provide optional provisions, the Final Terms will specify which of those provisions apply to a specific issuance of Securities.

What type of Underlying Asset may the Securities be linked to?

Securities issued under this Base Prospectus will be 'derivative securities' for the purposes of the Prospectus Directive, reflecting the fact that the repayment terms shall be linked to an equity index, share, depositary receipt or exchange traded fund.

IMPORTANT INFORMATION

THE AMOUNT PAYABLE ON EXERCISE OR CANCELLATION OF THE SECURITIES MAY BE LESS THAN THE ORIGINAL INVESTED AMOUNT (AND IN SOME CASES MAY BE ZERO), IN WHICH CASE YOU MAY LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

FOR ALL SECURITIES, IF THE ISSUER BECOMES INSOLVENT OR BANKRUPT OR OTHERWISE FAILS TO MAKE ITS PAYMENT OBLIGATIONS ON THE SECURITIES, YOU WILL LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

INVESTING IN SECURITIES INVOLVES CERTAIN RISKS, AND YOU SHOULD FULLY UNDERSTAND THESE BEFORE YOU INVEST. SEE THE SECTION HEADED 'RISK FACTORS' BELOW.

Regulatory approval and passporting for the purposes of the EU Prospectus Directive

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* in its capacity as competent authority in the Grand Duchy of Luxembourg (the "CSSF") as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the Grand Duchy of Luxembourg for the purpose of giving information with regard to the issue of Securities pursuant to the Programme on and during the period of 12 months after the date hereof.

The CSSF assumes no responsibility with regard to the economic and financial soundness of any transaction pursuant to the Programme or the quality and solvency of the Issuer in accordance with the provisions of Article 7(7) of the Luxembourg Act dated 10 July 2005 relating to prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*).

Notification of this approval will be made to the competent authorities of France and the Netherlands.

The Registration Document which is incorporated by reference into this Base Prospectus has been approved by the United Kingdom Financial Conduct Authority.

No compensation arrangements

Any failure by the Issuer to make payments due under the Securities would not of itself give rise to any claim for compensation on the grounds of such a failure. You would not have a claim for compensation against the UK's Financial Services Compensation Scheme. For more information regarding Issuer risk, please see risk factor 1 (*Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities*)

No investment advice

Neither this Base Prospectus nor any Final Terms is or purports to be investment advice. Unless expressly agreed otherwise with a particular investor, neither the Issuer nor any Manager is acting as an investment adviser, providing advice of any other nature, or assuming any fiduciary obligation to any investor in Securities.

Independent evaluation

Nothing set out or referred to in this Base Prospectus is intended to provide the basis of any credit or other evaluation (except in respect of any purchase of Securities described herein) or should be considered as a recommendation by the Issuer or any Manager that any recipient of this Base Prospectus (or any document referred to herein) should purchase any Securities.

An investor should not purchase the Securities unless they understand the extent of their exposure to potential loss. Investors are urged to read the factors described in the section headed '*Risk Factors*', together with the other information in this Base Prospectus (including any information incorporated by reference), as supplemented from time to time, and the Final Terms, before investing in the Securities.

Investors should note that (i) the risks described in the section of this Base Prospectus headed '*Risk Factors*' and (ii) the risks described in the section headed '*Risk Factors*' of the Registration Document (which is incorporated by reference into this Base Prospectus) are not the only risks that the Issuer faces or that may

arise because of the nature of the Securities. The Issuer has described only those risks relating to its operations and to the Securities that it considers to be material. There may be additional risks that the Issuer currently considers not to be material or of which it is not currently aware.

Given the nature, complexity and risks inherent in the Securities (and investments relating to any Underlying Asset), the Securities may not be suitable for an investor's investment objectives in the light of his or her financial circumstances. Investors should consider seeking independent advice to assist them in determining whether the Securities are a suitable investment for them or to assist them in evaluating the information contained or incorporated by reference into this Base Prospectus or set out in the Final Terms.

You have sole responsibility for the management of your tax and legal affairs including making any applicable filings and payments and complying with any applicable laws and regulations. Neither the Issuer, nor any of its Affiliates, will provide you with tax or legal advice and you should obtain your own independent tax and legal advice tailored to your individual circumstances. The tax treatment of structured products, such as the Securities, can be complex; the tax treatment applied to an individual depends on their circumstances. The level and basis of taxation may alter during the term of any product.

Amounts due to be paid to you are described on a gross basis, i.e. without calculating any tax liability. The Issuer shall make no deduction for any tax, duty, or other charge unless required by law.

Potential for discretionary determinations by the Issuer or the Determination Agent

Under the terms and conditions of the Securities, following the occurrence of certain events relating to the Issuer, the Issuer's hedging arrangements, the Underlying Asset, taxation, the relevant currency or other matters, the Issuer or the Determination Agent may determine to take one of the actions available to it in order to deal with the impact of such event on the Securities or the Issuer or both. These actions may include (i) adjustment to the terms and conditions of the Securities, (ii) substitution of the Underlying Asset or (iii) early cancellation of the Securities. Any such discretionary determination by the Issuer or Determination Agent could have a material adverse impact on the value of and return on the Securities. See, in particular, '*Risk Factors*' – risk factor 14 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*) below.

Distribution

The distribution or delivery of this Base Prospectus or any Final Terms and any offer or sale of Securities in certain jurisdictions may be restricted by law. This document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation. Other than as expressly described in this Base Prospectus, no action is being taken to permit an offering of Securities or the delivery of this Base Prospectus in any jurisdiction. Persons into whose possession this Base Prospectus or any Final Terms come are required by the Issuer to inform themselves about and to observe any such restrictions.

Details of selling restrictions for various jurisdictions are set out in the section headed '*Purchase and Sale*'.

US selling restrictions

The Securities are being offered and sold outside the United States to non-US persons in reliance on Regulation S.

Securities in bearer form may be subject to US tax law requirements (as described below). Subject to certain exceptions, Securities may not be offered, sold or delivered within the United States or its possessions or to US persons (as defined in the US Internal Revenue Code 1986 (the "**Code**") and the regulations thereunder).

For a description of these and certain further restrictions on offers, sales and transfers of Securities and delivery of this Base Prospectus and any Final Terms, see '*Purchase and Sale*' and '*Clearance, Settlement and Transfer Restrictions*' herein.

ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

US foreign account tax compliance withholding

THE FOREIGN ACCOUNT TAX COMPLIANCE ACT IS PARTICULARLY COMPLEX AND ITS CURRENT AND FUTURE APPLICATION TO THE ISSUER, THE SECURITIES AND THE INVESTORS IS UNCERTAIN AT THIS TIME. YOU SHOULD CONSULT YOUR OWN TAX ADVISERS TO OBTAIN A MORE DETAILED EXPLANATION OF FOREIGN ACCOUNT TAX COMPLIANCE ACT AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT YOU IN YOUR PARTICULAR CIRCUMSTANCE, INCLUDING HOW THE FOREIGN ACCOUNT TAX COMPLIANCE ACT RULES MAY APPLY TO PAYMENTS RECEIVED UNDER THE SECURITIES BOTH CURRENTLY AND IN THE FUTURE.

Change of circumstances

Neither the delivery of this Base Prospectus or any Final Terms, nor any sale of Securities pursuant thereto, shall create any impression that information therein relating to the Issuer is correct at any time subsequent to the date thereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same (the foregoing being without prejudice to the Issuer's obligations under applicable rules and regulations).

Representations

In connection with the issue and sale of Securities, no person has been authorised to give any information or to make any representation not contained in or consistent with this Base Prospectus and Final Terms and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer. The Issuer does not accept responsibility for any information not contained in this Base Prospectus and Final Terms. This document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation and no action is being taken to permit an offering of the Securities or the distribution of this Base Prospectus in any jurisdiction where action is required.

Calculations and determinations

Unless otherwise specified, all calculations and determinations in respect of the Securities shall be made by either Barclays Bank PLC or Barclays Capital Securities Limited (acting in such capacity, the "**Determination Agent**").

SUMMARY

Summaries are made up of disclosure requirements known as 'elements'. These elements are numbered in Sections A to E (A.1 to E.7).

This Summary (the "**Summary**") contains all the elements required to be included in a summary for these types of securities and issuer. Because some elements are not required to be addressed, there may be gaps in the numbering sequence of the elements.

Even though an element may be required to be inserted in the Summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the element. In this case a short description of the element is included in the Summary after the words 'not applicable'.

Further, in certain circumstances, the Issuer may amend the terms and conditions of the Securities, without the holders' consent. The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to cancel the Securities prior to scheduled final cancellation, (where applicable) to postpone valuation of the underlying asset or scheduled payments under the Securities, to change the currency in which payments are made under the Securities, to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset (if any).</p>

		<p>Determination Agent: [Barclays Bank PLC/Barclays Capital Securities Limited] (the "Determination Agent") will be appointed to make calculations and determinations with respect to the Securities.</p>
C.11	<p>Admission to trading</p>	<p>[Securities may be admitted to trading on a regulated market in France, Luxembourg or the Netherlands.]</p> <p>[Application [has been made/is expected to be made] by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the [Luxembourg Stock Exchange] [NYSE Euronext Paris] [NYSE Euronext Amsterdam] with effect from [●]. [The Tranche [●] Securities were admitted to trading on [the Luxembourg Stock Exchange] [NYSE Euronext Paris] [NYSE Euronext Amsterdam] on or around [●]]</p> <p>[Not Applicable: the Securities are not intended to be admitted to trading.]</p>
C.15	<p>Description of how the value of the investment is affected by the value of the underlying</p>	<p>The Securities are [Open-ended Mini [Long] [Short] Securities] [Open-ended Turbo [Long] [Short] Securities]] [Open-ended Tracker Securities], are issued in [●] and expose investors to the performance of [●] (the "Underlying Asset") [(Bloomberg Screen [●]) (ISIN: [●])].</p> <p><i>[Open-ended Mini Securities and Open-ended Turbo Securities:]</i> [An [Open-ended Mini [Long] [Short] Security] [Open-ended Turbo [Long] [Short] Security] provides investors the potential to make a profit or loss from fluctuations in the price or level of the Underlying Asset, without investing directly in the [components of the] Underlying Asset. The initial investment needed to invest in a Security is lower than would be required for a direct investment in the [components of the] Underlying Asset for the same absolute return. This is called leverage. The higher the leverage, the greater the exposure to price movement compared to the Underlying Asset. There is a 'cost' associated with the provision of leverage by the Issuer which is reflected in the price of the Security through the Current Financing Level, which is adjusted on a daily basis to account for the daily 'cost' to the Issuer of providing the leverage in respect of the Securities. This adjustment to the Current Financing Level will therefore have the effect of reducing the value of the Security over time.</p> <p><i>[Open-ended Mini Long Securities and Open-ended Turbo Long Securities:]</i> [An [Open-ended Mini Long Security] [Open-ended Turbo Long Security] gives investors 'long' exposure to the performance of the Underlying Asset. Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>Business conditions and the general economy: Weak or deteriorating economic conditions or political instability in one or a number of countries in any of the Bank Group's main business markets or any other globally significant economy could have a material adverse effect on the Bank Group's operations, financial condition and prospects.</p> <p>Credit risk: The Issuer is exposed to the risk of suffering loss if any of its customers, clients or market counterparties fails to fulfil its contractual obligations. Credit risk and, consequently, the Bank Group's performance may also be adversely affected by the impact of deteriorating economic conditions (and their effects, including higher interest rates, falling property prices and potential instability or economic uncertainty) and risks relating to sovereign debt crises, Eurozone exit or a slowing or withdrawing of monetary stimulus. If some or all of these conditions arise, persist or worsen, they may have a material adverse effect on the Bank Group's operations, financial condition and prospects. In addition, the Issuer holds a significant portfolio of assets which (i) remain illiquid, (ii) are valued based on assumptions, judgements and estimates which may change over time and (iii) which are subject to further deterioration and write downs.</p> <p>Market risk: The Issuer is at risk from its earnings or capital being reduced due to changes in the level or volatility of positions in its trading books and being unable to hedge its banking book balance sheet at market levels. These risks could lead to significantly lower revenues, which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Funding risk: The Bank Group is exposed to the risk that it may not be able to achieve its business plans due to: an inability to maintain appropriate capital ratios; or inability to meet its obligations as they fall due; or adverse changes in interest rates impacting structural hedges and/or the impact of changes in foreign exchange rates on capital ratios. These risks could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Legal, competition and regulatory risk: The Bank Group is subject to extensive and comprehensive regulation under the laws of the various jurisdictions in which it does business. The Bank Group has also, in recent years, faced a risk of increased level of legal proceedings in these jurisdictions, in particular, the U.S. The Bank Group also faces existing regulatory and other investigations in various jurisdictions.</p> <p>The Bank Group may incur significant additional expense in connection with existing and potential future legal and regulatory proceedings including for non-compliance by the Bank Group with applicable laws, regulations and codes. This could expose the Bank Group to: substantial monetary damages; loss of significant assets; other penalties and injunctive relief; potential for criminal prosecution in certain circumstances; potential regulatory restrictions on the Bank Group's business; and/or have a negative effect on the Bank Group's reputation, any of which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Regulatory risks: The regulatory environment in which the Bank Group operates is subject to significant levels of change. There is a risk that such changes to the regulatory environment may adversely affect the Bank Group's business, capital and risk management planning and/or may result in the Bank Group increasing capital, reducing leverage, deciding to modify its legal entity structure, deciding to change how and where capital and funding is deployed within the Bank Group, require the Bank Group to increase its loss-absorbing capacity and/or undertake potential modifications to Barclays' business mix and model (including potential exit of certain business activities). In addition,</p>

		<p>the risk of such regulatory change will continue to require senior management attention and consume significant levels of business resources.</p> <p>The Bank Group faces significant regulatory scrutiny (for example in relation to systems and controls) in many of the jurisdictions in which it operates, particularly in the United Kingdom and the U.S. Non-compliance with the applicable laws, regulations or codes could lead to fines, public reprimands, damage to reputation, increased prudential requirements, changes to the Bank Group's structure and/or strategy, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate, as well as costs relating to investigations and remediation of affected customers.</p> <p>Conduct and Reputation risks: The Bank Group is exposed to the risk of inappropriate execution of its business activities or failures in corporate governance or management (for example, if Barclays were to provide funding or services to clients without fully implementing anti-money laundering, anti-bribery or similar controls), or the perception thereof, may cause detriment to customers, clients or counterparties and may lead to reputational damage and reduce the attractiveness of the Bank Group to stakeholders. This may, in turn, lead to negative publicity, loss of revenue, litigation, higher scrutiny and/or intervention from regulators, regulatory or legislative action, loss of existing or potential client business, reduced workforce morale, and difficulties in recruiting and retaining talent. Sustained conduct and reputational damage could affect the Bank Group's operations, financial condition and prospects.</p> <p>Risk relating to United Kingdom Bail-In Power: The Bank Recovery and Resolution Directive grants supervisory authorities power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities of a failing financial institution (which could include Securities issued by the Issuer hereunder), and/or to convert certain debt claims into another security, including ordinary shares. Under the Banking Act 2009 of the United Kingdom as amended, the bail-in option is introduced to enable the United Kingdom resolution authority to recapitalise a failed institution by allocating losses to its shareholders and unsecured creditors. There remains uncertainty regarding the specific factors which the United Kingdom resolution authority would consider in deciding whether to exercise the United Kingdom bail-in power. Holders of the Securities may have only limited rights to challenge any decision of the United Kingdom resolution authority exercising its United Kingdom bail-in power.</p>
<p>D.6</p>	<p>Key information on the key risks that are specific to the Securities; and risk warning that investors may lose some or all of the value of their investment</p>	<p>You may lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.</p> <p>You may also lose the value of your entire investment, or part of it, if:</p> <ul style="list-style-type: none"> • the Underlying Asset performs in such a manner that the settlement amount payable to you is less than the initial purchase price; • you sell your Securities in the secondary market (if any) at an amount that is less than the initial purchase price; • the Securities are cancelled early following the occurrence of an extraordinary event in relation to the Underlying Asset, the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such early cancellation is less than the initial purchase price; and/or • the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the settlement amount payable to you and/or the value of the Securities is reduced. <p>Issuer call option: the Issuer has the right to call and cancel your Securities,</p>

	<p>and the yield upon cancellation following a call by the Issuer may be lower than expected, which means you may receive less than the price you paid, or even zero. In such event, you will be paid a settlement amount that may be substantially less than the value of such Securities or the amount you originally invested, but for the occurrence of such event, or even zero, and you will not benefit from any subsequent movement in the price or level of the Underlying Asset.]</p> <p><i>[insert for Open-ended Turbo Securities]</i> [The Issuer will cancel the Securities if the price or level of the Underlying Asset <i>[insert where Securities offer long exposure to the Underlying Asset]</i> [falls to or below] <i>[insert where Securities offer short exposure to the Underlying Asset]</i> [rises to or above] the outstanding amount of the financing provided by the Issuer. In such event, you will be paid a settlement amount that may be substantially less than the value of such Securities or the amount you originally invested but for the occurrence of such event, or even zero, and you will not benefit from any subsequent movement in the price or level of the Underlying Asset.</p> <p>[Leverage: The Securities provide a leveraged exposure to the performance of the Underlying Asset and are more risky than a direct investment in the Underlying Asset. Leverage increases volatility and amplifies losses and gains. The Securities provide a return that is a multiple of the positive or negative performance of the Underlying Asset and magnify losses in adverse market conditions compared to an unleveraged or direct investment in the <i>[where the Underlying is an Index, insert: the securities constituting the]</i> Underlying Asset. Leverage makes it more likely that the Securities will be cancelled automatically.]</p> <p>Daily fees will reduce the value of the investment over time: The amount payable upon the exercise or cancellation of a Security takes into account [a funding charge][,] [a management fee] [and] [a currency hedging charge] which accrue[s] on a daily basis throughout the term of the Securities. The total amount of such fees, and the negative effect of such fees on an investor's return on an investment in the Securities, will therefore increase for the duration of the investment period.</p> <p>Return linked to performance of Underlying Asset: The return payable on the Securities is linked to the change in value of the Underlying Asset over the life of the Securities. Any information about the past performance of the Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of the Underlying Asset.</p> <p>Reinvestment risk/loss of yield: Following the exercise or early cancellation of the Securities for any reason, holders may be unable to reinvest the proceeds of the exercise or cancellation of such Securities at a rate of return as high as the return on the Securities being cancelled.</p> <p>[Shares: The performance of shares is dependent upon numerous economic factors, such as interest and price levels in capital markets, currency developments, political factors as well as company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any relevant share issuer may take actions without regard to the interests of any holders of the Securities, which could have a negative effect</p>
--	---

		<p>on the value of the Securities.]</p> <p>[Equity Index risks: Securities linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Securities linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares.</p> <p>The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.]</p> <p>[Exchange Traded Funds ("ETFs"): Where you purchase Securities that are linked to any ETF, you may receive a lower payment upon exercise or cancellation of your Securities than you would have received if you had invested directly in the share or index which is 'tracked' or invested in by the relevant ETF. The management company, trustee or sponsor of an ETF will have no involvement in the offer and sale of the Securities and could take actions which have a negative effect on the value of the Securities.]</p> <p>[American Depositary Receipts ("ADRs") or Global Depositary Receipts ("GDRs"): Where you purchase Securities linked to ADRs or GDRs you may receive a lower payment than you would have received if you had invested in the underlying shares directly (for example, because you may not receive any dividends paid on the underlying shares). The legal owner of the shares underlying the ADRs or GDRs is a custodian bank and, in the event the custodian bank becomes insolvent, it is possible that the purchaser of an ADR or GDR may lose its rights to the underlying shares under the ADR or GDR. This could have an adverse effect on the value of the Securities.]</p> <p>[Substitution: Where any [Share][ADR][GDR][unit in the ETF] is affected by certain disruption events, the Issuer may substitute such asset with a substitute [Share][ADR][GDR][unit in the ETF] similar to the original asset. The subsequent performance or perceived value of this substitute asset may cause the value of the Securities to drop and/or may result in you receiving less than expected on settlement.]</p> <p>Volatile market prices: The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest rates and yields; fluctuations in currency exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p>

RISK FACTORS

You should only invest in the Securities after assessing these principal risks, including any risks applicable to the relevant Underlying Asset. The risks described in this section can be cumulative and apply simultaneously which may unpredictably affect the Securities. Specifically, no assurance can be given as to the effect that any combination of risk factors may have on the value of and return on the Securities. The effect of any one factor may be offset or magnified by the effect of another factor. The risks below are not exhaustive and there may be additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial but that could have a material impact on the business, operations, financial condition or prospects of the Issuer or the value of and return on the Securities.

You should consider carefully the following discussion of risks to help you decide whether or not the Securities are suitable for you.

RISK WARNING

There are a number of circumstances in which you may lose some or all of your investment in the Securities.

The terms of the Securities do not provide for scheduled minimum payment of the face value or issue price of the Securities on exercise or cancellation: depending on the performance of the Underlying Asset, you may lose some or all of your investment.

The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment obligations under the Securities, you will lose some or all of your investment.

You may also lose some or all of your investment in the following circumstances:

- The market price of your Securities may be significantly lower than the purchase price you paid for them. Consequently, if you sell or exercise your Securities, or your Securities are cancelled (whether automatically or by the Issuer), you may receive far less than your original invested amount.
- Your Securities may be cancelled in certain extraordinary circumstances and, in such case, the early settlement amount paid to you may be less than what you paid for the Securities.
- The terms and conditions of your Securities may be adjusted by the Issuer or Determination Agent in certain circumstances with the effect that the amount payable to you is less than your initial investment.

FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES

1. Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities

The Issuer is a major, global financial services company and, as such, faces a variety of risks that are substantial and inherent in its businesses, and which may affect its ability to fulfil its payment or other obligations under the relevant Securities as they fall due. These risks include liquidity risk, market risk, credit risk, operational risk, reputational risk, legal, regulatory and compliance risks, litigation and other contingent liabilities, competition risks, the financial condition of clients, customers and counterparties, adverse economic, monetary, political or legal developments, cross-border and foreign exchange risk, catastrophic events, risks from estimates and valuations and risks relating to strategy.

The Securities are direct, unsecured and unsubordinated obligations of the Issuer and will rank equally among themselves. The Securities are unsecured obligations, are not deposits and are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. You are therefore exposed to the creditworthiness of the Issuer and any deterioration in the Issuer's creditworthiness or perceived creditworthiness (whether measured by actual or anticipated changes in the credit ratings of the Issuer) may adversely affect the value of the Securities.

These risks are described in the section '*Risk Factors*' in the Registration Document incorporated by reference into this document – see '*Information Incorporated by Reference*'.

2. Regulatory bank resolution framework

The Banking Act provides for a regime to allow the Bank of England (or, in certain circumstances, HM Treasury) to resolve failing banks in the UK – see '*Regulatory action in the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities*' below.

3. **Regulatory action in the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities**

This risk factor provides an overview of current risks and consequences associated with the power of regulatory agencies in the UK to take action to save failing institutions.

The term "**Group**" means Barclays PLC together with its subsidiaries. The Bank Recovery and Resolution Directive ("**BRRD**") provides an EU-wide framework for the recovery and resolution of credit institutions and investment firms, their subsidiaries and certain holding companies. The BRRD requires all EEA member states to provide their relevant resolution authorities with a set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the broader economy and financial system.

In the United Kingdom, the majority of the requirements of the BRRD have been implemented into national law in the Banking Act. The UK implementation of the BRRD included the introduction of the bail-in tool as of 1 January 2015. The UK has deferred the implementation of minimum requirement for own funds and eligible liabilities ("**MREL**") regime, pending, among other things, further developments via the Financial Stability Board ("**FSB**") for harmonising key principles for Total Loss-Absorbing Capacity ("**TLAC**") globally. See '*Minimum requirement for own funds and eligible liabilities*' below.

The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks or investment firms and certain of their Affiliates in the event a bank in the same group is considered to be failing or likely to fail. The exercise of any of these actions in relation to the Issuer could materially adversely affect the value of the Securities

Under the Banking Act, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury) (the "**Relevant UK Resolution Authority**"), in consultation with the PRA, the FCA and HM Treasury, as appropriate as part of a special resolution regime (the "**SRR**"). These powers enable the Relevant UK Resolution Authority to implement resolution measures with respect to a UK bank (such as the Issuer) and certain of its Affiliates (including, for example, Barclays PLC) (each a relevant entity) in circumstances in which the Relevant UK Resolution Authority is satisfied that the resolution conditions are met. The stabilisation options available to the Relevant UK Resolution Authority under the SRR provide for:

- (i) private sector transfer of all or part of the business of the relevant entity;
- (ii) transfer of all or part of the business of the relevant entity to a 'bridge bank' established by the Bank of England;
- (iii) transfer to an asset management vehicle;
- (iv) the bail-in tool; and
- (v) temporary public ownership (nationalisation) of the relevant entity.

Each of these stabilisation options is achieved through the exercise of one or more 'stabilisation powers', which include (i) the power to make share transfer orders pursuant to which all or some of the securities issued by a relevant entity may be transferred to a commercial purchaser, a bridge bank or, in the case of certain relevant entities, the UK government; (ii) the resolution instrument power which includes the exercise of the bail-in tool; (iii) the power to transfer all or some of the property, rights and liabilities of a relevant entity to a commercial purchaser or Bank of England entity; and (iv) the third country instrument powers that recognise the effect of similar special resolution action taken under the law of a country outside the EEA (a third country). A share transfer order can extend to a wide range of securities, including shares and bonds issued by a relevant entity and warrants for such shares and bonds and could, therefore, apply to the Securities. In addition, the Banking Act grants powers to modify contractual arrangements in certain circumstances, powers to suspend enforcement or termination rights that might be invoked as a result of the exercise of the resolution powers and powers for the Relevant UK Resolution Authority to disapply or modify laws in the UK (with possible retrospective effect) to enable the powers under the Banking Act to be used effectively.

The exercise of any resolution power or any suggestion of any such exercise could materially adversely affect the value of the Securities and could lead to you losing some or all of the value of your investment in the Securities.

The SRR is designed to be triggered prior to insolvency of the Issuer and you may not be able to anticipate the exercise of any resolution power by the Relevant UK Resolution Authority

The stabilisation options are intended to be used prior to the point at which any insolvency proceedings with respect to the relevant entity could have been initiated. The purpose of the stabilisation options is to address the situation where all or part of a business of a relevant entity has encountered, or is likely to encounter, financial difficulties, giving rise to wider public interest concerns. Accordingly, the stabilisation options may be exercised if: the Relevant UK Resolution Authority: (i) is satisfied that a UK bank or investment firm (such as the Issuer) is failing, or is likely to fail; (ii) determines that it is not reasonably likely that (ignoring the stabilisation powers) action will be taken by or in respect of a UK bank or investment firm that will result in condition (i) above ceasing to be met; (iii) considers that the exercise of the stabilisation powers to be necessary, having regard to certain public interest considerations (such as the stability of the UK financial system, public confidence in the UK banking system and the protection of depositors, being some of the special resolution objectives) and (iv) considers that the special resolution objectives would not be met to the same extent by the winding-up of the UK bank or investment firm. In the event that the Relevant UK Resolution Authority seeks to exercise its powers in relation to a UK banking group company (such as the Issuer), the Relevant UK Resolution Authority has to be satisfied that (A) the conditions set out in (i) to (iv) above are met in respect of a UK bank or investment firm in the same banking group (or, in respect of an EEA or third country credit institution or investment firm in the same banking group, the relevant EEA or third country resolution authority is satisfied that the conditions for resolution applicable in its jurisdiction are met) and (B) certain criteria are met, such as the exercise of the powers in relation to such UK banking group company being necessary having regard to public interest considerations. The use of different stabilisation powers is also subject to further 'specific conditions' that vary according to the relevant stabilisation power being used.

On 26 May 2015, the EBA published its final guidelines on the circumstances in which an institution shall be deemed as 'failing or likely to fail' by supervisors and resolution authorities. These will apply from 1 January 2016. The guidelines set out the objective elements and criteria which should apply when supervisors and resolution authorities make such a determination and further provide guidance on the approach to consultation and exchange of information between supervisors and resolution authorities in such scenarios.

Although the Banking Act provides for the above described conditions to the exercise of any resolution powers and the EBA guidelines mentioned above set out the objective elements for determining whether an institution is failing or likely to fail, it is uncertain how the Relevant UK Resolution Authority would assess such conditions in any particular pre-insolvency scenarios affecting the Issuer and/or other members of the Group and in deciding whether to exercise a resolution power. The Relevant UK Resolution Authority is also not required to provide any advance notice to Holders of its decision to exercise any resolution power. Therefore, you may not be able to anticipate a potential exercise of any such powers nor the potential effect of any exercise of such powers on the Issuer, the Group and the Securities.

You may have only very limited rights to challenge the exercise of any resolution powers by the Relevant UK Resolution Authority

You may have only very limited rights to challenge and/or seek a suspension of any decision of the Relevant UK Resolution Authority to exercise its resolution powers or to have that decision reviewed by a judicial or administrative process or otherwise.

The Relevant UK Resolution Authority may exercise the bail-in tool in respect of the Issuer and the Securities, which may result in you losing some or all of your investment

The Relevant UK Resolution Authority may exercise the bail-in tool to enable it to recapitalise an institution in resolution by allocating losses to its shareholders and unsecured creditors (which include Holders of the Securities) in a manner that (i) ought to respect the hierarchy of claims in an ordinary insolvency and (ii) is consistent with shareholders and creditors not receiving a less favourable

treatment than they would have received in ordinary insolvency proceedings of the relevant entity (known as the 'no creditor worse off' safeguard). Certain liabilities are excluded from the scope of the bail-in tool, such as liabilities to the extent they are secured. The Banking Act also grants the power for the Relevant UK Resolution Authority to exclude any liability or class of liabilities on certain prescribed grounds (including financial stability grounds) and subject to specified conditions.

The bail-in tool includes the power to cancel a liability or modify the terms of contracts for the purposes of reducing or deferring the liabilities of the relevant entity under resolution and the power to convert a liability from one form or class to another. The exercise of such powers may result in the cancellation of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, the Securities and/or the conversion of all or a portion of the principal amount of, interest on, or any other amounts payable on, the Securities into shares or other securities or other obligations of the Issuer or another person, including by means of a variation to the terms of the Securities, in each case, to give effect to the exercise by the Relevant UK Resolution Authority of such power.

Where the relevant statutory conditions for intervention under the SRR and the use of the bail-in tool have been met, the Relevant UK Resolution Authority would be expected to exercise these powers without the consent of the Holders of the Securities.

The exercise of any resolution power, including the power to exercise the bail-in tool in respect of the Issuer and the Securities or any suggestion of any such exercise could materially adversely affect the rights of the Holders of the Securities, the price or value of their investment in the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities and could lead to Holders losing some or all of the value of their investment in such Securities. In addition, even in circumstances where a claim for compensation is established under the 'no creditor worse off' safeguard in accordance with a valuation performed after the resolution action has been taken, it is unlikely that such compensation would be equivalent to the full losses incurred by the Holders in the resolution and there can be no assurance that Holders would recover such compensation promptly.

As insured deposits are excluded from the scope of the bail-in tool and other preferred deposits (and insured deposits) rank ahead of any Securities issued by the Issuer, such Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer (such as other preferred deposits)

As part of the reforms required by the BRRD, amendments have been made to relevant legislation in the UK (including the UK Insolvency Act 1986) to establish in the insolvency hierarchy a statutory preference (i) firstly, for deposits that are insured under the Financial Services Compensation Scheme (insured deposits) to rank with existing preferred claims as 'ordinary' preferred claims and (ii) secondly, for all other deposits of individuals and micro, small and medium sized enterprises held in EEA or non-EEA branches of an EEA bank (other preferred deposits), to rank as 'secondary' preferred claims only after the 'ordinary' preferred claims. In addition, the EU Deposit Guarantee Scheme Directive, which is to be implemented into national law by July 2015, will increase the nature and quantum of insured deposits to include a wide range of deposits, including corporate deposits (unless the depositor is a public sector body or financial institution) and some temporary high value deposits. The effect of these changes is to increase the size of the class of preferred creditors. All such preferred deposits will rank in the insolvency hierarchy ahead of all other unsecured senior creditors of the Issuer, including the Holders. Furthermore, insured deposits are excluded from the scope of the bail-in tool. As a result, if the bail-in tool were exercised by the Relevant UK Resolution Authority, the Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer such as other preferred deposits.

Minimum requirement for own funds and eligible liabilities

To support the effectiveness of bail-in and other resolution tools, the BRRD requires that all institutions must meet an individual MREL requirement, calculated as a percentage of total liabilities and own funds and set by the relevant resolution authorities. Items eligible for inclusion in MREL will include an institution's own funds, along with 'eligible liabilities'. The UK has opted to defer until 1 January 2016 the implementation of the MREL regime.

The European Banking Authority (the "EBA") and the European Commission are required to develop the criteria for determining the MREL, the calculation methodologies and related measures. Although

the EBA has consulted on certain proposals, which are in draft form and subject to change, the precise impact of the MREL requirements on individual firms will remain a matter of some uncertainty until the final measures are adopted. It is also unclear whether the proposals published in November 2014 by the FSB for a new international standard on TLAC for globally systemically important banks ("**G-SIBs**") (including Barclays, based on the latest FSB list of G-SIBs published in November 2014) will affect the way in which the authorities implement the MREL regime.

While these measures remain in development, it is not possible to determine the ultimate scope and nature of any resulting obligations for the Issuer or the Group, nor the impact that they will have on the Issuer or the Group once implemented. If the FSB's and EBA's proposals are implemented in their current form, however, it is possible that the Issuer and/or other members of the Group may have to issue MREL eligible liabilities in order to meet the new requirements within the required time frames and/or alter the quantity and type of internal capital and funding arrangements within the Group. During periods of market dislocation, or when there is significant competition for the type of funding that the Group needs, a requirement to increase the Group's MREL eligible liabilities in order to meet MREL targets may prove more difficult and/or costly. More generally, these proposals could increase the Group's costs and may lead to asset sales and/or other balance sheet reductions. The effects of these proposals could all adversely impact the results of operations, financial condition and prospects of the Group and, in turn, adversely affect the value of the Securities.

FACTORS WHICH ARE MATERIAL FOR THE PURPOSES OF ASSESSING THE MARKET RISKS IN RELATION TO THE SECURITIES

4. Risks associated with the valuation of Securities

4.1 The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities

The market value of the Securities is likely to be lower, and may be significantly lower, than the issue price of the Securities. In particular, the difference between the issue price and the initial market value may be a result of:

- (a) where permitted by applicable law, amounts with respect to commissions relating to the issue and sale of the Securities;
- (b) the estimated profit that the Issuer and its subsidiary undertakings (together, the "**Bank Group**" or "**Barclays**") expects to earn in connection with structuring the Securities;
- (c) the estimated cost which Barclays may incur in hedging its obligations under the Securities; and
- (d) development and other costs which Barclays may incur in connection with the Securities.

In relation to (a) above, if not already disclosed, information with respect to the amount of any such inducements, commissions and fees may be obtained from the Issuer or distributor upon request.

4.2 The secondary market value of the Securities will likely be lower than the original issue price of the Securities

Any secondary market prices of the Securities will likely be lower than the original issue price of the Securities because, among other things, secondary market prices (as described in risk factor 4.1 (*The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities*) above) will likely be reduced by selling commissions, profits and hedging and other costs that are accounted for in the original issue price of the Securities. As a result, the price, if any, at which the Manager or any other person would be willing to buy Securities from you in secondary market transactions, if at all, is likely to be lower than the original issue price. See the immediately following risk factor for information about additional factors that may impact any secondary market prices of the Securities.

5. Risks associated with the liquidity of Securities and availability during an offer period

5.1 Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities

The Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and you may not be able to find a buyer. Therefore, you may not be able to sell your Securities or, if you can, you may only be able to sell them at a price which is substantially less than the original purchase price.

The Issuer may list the Securities on a stock exchange but, in such case, the fact that such Securities are listed will not necessarily lead to greater liquidity. If Securities are not listed or traded on any exchange, pricing information for such Securities may be more difficult to obtain and they may be more difficult to sell.

The Issuer is under no obligation to make a market or to repurchase the Securities (subject to the next paragraph). The Issuer and any Manager may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. If any Securities are cancelled in part, then the number of Securities outstanding will decrease. Any of these activities may have an adverse effect on the liquidity and/or price of the outstanding Securities in the secondary market.

5.2 Conditions of a secondary market

Where the Issuer does quote an indicative bid price for the Securities, the Issuer may determine the price in a significantly different manner than other market participants. Any price will depend on an assortment of factors including, but not limited to, (i) the creditworthiness of the Issuer, (ii) the then current funding levels of the Issuer taking into account market conditions, and (iii) the value of the Underlying Asset – see risk factor 4.2 (*The secondary market value of the Securities will likely be lower than the original issue price of the Securities*).

If the Issuer or Manager elects to make a secondary market, it may suspend or terminate such market at any time and impose other conditions and quote prices that may vary substantially from other market participants. For these reasons, you should not assume that a secondary market will exist. Where the Issuer or Manager elects to offer such secondary market, conditions imposed may include, but are not limited to:

- (a) providing a bid/offer spread determined by the Issuer in its commercially reasonable discretion;
- (b) providing the timing that any secondary market quotation will remain open, or in any event, not longer than what the Issuer considers a reasonable time;
- (c) requiring that normal market and funding conditions prevail at such date; and
- (d) limiting the number of Securities in respect of which it is prepared to offer such secondary market.

Any of these conditions may severely limit the availability of any such secondary market.

5.3 Over-issuance

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Securities than those which are to be initially subscribed or purchased by third party investors. The Issuer (or the Issuer's Affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market-making requirements. You should therefore not regard the issue size of any Securities as indicative of the depth or liquidity of the market for such Securities, or of the demand for such Securities.

5.4 The issue of further Securities may cause the secondary market price of your Securities to decline

If additional securities or options with the same characteristics or linked to the same Underlying Asset as your Securities are subsequently issued, either by the Issuer or another issuer, the supply of securities with such characteristics or linked to such Underlying Asset in the primary and secondary markets will increase and may cause the secondary market price of your Securities to decline.

5.5 The Issuer may withdraw the public offer at any time

In the case of public offers, the Issuer may provide that it is a condition to the offer that the Issuer reserves the right to withdraw the offer in whole or in part at any time at the discretion of the Issuer, including for reasons beyond its control, such as extraordinary events, substantial change of the political, financial, economic, legal, monetary or market conditions at national or international level and/or adverse events regarding the financial or commercial position of the Issuer and/or other relevant events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

6. Risks associated with certain features in relation to the Securities

6.1 The exercise of an Issuer call option or investor put option

The terms and conditions of the Securities provide that the Issuer has the right to call and cancel the Securities, and that you as the investor have the right to put and exercise the Securities. Following the exercise by the Issuer or you of such option, you will no longer be able to realise your expectations for a gain in the value of the Securities or to participate in the performance of any Underlying Asset. The yields received upon cancellation following a call by the Issuer or your exercise of the investor put may be lower than expected, and the amount received by you may be lower than the initial price you paid for the Securities and may be zero. You should also be aware that there may be additional costs associated with your exercise of an investor put option.

Additionally, the Issuer call option feature is likely to limit the market value of the Securities, as during any period when the Issuer may elect to call and cancel the Securities, the market value is unlikely to rise substantially above the price at which they are being cancelled.

6.2 Increased risk of an investment in leveraged securities

Open-ended Mini Securities and Open-ended Turbo Securities will almost always enable you to participate in any gains or falls in the value of the Underlying Asset by investing only part of the value of the Underlying Asset with the remaining portion financed by the Issuer. This creates leverage. Leveraged Securities provide a return that is a multiple of the performance of the relevant Underlying Asset and magnify losses in adverse market conditions compared to an unleveraged or direct investment in the Underlying Asset (or, in the case of an index, the stocks comprising such index). You should be aware that a small movement in the value of the Underlying Asset can have a significant effect on the value of the Securities. The higher the leverage, the more sensitive the Securities will be to any changes in the value of the Underlying Asset.

Leverage makes it more likely that the Securities will fall for automatic cancellation in accordance with their terms as described in paragraphs 5.3 and 5.4 below. In such event, you may lose some or all of your investment.

6.3 Automatic cancellation of Open-ended Mini Securities

Open-ended Mini Securities provide that the Issuer will cancel the Securities if a Specified Early Cancellation Event occurs. A 'Specified Early Cancellation Event' will occur if the price or level of the Underlying Asset falls to or below (in the case of Securities giving long exposure to the

Underlying Asset) or rises to or above (in the case of Securities giving short exposure to the Underlying Asset) the outstanding amount of the financing provided by the Issuer (as adjusted by the applicable premium). In the event that such a Specified Early Cancellation Event occurs, you will be paid a settlement amount calculated based on the price or level of the Underlying Asset and the outstanding financed amount and you will not benefit from any subsequent movement in the price or level of the Underlying Asset. In such circumstances you are likely to receive less than the amount you originally invested and you could receive zero.

6.4 Automatic cancellation of Open-ended Turbo Securities

Open-ended Turbo Securities provide that the Issuer will cancel the Securities if a Specified Early Cancellation Event occurs. A 'Specified Early Cancellation Event' will occur if the price or level of the Underlying Asset falls to or below (in the case of Securities giving long exposure to the Underlying Asset) or rises to or above (in the case of Securities giving short exposure to the Underlying Asset) the outstanding amount of the financing provided by the Issuer. In the event that such a Specified Early Cancellation Event occurs, you will be paid a fixed settlement amount that may be substantially less than the value of such Securities or the amount you originally invested but for the occurrence of such event, or even zero.

6.5 Additional risks in relation to automatic cancellation of Open-ended Mini Securities and Open-ended Turbo Securities

You may lose some or all of your investment if the Issuer is unsuccessful in unwinding its hedging position at a level of the Underlying Asset (the Stop Loss Termination Reference Price) exceeding the Current Financing Level on the day on which the Specified Early Cancellation Event occurs (in case of Open-ended Mini / Turbo Long Securities) and, respectively, below the Current Financing Level on the day on which the Specified Early Cancellation Event occurs (in case of Open-ended Mini / Turbo Short Securities). This risk exists especially in situations when the value of the Underlying Asset decreases considerably (in case of Open-ended Mini / Turbo Long Securities) or increases considerably (in case of Open-ended Mini / Turbo Short Securities) between close of the trading session on one trading day and beginning of the trading session on the following trading day.

You should also take note that the Specified Early Cancellation Event may occur outside the hours during which the Securities may be traded. For example, if the Underlying Asset trades on a US market and the Securities trade on a non-US market, the value of the Underlying Asset may move in the direction approaching the Specified Early Cancellation Event at the time when trading on the Securities is closed. In such event, you will not be able to trade the Securities when the value of the Underlying Asset approaches the Specified Early Cancellation Event.

6.6 Your return will be reduced through the application of fees

The amount payable upon the exercise or cancellation of the Securities will be reduced by the application of certain fees (including, if applicable, the Issuer's financing costs in the case of Open-ended Mini Securities or Open-ended Turbo Securities, currency hedging costs in the case of quanto Securities, and the management fee in respect of Open-ended Tracker Securities). Such fees will accrue on a daily basis throughout the life of the Securities. Accordingly, the longer you hold Securities, the greater the amount of such fees to be deducted from the settlement amount of the Securities will be.

7. Risk Factors relating to Securities linked to an Underlying Asset

Securities linked to an Underlying Asset have a different risk profile to other unsecured debt securities and a particular issue of Securities may have features which contain particular risks. This section describes the most common features and related additional factors which you should take into account when considering an investment in such Securities.

7.1 Past performance of an Underlying Asset is not indicative of future performance

Any information about the past performance of an Underlying Asset should not be regarded as indicative of any future performance of such Underlying Asset, or as an indication of the range of, or trends or fluctuations in, the price or value of such Underlying Asset that may occur in the

future. It is not possible to predict the future value of the Securities based on such past performance. Actual results will be different, and such differences may be material.

7.2 You will have no claim against or interest in any Underlying Asset

The Securities are unsecured, and the Issuer has no obligation to hold the Underlying Asset. You will not have any legal or beneficial rights of ownership in the Underlying Asset. For example, where the Underlying Asset is a share, you will have no voting rights, no rights to receive dividends or other distributions or any other rights with respect to the Underlying Asset. In addition, you will have no claim against any share issuer, index sponsor, fund issuer, fund sponsor or any other third party in relation to an Underlying Asset; such parties have no obligation to act in your interests. Accordingly, you may receive a lower return on the Securities than you would have received had you invested directly in the Underlying Asset.

7.3 Non-trading days or market disruption events may adversely affect the value of and return on your Securities

If the Determination Agent determines that a scheduled valuation date falls on a day which is not a scheduled trading day or any other day which is subject to adjustment in accordance with the terms and conditions of the Securities, then the relevant valuation date may be postponed until the next scheduled trading day.

The Determination Agent may determine that the markets have been affected in a manner that prevents it from properly determining the value of an Underlying Asset on a scheduled valuation date. These events may include disruptions or suspensions of trading in the markets as a whole. In such case, the valuation date will be postponed and the value of and return on the Securities could be adversely affected.

If any valuation date is postponed to the last possible day and the market disruption event is still occurring on that day or such day is not a trading day, the Determination Agent will nevertheless determine the value of that Underlying Asset on such last possible day. Any such determination may negatively impact the value of and return on the Securities.

7.4 There are particular risks where your Securities are linked, directly or indirectly, to an Underlying Asset located in or otherwise exposed to emerging markets

If your Securities are linked, directly or indirectly, to an Underlying Asset issued by issuers in, or comprising assets or constituents located in, emerging market jurisdictions, you should be aware that investments linked to emerging markets involve additional risks to those typically seen in more developed markets, including generally increased volatility, higher likelihood of governmental intervention and the lack of a developed system of law.

Such Securities may also be exposed to the risks of economic, social, political, financial and military conditions in such jurisdictions, including, in particular, political uncertainty and financial instability; the increased likelihood of restrictions on export or currency conversion; the greater potential for an inflationary environment; the possibility of nationalisation or confiscation of assets; the greater likelihood of regulation by national, provincial and local governments, including the imposition of currency exchange laws and taxes; less liquidity in emerging market currency markets as compared to the liquidity in developed markets and less favourable growth prospects, capital reinvestment, resources and self-sufficiency.

There is generally less publicly available information about emerging market issuers and potentially less developed accounting, auditing and financial reporting standards and requirements and securities trading rules. Furthermore, the small size of the securities markets and relative inexperience of local market participants in certain emerging market countries and the limited volume of trading in securities may make the Underlying Asset illiquid and more volatile than investments in more established markets.

Any or all of these risks may have a negative impact on the value of and return on Securities with exposure to emerging markets.

8. Risks associated with early cancellation or adjustment of the Securities

8.1 If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk

The Securities may be cancelled by the Issuer and, therefore, you will be subject to the following risks:

- risk of loss of investment: depending on the circumstance in which your Securities are cancelled, the early cash settlement amount you receive may be less than your original investment (see below);
- risk of loss of opportunity: in the event that your Securities are cancelled, you will lose the opportunity to participate in any (theoretical) positive performance of the Securities; and
- reinvestment risk: following such early cancellation, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities.

The circumstances in which your Securities may be cancelled and the amount you can expect to receive in such cases are described below.

Also, in certain circumstances, the terms of your Securities may be adjusted by the Issuer or the Determination Agent. Such adjustment could have an adverse effect on the value of and return on your Securities. These circumstances include, but are not limited to, following an Additional Disruption Event (as described below), a redenomination, an index correction, a manifest error in index calculation, an FX Disruption Event and a potential adjustment event in relation to shares.

8.2 Your Securities may be early cancelled or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early cancellation for unlawfulness or impracticability

There are certain events – relating to the Issuer, its hedging arrangements, the Underlying Asset, taxation or the relevant currency – the occurrence of which may cause the Securities to be early cancelled:

(a) Additional Disruption Events

Additional Disruption Events include:

- unless specified to be not applicable to the Securities, a tax event causing the withholding or deduction of amounts otherwise payable by the Issuer under the Securities;
- unless specified to be not applicable to the Securities, an extraordinary market disruption event preventing the Issuer's performance of its obligations under the Securities;
- unless specified to be not applicable to the Securities, an event impacting one or more currencies that the Issuer determines would materially disrupt or impair its ability to meet its obligations or otherwise settle, clear or hedge the Securities;
- unless specified to be not applicable to the Securities, the Issuer's ability to source or unwind related transactions put in place to provide the returns on the Securities (Hedge Positions) is adversely affected in any material respect; and
- unless specified to be not applicable to the Securities, a change in law that means it has become, or is likely to become, illegal for the Issuer to hold Hedge Positions or it will incur a materially increased cost in dealing with Hedge Positions.

If any of these events occurs, the Issuer shall:

- adjust the terms and conditions of the Securities (without the consent of Holders); or

- if the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the holders of a holding of the relevant Security, cancel the Securities.

Any adjustment made to the terms and conditions of the Securities (which may include a reduction in the amount otherwise payable under the Securities in order to reflect increased costs or otherwise to the Issuer) may have a negative effect on the value of and return on the Securities.

In the event of early cancellation of your Securities due to the occurrence of any of the above events, the early cash settlement amount you will receive will be equal to the market value of your Securities following the event triggering the early cancellation. The market value may include allowances for costs associated with the early cancellation, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early cash settlement amount you will receive may be less than your original investment and you could lose some or all of your investment**.

See also risk factor 8.1 (*If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

(b) Unlawfulness or impracticability

If the Issuer determines in good faith and in a reasonable manner that the performance of any of its absolute or contingent obligations under the Securities has become unlawful or a physical impracticability, in whole or in part, the Issuer may cancel the Securities.

In the event of early cancellation of your Securities due to the occurrence of either of the above events, the early cash settlement amount you will receive will be equal to the market value of your Securities prior to cancellation. The market value may include allowances for costs associated with the early cancellation, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early cash settlement amount you will receive may be less than your original investment and you could lose some or all of your money**.

See also risk factor 8.1 (*If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

(c) FX Disruption Event

An FX Disruption Event is an event occurring on or prior to a payment date that prevents or delays the conversion into the settlement currency of the Securities, including capital controls or other restrictions in the relevant jurisdiction. If 'FX Disruption Event' is applicable in the terms and conditions of your Securities, the Issuer may, following the occurrence of an FX Disruption Event, deduct costs, expenses or charges in connection with such FX Disruption Event, pay in another currency, postpone the relevant valuation or payment date, designate an alternative fallback or price source or treat the FX Disruption Event as an Additional Disruption Event and apply the corresponding adjustments or early cancellation – see also risk factor 8.1 (*If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) above.

9. Risks associated with certain other miscellaneous features and terms of the Securities, including discretions, Issuer substitution and amendments, amongst others

9.1 Discretionary determinations made by the Determination Agent may have a negative impact on the Securities

Any determination made by the Determination Agent will be made in good faith and in a commercially reasonable manner and, in the absence of manifest or proven error, shall be conclusive and binding on all persons (including, without limitation, the Holders), notwithstanding the disagreement of such persons or other financial institutions, rating agencies or commentators.

Any such determination could adversely affect the value of and return on the Securities. See also risk factor 14 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

9.2 The Issuer may be substituted for another entity without your consent

Unless your Securities are French Securities, the Issuer may substitute itself as the principal obligor under the Securities for any other company which has an equivalent or better rating of long-term unsecured, unsubordinated and unguaranteed debt obligations from an internationally recognised rating agency. Following such a substitution, the original Issuer entity will be released from all payment obligations under the Securities, and you will become subject to the credit risk of the substitute issuer under your Securities. You will have no right of claim against the original Issuer or the substituted Issuer in the event that such substitution has adverse tax consequences for you. A substitution of the Issuer may affect any listing of the Securities and, in particular, it may be necessary for the substituted issuer to reapply for listing on the relevant market or stock exchange on which the Securities are listed.

9.3 If you have not fully satisfied each of the conditions to settlement, payment under the Securities shall be postponed and may ultimately be forfeit

If the Issuer or, in the case of French Securities and French Cleared Securities, the Issue and Paying Agent determines that you have not satisfied each of the conditions to settlement in full, payment of the amount payable will not take place until all such conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Further, if you have not fully satisfied each of the conditions to settlement by the 180th calendar day (or such other period as specified in the terms and conditions of the Securities) following the final settlement cut-off date, you will lose your right to claim any cash payment, and you shall have no further claim against the Issuer under your Securities.

9.4 The terms and conditions of your Securities may be amended by the Issuer without your consent in certain circumstances

The terms and conditions of the Securities may be amended by the Issuer without the consent of the Holders in any of the following circumstances:

- to cure a manifest or proven error or omission;
- where such amendment will not materially and adversely affect the interests of Holders;
- to correct or supplement any defective provision;
- where the amendment is of a formal, minor or technical nature; and/or
- to comply with mandatory provisions of law.

In certain other circumstances, the consent of a defined majority of Holders is required.

The terms and conditions of the Securities contain provisions for Holders to call and attend meetings to vote upon such matters or to pass a written resolution in the absence of such a meeting. Resolutions passed at such a meeting, or passed in writing, can bind all Holders, including investors that did not attend or vote, or who do not consent to the amendment.

9.5 Risks in relation to Minimum Tradable Amounts

Where the terms and conditions of your Securities provide for a Minimum Tradable Amount, if you hold an amount which is less than the Minimum Tradable Amount at the relevant time:

- you will not be able to transfer or sell your holding;
- you may not receive a Definitive Bearer Security in respect of such holding (should Definitive Bearer Securities be printed); and

- you would need to purchase a nominal amount of Securities such that your holding amounts to such Minimum Tradable Amount in order to be able to sell or transfer Securities or receive a Definitive Bearer Security.

Notwithstanding the foregoing, such Securities will only be transferable in accordance with the rules of the relevant clearing system.

You should be aware that Temporary Global Securities will not be exchangeable for Definitive Bearer Securities, unless there is a default of the relevant clearing system and no alternative clearing system is found.

9.6 There are risks where your Securities are Book-Entry Securities

If you hold your Securities in dematerialised and/or uncertificated form ("**Book-Entry Securities**"), you will not be the legal owner of the Book-Entry Securities. Rights in the Book-Entry Securities will be held through custodial and depositary links through the relevant clearing systems. This means that holders of Book-Entry Securities will only be able to enforce rights in respect of the Book-Entry Securities indirectly through the intermediary depositaries and custodians.

9.7 There are risks if you hold your Securities through nominee arrangements

Where a distributor and/or a nominee service provider is used by you to invest in the Securities, you will only receive payments and/or deliveries of Underlying Asset on the basis of arrangements entered into by you with the distributor or nominee service provider, as the case may be. In such case, you must look exclusively to the distributor or nominee service provider for all payments and/or deliveries attributable to the Securities. Neither the Issuer, Manager(s) nor Determination Agent nor any other person will be responsible for the acts or omissions of the distributor or nominee service provider, nor make any representation or warranty, express or implied, as to the services provided by the distributor or nominee service provider.

9.8 You should be aware that certain specific information in relation to the Securities may not be known at the beginning of an offer period

In relation to Securities which are being offered by way of a public offer, certain specific information relating to the Securities (such as certain amounts, levels, percentages, prices, rates or values (as applicable) used to determine or calculate amounts payable or assets deliverable in respect of the Securities) may not be fixed or determined by the start of the offer. In such case, the terms and conditions of your Securities will provide an indicative amount, an indicative minimum amount, or an indicative maximum amount, or any combination of the foregoing.

The actual amounts, levels, percentages, prices, rates or values (as applicable) will be determined based on market conditions by the Issuer on or around the end of the offer period and may be the same as or different from any indicative amount specified in the terms and conditions of your Securities, provided that such actual amounts will not be less than any indicative minimum amount provided in the terms and conditions of your Securities and will not be more than any indicative maximum amount provided in the terms and conditions of your Securities. Notice of the actual amounts, levels, percentages, prices, rates or values (as applicable) will be published prior to the Issue Date in accordance with the Conditions.

You must make your investment decision in relation to the Securities based on the indicative amounts provided rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed or determined at the end of the offer period after your investment decision has been made. As there is a risk that the indicative amounts will not be the actual amounts, levels, percentages, prices, rates or values (as applicable), you should assume, for the purposes of evaluating the risks and benefits of an investment in the Securities, that the actual amounts, levels, percentages, prices, rates or values (as applicable) which are fixed or determined at the end of the offer period will be (i) lower than the indicative amount and equal to the minimum amount (where provided and where a higher amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities) or (ii) higher than the

indicative amount and equal to the maximum amount (where provided and where a lower amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities).

10. Risks associated with foreign exchange

10.1 **There are foreign exchange risks where the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Asset and/or different from your home currency, or are subject to a foreign exchange conversion.**

If the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Asset and/or different from your home currency then, depending on the particular payout terms of your Securities, you may be exposed to the adverse movement of the settlement currency of the Securities relative to the currency of the Underlying Asset and/or your home currency.

Foreign exchange rates can be highly volatile and are determined by various factors, including supply and demand for currencies in the international foreign exchange markets, economic factors including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks.

A foreign exchange rate can be fixed by the sovereign government, allowed to float within a range of exchange rates set by the government or left to float freely. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes or changes in interest rates to influence the exchange rates of their currencies. In addition, governments around the world, including the governments of other major world currencies, have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and may cause foreign exchange rates to fluctuate more than would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

Foreign exchange fluctuations between your home currency and the currency in which payment under the Securities is due may affect you where you intend to convert gains or losses from the exercise or sale of Securities into your home currency and may eventually cause a partial or total loss of your initial investment.

10.2 **'Dual Currency' Securities**

In the case of any Securities having a settlement currency that is different from the issue currency, any settlement or cancellation amount payable will be determined by reference to an exchange rate, the method of calculation of which will be determined by the Determination Agent.

Where you purchase 'Dual Currency' Securities, you will be exposed to currency risks in addition to the currency risks relating to the Underlying Asset because the value of your Securities may increase or decrease as a result of fluctuations between the issue currency (or your home currency) and the settlement currency. Foreign exchange fluctuations between your home currency or the issue currency and the relevant currency in which the repayment amount of your Securities is denominated may affect you where you intend to convert gains or losses from the exercise or sale of your Securities into your home currency.

Foreign exchange fluctuations between an investor's home currency (or the issue currency) and the Settlement Currency may affect investors who intend to convert gains or losses from the exercise or sale of Securities into their home currency and may eventually cause a partial or total loss of the investor's initial investment.

11. Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as the Underlying Asset

If the Underlying Asset of your Securities is or includes any one or more of a common share, ADR, GDR or ETF, you should consider the following risks:

11.1 Risks associated with common shares, ADRs, GDRs and ETFs

(a) The performance of the Underlying Asset depends on many diverse and unpredictable factors

The performance of common shares, American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") and exchange traded funds ("ETFs") is dependent upon (i) macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors as well as (ii) company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any one or a combination of such factors could adversely affect the performance of the Underlying Asset which, in turn, would have an adverse effect on the value of and return on your Securities.

(b) Holders of Securities linked to common shares, ADRs, GDRs or ETFs will not participate in dividends or any other distributions (unless otherwise specified to be applicable in the terms and conditions) and the return on the Securities may therefore be lower than holding such Underlying Asset directly

Unless otherwise specified to be applicable in the terms and conditions, you (as an investor of Securities linked to common shares, ADRs, GDRs or ETFs) will not participate in dividends or any other distributions paid on those common shares, ADRs, GDRs or ETFs. Therefore, the return on the Securities may be lower than holding such Underlying Asset directly.

(c) The occurrence of an Additional Disruption Event or certain other events in relation to the Underlying Asset may lead to the adjustment or early cancellation of your Securities or substitution of the Underlying Asset

If a Merger Event, Tender Offer, Nationalisation, Insolvency or Delisting (all as defined in the terms and conditions of the Securities) occurs in relation to the underlying shares or the issuer of the relevant underlying shares, this will constitute an Additional Disruption Event leading to the adjustment by the Determination Agent of the terms and conditions of the Securities (without the consent of Holders) or the early cancellation of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 8.2 (*Your Securities may be early cancelled or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early cancellation for unlawfulness or impracticability*).

If the terms and conditions of your Securities provide that 'Substitution of Shares' applies, the occurrence of any of the events described in the above paragraph or an insolvency filing, delisting, fund disruption event (in the case of an ETF) or share cancellation in relation to the underlying shares or the issuer of the relevant underlying shares (all as set out in the terms and conditions of the Securities) may cause the replacement of the deliverable shares for substitute shares (as selected by the Determination Agent in accordance with the terms and conditions of the Securities). If there is a substitution of shares, you will be exposed to the issuer of the substituted assets (as well as any custodian holding such assets).

(d) The occurrence of a 'potential adjustment event' could trigger an adjustment to the terms and conditions of the Securities which may have a negative effect on the value of and return on the Securities

A 'potential adjustment event' is an event which has a diluting or concentrating effect on the theoretical value of the Underlying Asset. If a 'potential adjustment event' occurs, the Issuer may elect to amend the terms and conditions of the Securities (such amendment to be determined by the Determination Agent without the consent of Holders) or to deliver additional Securities or cash to the Holders to account for the diluting or concentrative effect of the event.

Any adjustment made to the terms and conditions of the Securities may have a negative effect on the value of and return on the Securities. Any amount received from the Issuer following an amendment of the terms and conditions of the Securities may be less than your initial investment and could be zero.

11.2 Additional risks associated with common shares

The issuer of common shares of a company will not have participated in the offering and issuance of the Securities and none of the Issuer or the Manager(s) will have made any investigation or enquiry in relation to the share issuer for the purposes of the Securities. Therefore, there can be no assurance that all events occurring prior to the Issue Date of the Securities that would affect the trading price of the relevant share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the share issuer could affect the trading price of the share and therefore the trading price of the Securities. Also, you should be aware that the issuer of any common shares may or may not take actions in respect of common shares without regard to the interests of Holders and any of these actions could have a negative effect on the value of the Securities.

11.3 Additional risks associated with depository receipts

(a) **There is a risk of realising a lower return than the shares underlying the depository receipt**

ADRs are instruments issued in the US in the form of share certificates representing a number of shares held outside the US, in the country where the share issuer is domiciled. GDRs are instruments in the form of share certificates representing a number of shares held in the country of domicile of the share issuer and are usually offered or issued in a country other than the US. The amount you receive on Securities linked to ADRs or GDRs may not reflect the return that you would obtain if you actually owned the shares underlying such ADRs or GDRs because the price of the ADR or GDR may not take into account the value of any dividends or other distributions paid on the underlying shares. Therefore, you may receive a lower return on the Securities than you would have had you invested in the shares underlying such ADRs or GDRs directly.

(b) **There is a risk of non-recognition of beneficial ownership**

The legal owner of the shares underlying the ADRs or GDRs is the custodian bank which is also the issuing agent of the depository receipts. Depending on the jurisdiction under which the depository receipts have been issued, there is a risk that such jurisdiction does not legally recognise the purchaser of the ADR or GDR as the beneficial owner of the underlying shares. In the event the custodian becomes insolvent or that enforcement measures are taken against the custodian it is possible that an order restricting the free disposition of the underlying shares is issued. In this event the purchaser of an ADR or GDR may lose its rights to the underlying shares under the ADR or GDR and the ADR or GDR could become worthless. As a result, the value of Securities linked to the ADRs or GDRs may be negatively affected and could become worthless.

11.4 Additional risks associated with exchange traded funds ("ETFs")

(a) **There is a risk of tracking error**

Where your Securities are linked to an interest in an ETF (being a fund, pooled investment vehicle, collective investment scheme, partnership, trust or other similar legal arrangement holding assets, such as shares, indices, bonds, commodities and/or other securities such as financial derivative instruments) (for the purposes of this sub-paragraph, "**Reference Asset(s)**") and listed on a recognised exchange) and the investment objective of such ETF is to track the performance of such Reference Asset(s), you are exposed to the performance of such ETF rather than the Reference Asset(s). There is a risk that the ETF may not reflect the actual return you would obtain if you actually owned the Reference Asset(s) underlying the ETF. Accordingly, you may receive a lower return than you would have received had you invested in the Reference Asset(s) underlying such ETF directly.

(b) There are risks relating to the ETF managers, analytical tools and investments of the ETF

There is a risk that the ETF managers will not succeed in meeting the investment objectives of the ETF, that any analytical model used thereby will prove to be incorrect and that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which such ETF has or may invest will prove inaccurate, any of which may have a negative effect on the value of and return on the Securities.

(c) There is a risk of adverse actions by the management company, trustee or sponsor

The management company, trustee or sponsor of an ETF will have no involvement in the offer and sale of the Securities and accordingly will have no obligation to you as Holder and could take any actions without regard to the interests of Holders. Any such action may have a negative effect on the value of and return on the Securities.

(d) There is a risk that where the relevant ETF invests in financial derivative instruments

An ETF may invest in financial derivative instruments which expose the ETF and an investor to the credit, liquidity and concentration risks of the counterparties to such financial derivative instruments. This means that, if the relevant counterparties default under any of these financial derivative instruments, the value of the ETF may decline. As a result, the value of and return on the Securities could be adversely affected.

12. Risks associated with Securities linked to equity indices as the Underlying Asset

If the Underlying Asset of your Securities is or includes an equity index, you should consider the following risks:

12.1 There are risks of fluctuations and volatility

Securities linked to the performance of one or more equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index or indices.

12.2 There are risks of shares and indices

Equity indices are composed of a synthetic portfolio of shares, and, as such, the performance of an equity index is in turn subject to the risks associated with indices, as outlined in this risk factor 12 (*Risks associated with Securities linked to equity indices as the Underlying Asset*) and with shares as specified above in risk factor 11 (*Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as the Underlying Asset*).

12.3 You may receive a potentially lower return than if you held the underlying shares directly

The amount payable on any Securities linked to one or more equity indices (which are not dividend indices or which do not otherwise include dividend distributions in their level) may not reflect the return that you would realise if you actually owned the relevant shares of the companies comprising that equity index. This is because the closing index level of such index on any specified valuation date may reflect the prices of such index components without taking into account any dividend payments on those component shares. Accordingly, you may receive a lower return on Securities linked to one or more equity indices than you would have received had you invested directly in those shares.

12.4 There are risks in relation to a change in composition, methodology or policy used in compiling the index

The Index Sponsor can add, delete or substitute the components of an index at its discretion, and may also alter the methodology used to calculate the level of the index. These events may have a detrimental impact on the level of the index, which in turn could have a negative impact on the value of and return on your Securities.

12.5 **There are risks in relation to index adjustments events, successor indices, corrections and manifest errors**

If an Index Sponsor makes a material alteration to an index or cancels an index and no successor exists, or fails to calculate and announce the index, the Determination Agent may, if it deems the event to have a material effect on the Securities, calculate the level of the Index as per the previous formula and method or cancel the Securities in accordance with the terms and conditions of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 8.2 (*Your Securities may be early cancelled or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early cancellation for unlawfulness or impracticability*).

If an index is calculated by a successor index sponsor, or is replaced by a successor index, the successor index or index as calculated by the successor index sponsor will be deemed to be the index if approved by the Determination Agent. Any such successor index may perform poorly and may result in you receiving less than you otherwise expected.

If a correction to the relevant index is published not less than two exchange business days prior to the next payment date, the Determination Agent will recalculate the amount payable based on the corrected level of the relevant index. If there is a manifest error in the calculation of an index in the opinion of the Determination Agent, the Determination Agent may recalculate the Index based on the formula and method used prior to the manifest error occurring.

Any of these events may have an adverse effect on the value of and return on the Securities.

12.6 **The index or any of its underlying components may trade around the clock; however, the Securities may trade only during regular trading hours in Europe**

If the market for the relevant index or any of its underlying components is a global, around-the-clock market, the hours of trading for the Securities may not conform to the hours during which the relevant index or any of its underlying components are traded. Significant movements may take place in the levels, values or prices of the relevant index or any of its underlying components that will not be reflected immediately in the price of the relevant Securities. There may not be any systematic reporting of last-sale or similar information for the relevant index or any of its underlying components. The absence of last-sale or similar information and the limited availability of quotations would make it difficult to obtain timely, accurate data about the state of the market for the relevant index or any of its underlying components.

12.7 **There are data sourcing and calculation risks**

The composition of indices is typically recalculated in reliance upon historical price, liquidity and production data that are subject to potential errors in data sources or other errors that may affect the weighting of the index components. Any discrepancies that require revision are not applied retroactively but will be reflected in the weighting calculations of the index for the following year. Index sponsors may not discover every discrepancy. Any such errors or discrepancies may result in the Securities performing less well than they theoretically might have (if all such errors and discrepancies had been discovered earlier).

13. **Risks associated with Securities linked to dividends of shares comprised in an equity index that is a dividend index**

Where the Securities are linked to dividends of shares comprised in an equity index, you will be exposed to the declaration and payment of such dividends (if any) by the issuers of such shares, and such declaration and payment of dividends (if any) may be subject to the following risks:

- the value of the dividends paid by the individual constituent members of the equity index may be influenced by many factors: Payments of cash dividends by constituent members of the equity index may be reduced or not made at all due to a variety of independent factors, such as earnings and dividend policy, which could result in a reduction in the value of and return on the Securities.
- changes to the regulator and tax environment: Tax and regulatory decisions may result in reductions in the amount of dividends paid by individual constituent members of the equity index.

- constituent members of the equity index may not pay dividends in the relevant dividend period at all: If no dividends are paid by constituent members of the equity index during the relevant dividend period to which the Securities are linked, you could receive no return on your investment and, in some instances, the Securities may be worth zero.
- not all dividends paid by constituent members may be reflected in the level of the equity index: The equity index may only reflect certain types of dividends, such as ordinary unadjusted gross cash dividends and/or withholding taxes on special cash dividends and capital returns as applied to the constituent members and may exclude extraordinary dividends which may, in turn, result in a lower return on the Securities.

14. Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements

Under the terms and conditions of the Securities, the Issuer has significant discretionary powers. For example, it may determine that a Specified Early Cancellation Event has occurred, leading to a cancellation of the Securities. Further, the Issuer has substantial discretionary power in determining a number of values that could directly impact the amount payable on the Securities, including where the value is determined with reference to the hedging arrangements of the issuer. Certain key variables where the Issuer will exercise substantial discretionary powers in determining the relevant value include the Current Margin, Exchange rate, Funding Rate, Rate, Quanto Hedging Charge Level and the Stop Loss Termination Reference Price. Any such determination by it may have a material impact on the return on your Securities, including that you may suffer a loss of some or all of your investment.

Further, there are certain events – relating to the Issuer, the Issuer's hedging arrangements, the Underlying Asset, taxation, the relevant currency or other matters – the occurrence of which may give rise to discretionary powers of the Issuer or the Determination Agent under the terms and conditions of the Securities. For example, see risk factor 8.2 (*Your Securities may be early cancelled or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early cancellation for unlawfulness or impracticability*).

In relation to the Underlying Asset, a key investment objective of the Securities is to allow Holders to gain an economic exposure to the Underlying Asset. If an Underlying Asset is materially impacted by an unexpected event (for example, a company merges and the original stock that formed an Underlying Asset is restructured or changed, or the rules of an index that is an Underlying Asset are materially modified) or the relevant price, level or value can no longer be calculated, then it may not be possible to achieve the investment objective of the Securities based on their original terms. In that case, the Determination Agent may have discretionary powers under the terms and conditions of the Securities to (i) adjust the terms and conditions of the Securities to preserve the original economic terms and rationale, (ii) in certain cases, substitute the Underlying Asset for another, (iii) calculate the relevant price, level or value itself, (iv) postpone payment (v) cancel the Securities early or (vi) apply some combination thereof.

In relation to the Issuer's hedging arrangements, you should be aware that (i) in exercising its discretionary powers under the terms and conditions of the Securities, each of the Issuer and the Determination Agent may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the Issuer's hedging arrangements in respect of the Securities; and (ii) unless the terms and conditions of your Securities provide that certain hedge disruption events do not apply, certain events which affect the Issuer's hedging arrangements can give rise to discretionary powers on the part of the Issuer and the Determination Agent. For example, see risk factor 8.2 (*Your Securities may be early cancelled or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early cancellation for unlawfulness or impracticability*).

Hedging arrangements are the transactions (if any) entered into by the Issuer or one or more of its Affiliates to seek to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due. This may involve investing directly in the Underlying Asset or entering into derivative contracts referencing the Underlying Asset or other techniques. The particular hedging arrangements (if any) undertaken by the Issuer, and their cost, will likely be a significant determinant of the issue price and/or economic terms of the Securities. Accordingly, if an event occurs which negatively impacts the Issuer's hedging arrangements, the Issuer or the

Determination Agent on the Issuer's behalf may have options available to it under the terms and conditions of the Securities which it may select in its discretion in order to deal with the impact of the event on the Issuer's hedging arrangements. These options may include adjustment of the terms and conditions of the Securities or early cancellation of the Securities. In the event of early cancellation, the early cancellation amount you will receive will be equal to the fair market value of your Securities prior to cancellation less, except where the Final Terms provides that 'Unwind Costs' is not applicable, costs associated with the Issuer's hedging arrangements. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See risk factor 8.1 (*If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

15. Time lag after cancellation or exercise

Unless otherwise specified in the terms and conditions of the Securities, in the case of Securities which the Issuer is required to settle or cancel, there will be a time lag between the time a Holder gives the instruction to settle, cancel or exercise and the determination by the Determination Agent of the relevant Settlement Amount. Such time lag could be long, particularly in the case of a delay in the settlement, cancellation or exercise of Securities due to there being a limit on the maximum number of Securities redeemable or exercisable on any one calendar day, the occurrence of a market disruption event or disrupted day or following the imposition of any exchange controls or similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies). The applicable Settlement Amount, as the case may be, may change significantly during any such period, and such movement or movements could decrease the Settlement Amount.

16. Risks associated with the reform of LIBOR, EURIBOR and other interest rate index and equity, commodity and foreign exchange rate index 'benchmarks'

The London Inter-Bank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed 'benchmarks' are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such 'benchmarks' to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to a 'benchmark'.

Key international proposals for reform of 'benchmarks' include IOSCO's Principles for Financial Market Benchmarks (July 2013) (the "**IOSCO Benchmark Principles**") and the European Commission's proposed regulation on indices used as 'benchmarks' in certain financial instruments, financial contracts and investment funds (September 2013) (the "**Proposed Benchmark Regulation**").

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability as well as the quality and transparency of benchmark design and methodologies. A review published in February 2015 of the status of the voluntary market adoption of the IOSCO Benchmark Principles noted that, as the benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future, but that it is too early to determine what those steps should be. The review noted that there has been a significant market reaction to the publication of the IOSCO Benchmark Principles, and that widespread efforts are being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed.

The Proposed Benchmark Regulation is still being negotiated between the relevant European authorities, but the European Commission expects a final agreement by the summer of 2015 and it is therefore likely to become effective in the autumn of 2016. If passed in its current form (as appears likely), the Proposed Benchmark Regulation would apply to 'contributors', 'administrators' and 'users' of 'benchmarks' in the EU, and would, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of 'benchmarks' and (ii) ban the use of 'benchmarks' of unauthorised administrators. The scope of the Proposed Benchmark Regulation is wide and, in addition to so-called 'critical benchmark' indices such as LIBOR and EURIBOR, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including 'proprietary' indices or strategies) which are referenced in listed financial instruments (including listed Securities), financial contracts and investment funds.

If passed in its current form, the Proposed Benchmark Regulation could have a material impact on any listed Securities linked to a 'benchmark' index, including in any of the following circumstances:

- an index which is a 'benchmark' could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular 'benchmark' and the applicable terms of the Securities, the Securities could be de-listed, adjusted, cancelled or otherwise impacted; and
- the methodology or other terms of the 'benchmark' could be changed in order to comply with the terms of the Proposed Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Securities including Determination Agent determination of the rate or level in its discretion.

In addition to the international proposals for reform of 'benchmarks' described above, there are numerous other proposals, initiatives and investigations which may impact 'benchmarks'. For example, in the UK, the national government has recently extended the legislation originally put in place to cover LIBOR to regulate the following additional major UK-based financial benchmarks in the fixed income, commodity and currency markets:

- ISDAFIX (now ICE Swap Rate), which is the principal global benchmark for swap rates and spreads for interest rate swap transactions
- London Gold Fixing (now LBMA Gold Price) and the London Silver Fixing (now LBMA Silver Price), which determine the price of gold and silver in the London market
- ICE Brent Index, traded on the ICE Futures Europe (IFEU) exchange, which acts as the crude oil futures market's principal financial benchmark
- WM/Reuters London 4pm Closing Spot Rate, which is the dominant global foreign exchange benchmark
- SONIA (Sterling Overnight Index Average) and RONIA (Repurchase Overnight Index Average), which both serve as reference rates for overnight index swaps

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of 'benchmarks' could increase the costs and risks of administering or otherwise participating in the setting of a 'benchmark' and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain 'benchmarks', trigger changes in the rules or methodologies used in certain 'benchmarks' or lead to the disappearance of certain 'benchmarks'. The disappearance of a 'benchmark' or changes in the manner of administration of a 'benchmark' could result in adjustment to the terms and conditions, early cancellation, discretionary valuation by the Determination Agent, delisting or other consequence in relation to Securities linked to such 'benchmark'. Any such consequence could have a material adverse effect on the value of and return on any such Securities.

17. Risks associated with taxation

17.1 General

Investors should be aware that duties and other taxes and/or expenses, including any applicable depositary charges, transaction charges, stamp duty and other charges, may be levied in accordance with the laws and practices in the countries where the Securities are transferred and that it is the obligation of an investor to pay all such taxes and/or expenses.

All payments made under the Securities shall be made free and clear of, and without withholding or deduction for, any present or future taxes imposed by the Issuer's country of incorporation (or any authority or political subdivision thereof or therein), unless such withholding or deduction is imposed or required by law. If any such withholding or deduction is imposed and required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the

amounts so withheld or deducted, and such event will allow the Issuer to cancel the securities early as this would be an 'Issuer Tax Event' which is an Additional Disruption Event. In no event will additional amounts be payable in respect of FATCA (defined below) or any US withholding tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

17.2 Change in tax law

You should be aware that tax regulations and their application by the relevant taxation authorities are subject to change and differing interpretations, possibly with retrospective effect, and this could negatively affect the value of the Securities. Any such change may cause the tax treatment of the Securities to change from the tax position at the time of purchase and may cause the statements in this Base Prospectus concerning the relevant tax law and practice to be inaccurate or insufficient to cover the material tax considerations in respect of the Securities. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to amend the terms and conditions of the Securities, or cancel the Securities.

17.3 US foreign account tax compliance withholding

Under FATCA (as defined below) the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments (including settlement payments and gross proceeds) to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. Any such withholding would not begin earlier than 1 January 2017 except in the case of US-source payments, which generally should be limited to dividend equivalent payments (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with either the implementation of such sections of the Code.

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

17.4 You may be subject to withholding on dividend equivalent payments and US real property interests

If the amount that is payable on a Security is determined by reference to dividends that are paid or declared with respect to a US stock, it is possible that the IRS could assert that investors should be subject to US withholding tax in respect of such dividends. Similarly, in the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders should consult their own tax advisors regarding the possible alternative treatments of the Securities.

In addition, proposed regulations under section 871(m) of the Code, if finalised in their current form, could possibly require the Issuer to treat all or a portion of any payment in respect of Securities that reference US equities as a 'dividend equivalent' payment that is subject to withholding tax at a rate of 30 per cent (or a lower rate under an applicable treaty). This treatment could apply even if payments on the Securities that reference US equities do not specifically reference dividends.

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

If any amount were to be deducted or withheld from payments on the Securities as a result of the above, your return on the Securities may be significantly less than expected.

17.5 Proposed Financial Transaction Tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, 'established' in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope and implementation of any such tax is uncertain. Additional EU member states may decide to participate.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

17.6 EU Savings Directive

Council Directive 2003/48/EC on the taxation of savings income (the "**Savings Directive**") requires EU member states to provide to the tax authorities of other EU member states details of payments of interest and other similar income paid by a person established within its jurisdiction to (or for the benefit of) an individual resident, or certain other types of entity established, in that other EU member state, except that Austria will instead impose a withholding system for a transitional period (subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld) unless during such period they elect otherwise.

On 24 March 2014, the Council of the European Union adopted a Council Directive (the "**Amending Directive**") amending and broadening the scope of the requirements described above. EU member states are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the EU Savings Directive, in particular to include additional types of income payable on securities. They will also expand the circumstances in which payments that indirectly benefit an individual resident in an EU member state must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

The Organisation for Economic Co-operation and Development ("**OECD**") has been tasked by the G20 with undertaking the technical work needed to take forward the single global standard for automatic exchange of financial account information endorsed by the G20 in 2013. The OECD has released a full version of the Standard for Automatic Exchange of Financial Account Information in Tax Matters (the "**Common Reporting Standard**"), which calls on governments to obtain detailed account information from their financial institutions and exchange that information automatically with other jurisdictions on an annual basis. On 9 December 2014, the Economic and Financial Affairs Council of the European Union officially adopted the revised Council Directive on Administrative Cooperation 2011/16/EU (the "**DAC**") (regarding mandatory automatic exchange of information in the field of taxation), which effectively incorporates the Common

Reporting Standard. EU member states are required to adopt and publish the laws, regulations and administrative provisions necessary to comply with the DAC by 31 December 2015. They are required to apply these provisions from 1 January 2016 and to start the automatic exchange of information no later than end of September 2017.

Therefore, the European Commission has proposed the repeal of the EU Savings Directive no later than 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other member states (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and the DAC (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, member states will not be required to apply the new requirements of the Amending Directive.

If a payment were to be made or collected through an EU member state which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment pursuant to the Savings Directive or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to such Directive, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Security as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent with a specified office in an EU member state that is not obliged to withhold or deduct tax pursuant to any law implementing the Savings Directive or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000, which may mitigate an element of this risk if you are able to arrange for payment through such a Paying Agent. However, you should choose your custodians and intermediaries with care, and provide each custodian and intermediary with any information that may be necessary to enable such persons to make payments free from withholding and in compliance with the Savings Directive, as amended.

If you are in any doubt as to your position, you should consult your professional advisers.

18. **Risks associated with the ability to enforce under the Securities**

Following an event of default by the Issuer (such as a failure to pay amounts due under the Securities, or, if the Issuer is subject to a winding-up order), including expiry of an applicable grace period, you may (i) determine to keep your Securities outstanding (in which case, the market value of those Securities may decline significantly) or (ii) by giving notice to the Issuer and the Issuer and Paying Agent require immediate cancellation of your Securities at the early cash settlement amount. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See also risk factor 8.1 (*If your Securities are subject to early cancellation, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

See also risk factor 9.6 (*There are risks where your Securities are Book-Entry Securities*).

19. **Risks associated with conflicts of interest**

19.1 **As Issuer or as Determination Agent, Barclays has certain discretionary powers under the terms and conditions of the Securities that it could exercise in a way which is contrary to the interests of Holders**

See risk factor 14 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

19.2 **Trading and other transactions by the Issuer or its Affiliates could affect the levels, values or prices of the Underlying Asset and its components**

In connection with Barclays' normal business practices or in connection with hedging its obligations under the Securities, Barclays may from time to time buy or sell the Underlying Asset and its components, or similar instruments, or derivative instruments relating to the Underlying Asset or its components. These trading activities may present a conflict of interest between your interest in the Securities and the interests which Barclays may have in its proprietary accounts, in

facilitating transactions, including block trades, for Barclays' other customers and in accounts under management. These trading activities also could affect the levels, values or prices of the Underlying Asset in a manner that would decrease the market value of the Securities, or the amount you would receive upon settlement. To the extent that Barclays has a hedge position in the Underlying Asset or its components, or in a derivative or synthetic instrument related to the Underlying Asset or its components, Barclays may increase or liquidate a portion of those holdings at any time before, during or after the settlement of the Securities. This activity may affect the market value of the Securities in a manner that would be adverse to your investment in the Securities. Depending on, among other things, future market conditions, the aggregate amount and the composition of those hedge positions are likely to vary over time. In addition, Barclays may purchase or otherwise acquire a long or short position in the Securities. Barclays may hold or resell any such position in the Securities.

19.3 Research reports and other transactions may create conflicts of interest between you and Barclays

Barclays may have previously published, and may in the future publish, research reports relating to the Underlying Asset or its components. The views expressed in this research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any of these activities may affect the levels, values or prices of the Underlying Asset or its components and, therefore, the market value of the Securities. Moreover, other professionals who deal in these markets may at any time have views that differ significantly from Barclays. In connection with your purchase of the Securities, you should investigate the Underlying Asset and not rely on Barclays' views with respect to future movements in the Underlying Asset and its components.

Barclays also may issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns indexed to the Underlying Asset. By introducing competing products into the marketplace in this manner, Barclays could adversely affect the market value of the Securities.

19.4 Barclays may have confidential information relating to the Underlying Asset or components

Barclays, at present or in the future, may engage in business relating to the person or organisation responsible for calculating, publishing or maintaining the Underlying Asset, referred to as the 'sponsor' of the Underlying Asset. In addition, Barclays may engage in business relating to any components of the Underlying Asset, including making loans to, equity investments in, or providing investment banking, asset management or other advisory services to the respective sponsor or issuer. In connection with these activities, Barclays may receive information pertinent to the Underlying Asset or its components that Barclays will not divulge to you.

19.5 Distributor(s) and conflicts of interest

Potential conflicts of interest may arise in relation to Securities offered through distribution, as the appointed manager(s) and/or distributor(s) will act pursuant to a mandate granted by the Issuer and may (to the extent permitted by law) receive commissions and/or fees on the basis of the services performed and the outcome of the placement of the Securities.

TERMS AND CONDITIONS OF THE SECURITIES

*The following text comprises the terms and conditions of the Securities (the "**General Conditions**") that, subject to completion or election in the Final Terms (together, the "**Conditions**"), shall be applicable to each Series.*

Calculations and determinations: unless otherwise specified, all calculations and determinations in the General Conditions shall be made by the Determination Agent. In respect of each such calculation and determination, General Condition 16.2 (Determinations by the Determination Agent) shall apply.

The Final Terms will indicate the 'Type of Security' applicable to the Securities, which will determine whether the specified early cancellation feature applies and the circumstances in which an investor may require exercise of all or some of its Securities in accordance with the relevant sub-paragraph of Condition 5 (Specified Early Cancellation, Call Option and Put Option).

All capitalised terms that are not defined in these General Conditions have the meanings given to them in the Final Terms.

References in these General Conditions to 'Securities' are to the Securities of one Series only, not to all Securities that may be issued pursuant to the Programme.

A. INTRODUCTION

The Securities are issued as a Series of certificates by the Issuer and references to 'Securities' shall be construed as a reference to each Series accordingly. Securities are issued pursuant to the Master Agency Agreement dated 18 May 2015 (as further amended and/or supplemented and/or restated as at the relevant Issue Date, the "**Master Agency Agreement**") and with the benefit of a Deed of Covenant dated 15 May 2015 (as further amended and/or supplemented and/or restated as at the relevant Issue Date, the "**Deed of Covenant**") executed by the Issuer. Copies of the Master Agency Agreement and the Deed of Covenant are available for inspection at the registered office of the Issuer, the Issue and Paying Agent and the specified offices of the Paying Agents, the Transfer Agents and the Registrar.

The determination agent (the "**Determination Agent**"), the issue and paying agent (the "**Issue and Paying Agent**"), the registrar (the "**Registrar**"), the registration agent (the "**Registration Agent**"), the paying agents (the "**Paying Agents**") and the transfer agents (the "**Transfer Agents**") (together, the "**Agents**") shall be as specified below or in the Final Terms, as applicable. The Issue and Paying Agent shall be The Bank of New York Mellon, London Branch, of One Canada Place, London E14 5AL.

Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche will be identical to the terms of other Tranches of the same Series (save in respect of the Issue Date, Issue Price and aggregate number of Securities comprising the Tranche) and will be set out in the Final Terms.

Unless otherwise expressly indicated, capitalised terms used in the Conditions have the meanings given in General Condition 29 (*Definitions and interpretation*).

B. FORM, TITLE, TRANSFER, CALCULATIONS, PAYMENTS AND SETTLEMENT

1. Form, title and transfer

1.1 Form of Securities

(a) Form of Securities (other than Dutch Securities, French Cleared Securities and French Securities)

Securities will be issued in bearer form ("**Bearer Securities**") or in registered form ("**Registered Securities**") as specified in the Final Terms. Securities in one form may not be exchanged for Securities in any other form except as provided below.

Bearer Securities will initially be issued in global form ("**Global Bearer Securities**") and may only be exchanged for Securities in definitive form ("**Definitive Bearer Securities**") if specified in the Final Terms or upon an Exchange Event occurring and in each case in

accordance with the terms of the relevant Global Security. Registered Securities may initially be issued in global form ("**Global Registered Securities**" and together with Global Bearer Securities, "**Global Securities**"), if specified in the Final Terms, which may only be exchanged for Securities in definitive form ("**Definitive Registered Securities**" and, together with Definitive Bearer Securities, "**Definitive Securities**"), if specified in the Final Terms, or upon an Exchange Event occurring, and in each case in accordance with the terms of the relevant Global Registered Security. Registered Securities may initially be issued as Definitive Registered Securities if specified in the Final Terms. The Issuer will promptly give notice to Holders if an Exchange Event occurs.

(b) **Form of Dutch Securities**

Notwithstanding paragraph (a) above, Dutch Securities will be in the form of Global Registered Securities which will be delivered to, registered in the name of, and settled through Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. ("**Euroclear Netherlands**"). The rights of holders of (beneficial interests in) the Dutch Securities will be exercised in accordance with the Wge. Dutch Securities will not be exchangeable for Definitive Registered Securities and holders of beneficial interests in Dutch Securities shall not have the right to request delivery (*uitlevering*) of Definitive Registered Securities except in the limited circumstances described in the Wge.

The following legend will appear on all Global Registered Securities held in Euroclear Netherlands:

'Notice: This Security is issued for deposit with Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. ("**Euroclear Netherlands**") at Amsterdam, the Netherlands. Any person being offered this Security for transfer or any other purpose should be aware that theft or fraud is almost certain to be involved.'

(c) **Form of French Cleared Securities**

French Cleared Securities are issued in bearer form and the Global Security will be deposited on or prior to the original issue date of the Tranche with Euroclear France as central depository and in CGN form.

Upon the initial deposit of such Global Security with Euroclear France and payment of the relevant amount in respect of the subscribed Securities, the relevant number of Securities will be credited to the account of Accountholders who have purchased the Securities and/or to the account of the Accountholder designated by the relevant purchaser(s). In respect of French Cleared Securities represented by a Global Security, the records of Euroclear France shall be conclusive evidence of the number of Securities, and a statement issued by Euroclear France at any time shall be conclusive evidence of the records of Euroclear France at that time.

(d) **Form of French Securities**

The form of the French Securities is governed by French law. French Securities are issued in dematerialised book-entry form and constitute *titres de créance* within the meaning of Article L.213-1-A of the French *Code monétaire et financier*.

French Securities are issued, at the option of the Issuer, in either bearer dematerialised form (*au porteur*), which will be inscribed in the books of Euroclear France (acting as central depository) which shall credit the accounts of Accountholders, or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant Holder in either administered registered form (*au nominatif administré*) inscribed in the books of an Accountholder or in fully registered form (*au nominatif pur*) inscribed in an account held by Euroclear France and in the books maintained by the Issuer or the Registration Agent (designated in the Final Terms) acting on behalf of the Issuer.

(e) **Initial issue of Global Securities**

If the Final Terms specifies 'NGN Form' to be 'Applicable' with respect to a Global Bearer Security or the Final Terms specifies that a Global Registered Security is to be held under the

New Safekeeping Structure ("NSS") ("NGN Form"), such Global Bearer Security or Global Registered Security will be delivered on or prior to the original issue date of the Tranche to a common safekeeper (a "**Common Safekeeper**"). The aggregate number of Securities represented by the Global Security shall be that which is from time to time entered in the records of the Relevant Clearing System. Securities that are held in NGN Form are intended to be held in a manner which would allow Eurosystem eligibility but such recognition will depend upon the satisfaction of the Eurosystem eligibility criteria.

If the Final Terms specifies 'CGN Form' to be 'Applicable' ("**CGN Form**"), the Global Security may be delivered on or prior to the original issue date of the Tranche to a Common Depository for the Relevant Clearing System (and, in the case of Registered Securities, registered in the name of any nominee for the Relevant Clearing System). The Relevant Clearing System will then credit each subscriber with a number of Securities equal to the number thereof for which it has subscribed and paid.

1.2 Exchange of Securities

(a) Exchange of Global Securities (other than French Cleared Securities and French Securities)

Each Series of Bearer Securities issued in compliance with the D Rules will be initially issued in the form of a temporary global security in bearer form (a "**Temporary Global Security**") and will be exchangeable for a permanent bearer global security (a "**Permanent Global Security**"), free of charge, on and after its Exchange Date, upon certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

Each Series of Bearer Securities issued in compliance with the C Rules or in respect of which TEFRA does not apply will be initially issued in the form of a Permanent Global Security.

Upon the occurrence of an Exchange Event on or after its Exchange Date each Permanent Global Security will be exchangeable, in whole but not in part, free of charge, for Definitive Securities. Temporary Global Securities will not be exchangeable for Definitive Securities.

If the Global Security is in CGN Form, on or after any due date for exchange, the Holder may surrender it or, in the case of a partial exchange, present it for endorsement to or to the order of the Issue and Paying Agent and in exchange the Issuer will deliver, or procure the delivery of (i) in the case of a Temporary Global Security, a Permanent Global Security representing an aggregate number of Securities equal to the number of Securities represented by the Temporary Global Security that is being exchanged, or (ii) in the case of a Permanent Global Security exchangeable for Definitive Securities, an equal aggregate number of duly executed and authenticated Definitive Securities.

If the Global Security is in NGN Form, the Issuer will procure that details of such exchange be entered pro rata in the records of the Relevant Clearing System. On exchange in full of each Permanent Global Security, the Issuer will, if the Holder so requests, procure that it is cancelled and returned to the Holder together with the relevant Definitive Securities.

(b) Exchange of French Cleared Securities

In respect of French Cleared Securities, each Series of French Cleared Securities will be initially issued in the form of a Temporary Global Security and will be exchangeable, free of charge to the Holder, on and after its Exchange Date in whole or in part upon certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement for interests in a Permanent Global Security.

(c) Exchange of French Securities

French Securities in one form may not be exchanged for French Securities in any other form except as provided below.

French Securities issued in fully registered form (*au nominatif pur*) may, at the option of the Holder, be converted into French Securities in administered registered form (*au nominatif*

administré), and vice versa. The exercise of any such option by such Holder shall be made in accordance with Article R.211-4 of the French *Code monétaire et financier*. Any such conversion shall be effected at the cost of such Holder.

1.3 Number

The Final Terms in respect of Securities will specify the Settlement Currency of such Securities, the Issue Price per Security, the number of Securities being issued and the type of Security. All Registered Securities and French Cleared Securities of a Series on the original Issue Date shall have the same Issue Price.

1.4 Title

(a) Title to Securities (other than Dutch Securities and French Securities)

Title to Bearer Securities passes by delivery and title to Registered Securities passes by registration in the Register that the Issuer shall procure is kept by the Registrar in accordance with the provisions of the Master Agency Agreement.

The Issuer and the relevant Agents shall (except as otherwise required by law or ordered by a court of competent jurisdiction) deem and treat the Holder (as defined below) of any Bearer Security or Registered Security as its absolute owner for all purposes (whether or not such Security is overdue and regardless of any notice of ownership, trust or any interest in it, any writing on it (or on the Global Security representing it) or its theft or loss) and no person shall be liable for so treating the Holder.

In these General Conditions "**Holder**", except in respect of Dutch Securities, means the bearer of any Bearer Security or the person in whose name a Registered Security is registered. In respect of any Global Securities, the person appearing as the accountholder for the Relevant Clearing System (the "**Accountholder**") shall be treated as the Holder for all purposes other than with respect to the payment of any amount due under the Securities (for which purpose the Common Depositary or Common Safekeeper, as the case may be, shall be treated by the Issuer and any Agent as the relevant Holder).

(b) Title to Dutch Securities

Except as otherwise ordered by a court of competent jurisdiction or as otherwise required by law, each person (other than Euroclear Netherlands itself) who is for the time being shown in the records of Euroclear Netherlands or a participant (*aangesloten instelling*) within the meaning of the Wge as the holder of a particular number of Dutch Securities represented by the relevant Global Registered Security (in which regard any certificate or other document issued by Euroclear Netherlands or such participant as to the number of Dutch Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and the relevant Agents as the holder of such number of such Dutch Securities for all purposes other than with respect to the payment of principal or interest on the Dutch Securities and the deposit or surrender of such Dutch Securities required in connection with any payment, cancellation or exercise of any option or election under such Dutch Securities, for which purpose the registered holder of the relevant Global Registered Security shall be treated by the Issuer and any Agent as the holder of such Dutch Security in accordance with and subject to the terms of the relevant Global Registered Security (and the expressions 'Holder' and 'holder' of such Global Registered Security and related expressions shall be construed accordingly).

(c) Title to French Securities

Title to French Securities will be evidenced in accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier* by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French *Code monétaire et financier*) will be issued in respect of French Securities.

In respect of French Securities, the holder of a French Security will be the person whose name appears in the account of the relevant Accountholder or of the Issuer or of the

Registration Agent (as the case may be) as being entitled to such Securities and the term 'Holder' shall be construed accordingly.

1.5 Transfers

(a) Transfers of Cleared Securities (other than Dutch Securities and French Securities)

Subject to paragraph (f) (*Minimum Tradable Amount*) below, transfers of Securities which are held in a Relevant Clearing System may be effected only through the Relevant Clearing System in which the Securities to be transferred are held and only in accordance with the Relevant Rules. Title will pass upon registration of the transfer in the books of Euroclear, Clearstream Luxembourg or the Euroclear France Accountholder, as the case may be.

(b) Transfers of Dutch Securities

Dutch Securities, including interests in a Global Registered Security, will be transferable only in accordance with the provisions of the Wge and the Euroclear Netherlands Rules.

(c) Transfers of French Securities

Title to French Securities in bearer dematerialised form (*au porteur*) and in administered registered form (*au nominatif administré*) will pass upon, and transfer of such Securities may only be effected through, registration of the transfer in the accounts of the Accountholders. Title to French Securities in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Securities may only be effected through, registration of the transfer in the accounts of the Issuer or of the Registration Agent.

(d) Transfers of Non-cleared Securities

(i) Non-cleared Bearer Securities

Bearer Securities which are not Cleared Securities will be transferred by delivery.

(ii) Non-cleared Registered Securities

Registered Securities which are not Cleared Securities may be transferred only through the Register by delivery in writing to the Registrar or any Transfer Agent of (A) the relevant Definitive Registered Security or Global Registered Security representing such Registered Securities to be transferred, (B) the duly completed form of transfer, or notice of cancellation and surrender and (C) any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Securities, a new Definitive Registered Security shall be issued to the transferee in respect of the part transferred and a further new Definitive Registered Security or Global Registered Security in respect of the balance of the holding not transferred shall be issued to the transferor. Transfers of part only of a holding of Registered Securities represented by a non-cleared Global Registered Security may only be made in part (1) if an Exchange Event occurs, or (2) with the consent of the Issuer, provided that, the registered Holder has given the Registrar not less than ten Business Days' notice at its specified office of the registered Holder's intention to effect such transfer. All transfers of Securities and entries on the Register will be made subject to the detailed regulations concerning transfers of Securities scheduled to the Master Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and each Holder. A copy of the current regulations will be made available by the Registrar to any Holder upon request.

Transfers of Registered Securities will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any Taxes that may be imposed in relation to it (or the giving of an indemnity as the Issuer, Registrar or the relevant Transfer Agent may require).

(e) Registered Security closed periods

No Holder may require the transfer of a Definitive Registered Security (i) during the period of 15 calendar days ending on the due date for cancellation or exercise, or any date on which the Securities may be called for cancellation by the Issuer at its option pursuant to General Condition 5.1(a) (*Exercise and cancellation of Open-ended Mini Securities – Specified early cancellation*) or General Condition 5.2(a) (*Exercise and cancellation of Open-ended Turbo Securities – Specified early cancellation*), (ii) on any day after the date of any Option Exercise Notice delivered by such Holder in respect of such Definitive Registered Security, (iii) after any such Security has been called for cancellation or has been exercised or (iv) during the period of seven calendar days ending on (and including) any Record Date.

(f) **Minimum Tradable Amount**

Transactions in the Securities may, if specified in the Final Terms, be subject to a Minimum Tradable Amount, in which case such Securities will be transferable only in a number of not less than such Minimum Tradable Amount and, in the case of Cleared Securities, in accordance with the Relevant Rules.

2. **Status**

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer and rank equally among themselves. The payment obligations of the Issuer under the Securities will rank equally with all other present and future unsecured and unsubordinated obligations of the Issuer (except for such obligations as may be preferred by provisions of law that are both mandatory and of general application). The Securities do not evidence deposits of the Issuer. The Securities are not insured or guaranteed by any government or government agency.

3. **Calculations and publication**

3.1 **Rounding**

For the purposes of any calculations required pursuant to the Conditions, unless otherwise specified, all currency amounts that fall due and payable shall be rounded to the nearest Unit of such currency (with half a unit being rounded up), save in the case of Japanese yen, which shall be rounded down to the nearest Japanese yen. For these purposes, "Unit" means the lowest amount of such currency that is available as legal tender in the country of such currency.

3.2 **Determination and publication of amounts in respect of Settlement**

As soon as practicable on such date as the Issue and Paying Agent or, as applicable, the Determination Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation in respect of or in connection with any Security, such Agent shall determine such rate and calculate any Settlement Amount or any other relevant amount with respect to Settlement, obtain any required quotation or make such determination or calculation, as the case may be, and cause the relevant payment amount to be notified to the Issuer, each of the Paying Agents, the Holders, any other Agent in respect of the Securities that is to make a payment or further calculation or determination upon receipt of such information and, if the Securities are listed and the rules of the relevant stock exchange or other relevant authority so require, such exchange or relevant authority as soon as possible after their determination but in no event later than the fourth Business Day following such determination.

3.3 **Calculations in respect of Securities**

Notwithstanding anything to the contrary in the Conditions or the Master Agency Agreement each calculation of an amount payable in cash in respect of each Security shall be based on the aggregate number of all such Securities outstanding on such date (or the relevant affected portion thereof) rounded in accordance with the method provided in General Condition 3.1 (*Rounding*) above and distributed in accordance with the Relevant Rules.

3.4 **Business Day Convention**

If any date specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day and where in each case the Business Day Convention is specified in the Final Terms to be:

- (a) 'Following', such date shall be postponed to the next day that is a Business Day;
- (b) 'Modified Following', such date shall be postponed to the next day that is a Business Day unless it would fall in the next calendar month, in which case such date shall be brought forward to the immediately preceding Business Day;
- (c) 'Nearest', such date shall be brought forward to the first preceding day that is a Business Day if the relevant date otherwise falls on a day other than a Sunday or a Monday and shall be postponed to the first following day that is a Business Day if the relevant date otherwise falls on a Sunday or a Monday; or
- (d) 'Preceding', such date shall be brought forward to the immediately preceding Business Day.

3.5 **Currency**

Where the prices for the Underlying Asset are quoted in a currency other than the Settlement Currency, the Determination Agent shall use the Exchange Rate to convert such prices into the Settlement Currency, at such time or times and on such dates as the Determination Agent deems appropriate.

4. **Payments**

4.1 **Payments in respect of Definitive Bearer Securities**

Any Definitive Bearer Security payments of any cash amounts will be made against and subject to the presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Definitive Bearer Security at the specified office of any Paying Agent outside the United States, by a cheque drawn in the currency in which payment is due, or by transfer to an account with an Account Bank denominated in such currency, as applicable.

Notwithstanding the foregoing, payments may be made in United States dollars at the specified office of any Paying Agent in New York City if (a) the Issuer has appointed Paying Agents with offices outside of the United States with the reasonable expectation that such Paying Agents would be able to make payment in United States dollars, (b) payment in full of such amounts in United States dollars at the offices of such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (c) payment is permitted by applicable United States law, without involving, in the determination of the Issuer, any adverse tax consequences to the Issuer.

4.2 **Payments in respect of Definitive Registered Securities**

Payments in respect of each Definitive Registered Security will be made against and subject to the condition to settlement, presentation and surrender of the relevant Definitive Registered Security at the specified office of the Registrar or any of the Transfer Agents and in the manner provided in the immediately following paragraph below.

4.3 **Payments in respect of Global Securities**

(a) **Global Bearer Securities**

No additional amounts shall be payable as a result of any such delay or postponement.

The conditions to settlement to be satisfied by a Holder include, without limitation, (a) receipt of all instructions, certifications and information by the Issuer, the Issue and Paying Agent and the Relevant Clearing System, as applicable, required by the Issuer, the Issue and Paying Agent and/or the Relevant Clearing System to effect payment of the relevant Settlement Amount to the Holder (or to its order) within the required time period, (b) the condition to settlement in General Condition 4.6 (*Taxes, Settlement Expenses and conditions to settlement*), (c) the deposit of a duly completed Security Exercise Notice or any other applicable notice in accordance with the Conditions, as applicable, and (d) the deposit, presentation or surrender of the relevant Security, as applicable.

If the conditions to settlement to be satisfied by a Holder have not been satisfied by (a) 10:00 a.m., London time, if the Securities are not Cleared Securities or (b) 10:00 a.m., Luxembourg or Brussels time, or such other time as determined by the Determination Agent as appropriate for the Relevant Clearing System, on the day that is the number of calendar days equal to the Settlement Number following the applicable Final Settlement Cut-off Date (the "**Security Settlement Cut-off Date**"), the relevant conditions to settlement will not be capable of being satisfied. If the determination of a price or level used to calculate any amount payable on any Payment Date is delayed or postponed pursuant to the Conditions of the Securities, payment or settlement will occur on the later of either (a) the scheduled Payment Date, or (b) the third Business Day following the relevant Valuation Date. No additional amounts shall be payable or deliverable by the Issuer because of such postponement.

7. Index Modification, Cancellation, Disruption or Adjustment Event

The following provisions of this General Condition 7 will apply to all Index Linked Securities.

7.1 Index Adjustment Events

If,

- (a) on or prior to any date on which the level of an Index is to be calculated, including, without limitation, any Valuation Date (a "**Determination Date**"), in respect of Index Linked Securities, the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**") or permanently cancels the Index and no successor Index exists (an "**Index Cancellation**"); or
- (b) on any Determination Date in respect of any Index, the Index Sponsor fails to calculate and announce a relevant Index (such event, together with an Index Modification and an Index Cancellation, an "**Index Adjustment Event**"),

then the Determination Agent shall on each relevant Determination Date determine if such Index Adjustment Event has a material effect on the relevant Securities and, if so, shall calculate the level of that Index by using, in lieu of a published level for the relevant Index, the level for that Index as at that Determination Date in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those Components

that constituted the relevant Index immediately prior to that Index Adjustment Event (other than those Components that have since ceased to be listed on any relevant Exchange).

In the event that the Determination Agent determines that it can no longer continue to calculate such Index, the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall take any necessary action in accordance with the applicable provisions of General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*), as the case may be, in respect of the Securities.

7.2 Successor Index Sponsor or substitution of Index with substantially similar calculation

If an Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Determination Agent or (b) replaced by a successor index (the "**Successor Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then (i) the index as calculated and announced by the Successor Index Sponsor or (ii) the Successor Index will be deemed to be the Index.

7.3 Correction of an Index

If the level of an Index published on any Determination Date and used or to be used by the Determination Agent to determine any relevant Index value is subsequently corrected and the correction is published by the Index Sponsor or a Successor Index Sponsor no later than two Exchange Business Days prior to the next date upon which any payment shall be made by the Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant terms of the Securities to account for such correction. The Determination Agent shall notify the Holders of (a) that correction and (b) the amount, if any, that is payable as a result of that correction and (c) any adjustment being made.

7.4 Manifest error in Index calculation

Notwithstanding anything to the contrary herein, if, on any Determination Date there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of an Index by the relevant Index Sponsor (as manifested in the level of such Index published by such Index Sponsor), the Determination Agent may calculate the level of such Index for such date in lieu of using the level published on such date by such Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the relevant Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring. Where the Determination Agent calculates the level of an Index in accordance with this paragraph, it shall give notice to the Holder(s) of the Index level so calculated no later than five Business Days after the relevant Determination Date.

If the relevant Index Sponsor continues to calculate the relevant Index with manifest error for more than three Scheduled Trading Days, then the Determination Agent may make such adjustments to the terms of the Security as it may determine, including, without limitation, selecting an alternative index to replace the relevant Index and/or replicating the constituents of the relevant Index and/or continuing to calculate the relevant Index in accordance with the methodology and formula for calculating such Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring and/or adjusting the constituents and weightings of such Index. Where the Determination Agent makes any adjustment(s) in accordance with this paragraph, it shall give notice to the Holder(s) as soon as is reasonably practicable after making such adjustment(s).

Where a correction to the level of an Index is published by the Index Sponsor as described in General Condition 7.3 (*Correction of an Index*) after the Determination Agent has calculated the level of such Index pursuant to this General Condition 7.4 (*Manifest error in Index calculation*), the Determination Agent may recalculate any amount to be paid, using such corrected level in accordance with the provisions of General Condition 7.3 (*Correction of an Index*) after the correction to the level of the relevant Index is published by the relevant Index Sponsor. Where a

correction to the level of an Index is published by the relevant Index Sponsor after an adjustment has been made to the terms of the Security in accordance with the preceding paragraph, General Condition 7.3 (*Correction of an Index*) shall not apply and the terms of such adjustment shall prevail.

8. Share adjustments or disruptions

The following provisions will apply to all Share Linked Securities.

8.1 Potential Adjustment Events

The Determination Agent may at any time determine that a Potential Adjustment Event has occurred. Following such determination, the Determination Agent will then determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (a) make the corresponding adjustment(s), relevant to the settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for the diluting or concentrative effect of such Potential Adjustment Event (the "**Adjustment(s)**") and (b) determine the effective date(s) of the Adjustment(s). The Determination Agent may (but need not) determine the appropriate Adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on that options exchange.

Any adjustment shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Holders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Holder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Holder a cash amount to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

8.2 Merger Events, Nationalisation, Insolvency, Insolvency Filing, Delisting and Tender Offers

Following the occurrence of any Merger Event, Nationalisation, Insolvency, Insolvency Filing, Delisting or Tender Offer, such event shall constitute an Additional Disruption Event and the applicable provisions of General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*) shall apply.

8.3 Substitution of Shares

(a) If the Final Terms specifies 'Substitution of Shares – Standard' to be 'Applicable'

- (i) If any Share shall be affected by an Extraordinary Event (the "**Affected Shares**"), then without prejudice to the rights that the Issuer has under the Securities (as described above), the Issuer shall have the option to substitute the Affected Shares with substitute shares (the "**Substitute Shares**") as selected by the Determination Agent as at the Announcement Date or the Tender Offer Date, or such other date as the Determination Agent may deem appropriate as the case may be.
- (ii) The Substitute Shares shall have such criteria as the Determination Agent deems appropriate, including, but not limited to, the following:
 - (A) the Substitute Shares shall belong to a similar economic sector as the Share Company of the Affected Shares; and

(B) the issuer of the Substitute Shares shall be of a similar international standing and creditworthiness as the Share Company of the Affected Shares.

(iii) The Initial Price of the Substitute Shares shall be determined in accordance with the following:

$$\text{Initial Price} = \text{Substitute Price} \times (\text{Affected Share(k)}/\text{Affected Share(j)})$$

where:

- "**Substitute Price**" means the official closing price per Share of the relevant Substitute Shares as at the Valuation Time on the dates on which the Affected Share(j) is determined or, if such date is not a Scheduled Trading Day on the relevant Exchange in respect of the Substitute Shares, the following Scheduled Trading Day of the Substitute Shares;
- "**Affected Share(k)**" means the Initial Price per Share of the relevant Affected Shares as specified in the Final Terms; and
- "**Affected Share(j)**" means the last closing price per Share of the Affected Shares on or prior to the Announcement Date or the Tender Offer Date (as the case may be).

(iv) The Determination Agent shall notify the Holders as soon as practicable after the selection of the relevant Substitute Shares.

(b) **If the Final Terms specifies 'Substitution of Shares – ETF underlying' to be 'Applicable'**

(i) On the occurrence of an Extraordinary Event, then without prejudice to the rights that the Issuer has under the Securities (including, for the avoidance of doubt, the right to make appropriate adjustments or cancel all of the Securities in accordance with General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*)), the Issuer shall determine whether to substitute the relevant Share with such shares, units or other interests of an exchange traded fund or other financial security, index or instrument (each a "**Replacement Security**") that the Determination Agent determines is comparable to the relevant discontinued Share (or discontinued Replacement Security) as at the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate, as the case may be, and such Replacement Security shall be deemed to be the relevant Share for all purposes of the Securities after the substitution.

(ii) Upon the substitution by the Determination Agent of a Replacement Security, the Determination Agent may adjust any variable in the terms of the Securities (including, without limitation, any variable relating to the price of the shares, units or other interests in the relevant Share, the number of such shares, units or other interests outstanding, created or cancelled or any dividend or other distribution made in respect of such shares, units or other interests) as in the judgement of the Determination Agent may be, and for such time as may be, necessary to render the Replacement Security comparable to the shares or other interests of the relevant discontinued Share (or discontinued Replacement Security) for purposes of the Securities.

(iii) Upon any substitution by the Determination Agent of a Replacement Security, the Determination Agent shall notify the Holders as soon as practicable after the selection of the Replacement Security.

(c) In the event that (i) the Issuer determines not to substitute the Share in accordance with paragraph (a) or (b) above, as may be applicable, or (ii) the Determination Agent determines that it cannot substitute the Affected Share in accordance with paragraph (a) above or cannot determine a Replacement Security in accordance with paragraph (b) above, the Issuer may determine that such event is an Additional Disruption Event and shall make appropriate adjustments or cancel all of the Securities of the relevant Series in whole in accordance with

General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*).

9. Consequences of Disrupted Days

If, in the opinion of the Determination Agent, any Valuation Date is a Disrupted Day, then the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the Disrupted Days, would have been the Valuation Date (the "**Scheduled Valuation Date**") is a Disrupted Day, in which case that eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine:

- (a) in the case of any Underlying Asset that is a Share, the relevant exchange traded or quoted price (the "**Traded Price**") for such Share that would have prevailed as of the Valuation Time on the eighth Scheduled Trading Day but for that Disrupted Day; or
- (b) in the case of any Underlying Asset that is an Index, the level of the Index as at the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day).

10. Adjustments

If the Issuer requests that the Determination Agent determine whether an appropriate adjustment can be made in accordance with General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*), the Issuer shall not be obliged to make any adjustment that it does not think is appropriate and none of the Determination Agent, the Issuer or any other party shall be liable for the Issuer making or failing to make any such adjustment.

In particular, notwithstanding that an adjustment is required to be made by the provisions set out in this Section D in respect of any event affecting a Share Company or its Shares, or an Index or its Index Sponsor, the Issuer reserves the right not to make that adjustment if, at the time the adjustment is to be made pursuant thereto, an option or future on the relevant Share or Index is traded on any Futures or Options Exchange and no adjustment is made by that Futures or Options Exchange to the entitlement under that traded option or future in respect of that event.

The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective.

11. Early cancellation or adjustment following an Additional Disruption Event

- (a) If an Additional Disruption Event (other than an Issuer Tax Event) occurs:
 - (i) the Determination Agent shall determine whether an appropriate adjustment or adjustments can be made to the Conditions and/or any other provisions relating to the Securities to account for the economic effect of such Additional Disruption Event on the Securities which would produce a commercially reasonable result and preserve substantially the economic effect to the Holders of a holding of the relevant Security. If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Issuer shall determine the effective date of such adjustment(s), notify the Holders of such adjustment and take the necessary steps to effect such adjustment(s); or
 - (ii) if the Determination Agent determines that no adjustment that could be made pursuant to paragraph (i) above would produce a commercially reasonable result and preserve substantially the economic effect to the Holders of a holding of the relevant Security, the Determination Agent will notify the Issuer of such determination and no adjustment(s) shall be made pursuant to paragraph (i) above. In such event the Issuer shall, on giving irrevocable notice to the Holders of not less than a number of Business Days equal to the Early Cancellation Notice Period Number, cancel all of the Securities

of the relevant Series on the date specified by it in the notice and pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Issuer may also, prior to such cancellation of the Securities, make any adjustment(s) to the Conditions or any other provisions relating to the Securities as appropriate in order to (when considered together with the cancellation of the Securities) account for the effect of such Additional Disruption Event on the Securities).

- (b) If an Issuer Tax Event occurs, the Issuer may, on giving irrevocable notice to the Holders of not less than a number of Business Days equal to the Early Cancellation Notice Period Number, cancel all of the Securities of the relevant Series on the date specified by it in the notice and pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date.

12. FX Disruption Event

If the Final Terms specifies FX Disruption Event to be 'Applicable', upon the occurrence of an FX Disruption Event, the Issuer may take any one or more of the following actions:

- (a) deduct from any payments to be made in respect of the Securities an amount calculated by the Determination Agent as representing a cost, expense, charge and/or deduction arising in connection with such FX Disruption Event(s) or under any other adjustment with respect thereto; and/or
- (b) make payment of the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions in the Specified Currency instead of the Settlement Currency, the amount payable in the Specified Currency being determined by the Determination Agent; and/or
- (c) postpone or adjust any Valuation Date or the relevant Payment Date for any amount payable by the Issuer pursuant to the Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting; and/or
- (d) (in the case of a Price Source Disruption) specify and adopt:
 - (i) an appropriate alternative fallback or alternative price or rate source or method of determination selected by the Determination Agent (which may (or may not) be by reference to dealer poll or such other publication page or service as may replace the relevant page or service for the purpose of displaying a currency exchange rate comparable or equivalent); or
 - (ii) a replacement of any one or more relevant currencies, as the case may be; and/or
- (e) deem such event to be an Additional Disruption Event for the purpose of these provisions and take any necessary action in accordance with the applicable provisions of General Condition 11 (*Early cancellation or adjustment following an Additional Disruption Event*), as the case may be, in respect of the Securities.

Upon the occurrence of an FX Disruption Event, the Issuer shall give notice as soon as practicable to the Holders, stating the occurrence of the FX Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Where FX Disruption Event applies, and an event is both a Currency Disruption Event and an FX Disruption Event, such event shall be deemed to be an FX Disruption Event.

13. Local jurisdiction taxes and expenses

If the Final Terms specifies 'Local Jurisdiction Taxes and Expenses' to be 'Applicable' in relation to any Securities:

- (a) the Issuer shall deduct from amounts payable to (or from any further Securities deliverable to) a Holder all Local Jurisdiction Taxes and Expenses, not previously deducted from amounts paid (or further Securities delivered) to such Holder, as the Determination Agent shall determine are attributable to such Securities; or

- (b) the Issuer may request that the Determination Agent determines whether an appropriate adjustment can be made to the Conditions and any other provisions relating to the Securities to account for such Local Jurisdiction Taxes and Expenses. If the Determination Agent determines that such adjustment(s) can be made, the Issuer shall determine the effective date of such adjustment(s) and take the necessary steps to effect such adjustment(s). The Issuer shall notify Holders of any such adjustment(s), as soon as reasonably practicable after the nature and effective date of the adjustments are determined. If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result, it shall notify the Issuer of such determination and no adjustment(s) shall be made and paragraph (a) above shall apply to the Securities.

For the avoidance of doubt, the Issuer shall not be liable for any Local Jurisdiction Taxes and Expenses and Holders shall be liable to pay any Local Jurisdiction Taxes and Expenses attributable to their Securities, and, unless an adjustment is made in accordance with this General Condition 13 (*Local jurisdiction taxes and expenses*), any such Local Jurisdiction Taxes and Expenses shall be deducted from the Cash Settlement Amount or any other amount payable to (or from any further Securities deliverable to) a Holder in respect of the Securities. This Local Jurisdiction Taxes and Expenses provision shall apply in addition to any other rights the Issuer may have in relation to Taxes, Settlement Expenses and/or conditions to settlement as set out in the Conditions.

14. Effect of adjustments

All determinations made by the Determination Agent pursuant to this Section D shall be conclusive and binding on the Holders, the Issue and Paying Agent and the Issuer, except in the case of manifest error.

E. GENERAL PROVISIONS

15. Events of Default

If any of the following events occurs and is continuing (each an "**Event of Default**") and unless the Event of Default shall have been cured by the Issuer or waived by the Holders prior to receipt by Issue and Paying Agent or the Issuer, as the case may be, of a notice from the Holders, as referred to below, a Holder may give notice to the Issuer and the Issue and Paying Agent that such Security is, and in all cases such Security shall immediately become due and payable at, in respect of each Calculation Amount for such Security, the Early Cash Settlement Amount:

- (a) the Issuer does not pay any Optional Cash Settlement Amount, Specified Early Cash Settlement Amount or Early Cash Settlement Amount, as applicable, in respect of the Securities when the same is due and payable and such failure continues for 30 calendar days;
- (b) the Issuer breaches any term and condition of such Securities in a way that is materially prejudicial to the interests of the Holders, and that breach has not been remedied within 30 calendar days of the Issuer having received notice thereof from Holders holding at least one-tenth in outstanding nominal amount or number, as the case may be, of the relevant Series demanding remedy; or
- (c) an order is made or an effective resolution is passed for the winding-up of the Issuer (otherwise than in connection with a scheme of reconstruction, merger or amalgamation), the terms of which have been previously approved by an Extraordinary Resolution of the Holders.

For the purposes of calculating any Early Cash Settlement Amount at any time following an Event of Default, the Determination Agent will ignore the effect of such Event of Default upon the market value of the Securities.

16. Agents

16.1 Appointment of Agents

The Agents act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Holder. The Issuer reserves the right to vary or terminate the appointment of the Agents and to appoint additional or other Agents, provided that the Issuer shall at all times maintain:

- (a) an Issue and Paying Agent;
- (b) a Registrar and a Transfer Agent in relation to Registered Securities;
- (c) one or more Determination Agent(s) where these General Conditions so require;
- (d) Paying Agents having specified offices in at least two major European cities;
- (e) such other agents as may be required by any stock exchange on which the Securities may be listed;
- (f) to the extent not already satisfied pursuant to (d) or (e), in relation to Definitive Bearer Securities, a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 or any law implementing or complying with, or introduced in order to conform to, such Directive;
- (g) a French Issue and Paying Agent, so long as French Cleared Securities are outstanding, and in accordance with what the Relevant Rules require; and
- (h) in the case of Securities in fully registered form (*au nominatif pur*), a Registration Agent.

Notice of any termination of appointment and of any changes to the specified office of any Agent will be given to Holders.

16.2 Determinations by the Determination Agent

Unless otherwise specified, all determinations, considerations, decisions, elections and calculations in the Conditions shall be made by the Determination Agent (which will be Barclays Bank PLC, unless otherwise specified in the Final Terms). In respect of each such determination, consideration, decision, election and calculation, this General Condition 16.2 shall apply.

In making such determinations, considerations, decisions, elections and calculations, the Determination Agent may take into account the impact on the Issuer's hedging arrangements. In all circumstances the Determination Agent shall make such determinations and calculations in good faith and in a commercially reasonable manner and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Issuer, the Agents and the Holders. In respect of French Securities, the Determination Agent shall act as an independent expert in the performance of its duties hereunder.

16.3 Responsibility of the Issuer and the Agents

Neither the Issuer nor any Agent shall be held responsible for any loss or damage resulting from any legal enactment (domestic or foreign), the intervention of a public authority (domestic or foreign), an act of war, strike, blockade, boycott or lockout or any other similar event or circumstance. The reservation in respect of strikes, blockades, boycotts and lockouts shall also apply if any of such parties itself takes such measures or becomes the subject of such measures. Where the Issuer or any of the Agents is prevented from effecting payment due to such event, payment may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay any additional amounts in respect of such postponement.

17. Taxation

The Issuer is not liable for, or otherwise obliged to pay amounts in respect of, any Taxes borne by a Holder. A Holder must pay all Taxes arising from or payable in connection with all payments relating to the Securities and all payments in respect of the Securities shall be made free and clear of, and without withholding or deduction for, any present or future Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Bank Jurisdiction (or any authority or political subdivision thereof or therein having power to tax) unless such withholding or deduction is required by law.

In that event, the appropriate withholding or deduction shall be made and the Issuer shall pay such additional amounts ("**Additional Amounts**") as may be necessary in order that the net amounts receivable by the relevant Holder shall equal the respective amounts that would have been receivable by such Holder in the absence of such withholding or deduction. Notwithstanding the above, no Additional Amounts shall be payable with respect to any Security:

- (a) to, or to a third party on behalf of, a Holder who is liable for such Taxes in respect of such Securities by reason of his having a connection with the Bank Jurisdiction other than the mere holding of the relevant Security; or
- (b) to, or to a third party on behalf of, a Holder who could lawfully avoid (but has not so avoided) such deduction or withholding by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to any tax authority in the place where the relevant Security is presented for payment; or
- (c) where such withholding or deduction is required by FATCA (as defined in this section) or the rules of the Code, including without limitation, in respect of dividends, dividend equivalent payments, direct and indirect interests in US real property (for this purpose, "FATCA" means sections 1471 through 1474 of the Code (or any amended or successor provisions) or pursuant to any agreement with the US Internal Revenue Service or in furtherance of any intergovernmental agreement in respect thereof); or
- (d) presented for payment more than 30 calendar days after the Relevant Date, except to the extent that the Holder would have been entitled to an Additional Amount on presenting such Security for such payment on the last day of such 30-day period; or
- (e) where such withholding or deduction is imposed on a payment to an individual and required to be made pursuant to Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income, or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (f) (except in the case of Registered Securities) presented for payment by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Security to another Paying Agent without such deduction or withholding; or
- (g) in relation to Definitive Bearer Securities, unless it is proved, to the satisfaction of the Issue and Paying Agent or the Paying Agent to whom the Security is presented, that the Holder is unable to avoid such withholding or deduction by satisfying any applicable certification, identification or reporting requirements or by making a declaration of non-residence or other similar claim for exemptions to the relevant tax authorities.

The imposition of any withholding or deduction on any payments in respect of the Securities by or on behalf of the Issuer will be an "**Issuer Tax Event**" if such withholding or deduction is required by law (and for these purposes, any withholding covered by subsection (c) above shall be considered to be required by law).

18. **Prescription**

18.1 **Prescription in relation to Securities**

Claims for payment shall become void unless made within ten years of the appropriate Relevant Date.

19. **Replacement of Securities**

Should any Security in respect of any Series be lost, stolen, mutilated, defaced or destroyed, it may, subject to all applicable laws, regulations and any Relevant Stock Exchange or any other relevant authority requirements, be replaced at the specified office of the Issue and Paying Agent, in the case of Bearer Securities, or the Registrar, in the case of Registered Securities, or of such other Paying Agent or Transfer Agent, if the Issuer designates such and gives notice of the designation to Holders. The

replacement of any Security shall be subject to payment by the claimant of the fees, expenses and Taxes incurred in connection therewith and on such terms as to evidence, security and indemnity and otherwise as the Issuer may require.

20. Early cancellation for unlawfulness or impracticability

If the Issuer determines in good faith and in a commercially reasonable manner that the performance of any of its absolute or contingent obligations under the Securities has become, or there is a substantial likelihood that it will become, unlawful or a physical impracticability, in whole or in part, as a result of (a) any change in financial, political or economic conditions or currency exchange rates or (b) compliance in good faith by the Issuer or any relevant subsidiaries or Affiliates with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative or judicial authority or power or interpretation thereof, the Issuer may, at its option, cancel the Securities by giving notice to Holders.

If the Issuer cancels the Securities pursuant to this General Condition 20, then the Issuer will, if and to the extent permitted by applicable law, pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount.

21. Notices

21.1 To Holders

All notices to Holders will be given in writing and deemed to have been duly given and valid:

- (a) in the case of Bearer Securities, if published in a daily newspaper of general circulation in England (which is expected to be the Financial Times) and will be deemed to have been given on the date of first publication;
- (b) in the case of listed Securities, if given in accordance with the rules and regulations of the Relevant Stock Exchange or other relevant authority and will be deemed to have been given on the first date of transmission or publication;
- (c) if publication pursuant to paragraph (a) or (b) above is not practicable, if published in another leading English language daily newspaper with circulation in Europe on the date of first publication;
- (d) in the case of Registered Securities, if mailed to the relevant Holders of such Registered Securities at their respective designated addresses appearing in the Register and will be deemed delivered on the third weekday (being a day other than a Saturday or a Sunday) after the date of mailing;
- (e) in the case of Cleared Securities, if given to the Relevant Clearing System provided that any publication or other requirements required pursuant to paragraph (b) above shall also be complied with if applicable. In such cases, notices will be deemed given on the first date following the day of transmission to the applicable Relevant Clearing System;
- (f) in the case of French Cleared Securities, if published in a daily newspaper of general circulation in France (which is expected to be Les Echos) and will be deemed to have been given on the date of first publication; and/or
- (g) in the case of French Securities in registered form (*au nominatif*), if mailed to the Holders at their respective addresses, in which case they will be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the mailing. In substitution for mailing and publication, notices to the Holders of French Securities (whether in registered (*au nominatif*) or in bearer (*au porteur*) form) may be given by delivery of the relevant notice to Euroclear France, Euroclear, Clearstream and any other clearing system through which the Securities are for the time being cleared instead of the mailing and/or publication.

Failure to give notice where required will not invalidate any determination, calculation or correction, as applicable.

21.2 To the Issuer and the Agents

In respect of any Series, all notices to the Issuer and/or the Agents must be sent to the address specified for each such entity in the Master Agency Agreement or to such other person or place as shall be specified by the Issuer and/or the Agent by notice given to Holders. Any notice determined not to be valid, effective, complete and in proper form shall be null and void unless the Issuer and the Relevant Clearing System agree otherwise. This provision shall not prejudice any right of the person delivering the notice to deliver a new or corrected notice. The Issuer, Operator, Paying Agent, Registrar or Transfer Agent shall use all reasonable endeavours promptly to notify any Holder submitting a notice if it is determined that such notice is not valid, effective, complete or in the proper form.

22. Substitution

The Issuer shall be entitled at any time, without the consent of the Holders, to substitute any other entity, the identity of which shall be determined by the Issuer, to act as issuer in respect of Securities then outstanding pursuant to the Programme (the "**New Bank Issuer**"), provided that (a) the New Bank Issuer's long-term unsecured, unsubordinated and unguaranteed debt obligations are rated at least the same as Barclays Bank PLC's long-term rating at the date on which the substitution is to take effect or the New Bank Issuer has an equivalent long-term rating from another internationally recognised rating agency and (b) no Event of Default as set out in General Condition 15 (*Events of Default*) shall occur as a result thereof. Any such substitution shall take effect upon giving notice to the Holders of each Series then outstanding, the UK Listing Authority and any other Relevant Stock Exchange and the relevant Agents.

In the event of any such substitution, any reference in the Conditions to the Issuer shall be construed as a reference to the New Bank Issuer. In connection with such right of substitution, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Holders resulting from their being for any purpose domiciled or resident in, or otherwise connected with or subject to the jurisdiction of, any particular territory, and no Holder shall be entitled to claim from the Issuer or the New Bank Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Holder.

23. Modifications and meetings of Holders

23.1 Modifications without consent of Holders

The Conditions of the Securities of any Series and/or the Master Agency Agreement and/or the Deed of Covenant may be amended by the Issuer in each case without the consent of the Holders if, in the reasonable opinion of the Issuer, the amendment (a) is of a formal, minor or technical nature, (b) is made to correct a manifest or proven error or omission, (c) is made to comply with mandatory provisions of the law of the Bank Jurisdiction and/or in order to comply with amendments to any applicable laws and regulations, (d) is made to cure, correct or supplement any defective provision contained herein and/or (e) will not materially and adversely affect the interests of the Holders. Any such modification shall be binding on the Holders and any such modification shall take effect by notice to the Holders.

23.2 Modifications requiring the consent of the Holders

(a) Consent by written resolution

In addition to the powers described in paragraph (b) and paragraph (c) below, in order to modify and amend the Master Agency Agreement and the Securities (including the General Conditions), a resolution in writing signed by or on behalf of the Holders of not less than 90 per cent in number of Securities at the time outstanding shall be as effective as an Extraordinary Resolution duly passed at a meeting of Holders of Securities of the relevant Series. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders. Any such resolution shall be binding on all Holders of Securities of that Series, whether signing the resolution or not.

(b) Majority consent

Subject as provided in paragraph (c) below, the Master Agency Agreement contains provisions for convening meetings of the Holders to consider any matter affecting their interests, including the amendment of the Master Agency Agreement and/or of any of the Conditions relating to a Series.

Such a meeting may be convened by the Issuer or Holders holding not less than 10 per cent in aggregate number of the Securities at the time outstanding. At least 21 calendar days' notice (exclusive of the day on which the notice is given and of the day on which the meeting is to be held) specifying the date, time and place of the meeting shall be given to Holders.

Except for the purposes of passing an Extraordinary Resolution, a quorum shall be two or more persons holding or representing a clear majority in number of the Securities held or represented. Any such resolution duly passed shall be binding on all Holders of Securities of that Series, whether present or not.

(c) Consent by Extraordinary Resolution

An Extraordinary Resolution will need to be passed in respect of any of the following modifications:

- (i) to amend the dates of exercise or cancellation of any Securities;
- (ii) to reduce or cancel the number of, or any premium payable on exercise or cancellation of, the Securities;
- (iii) if the Final Terms specifies a Minimum Tradable Amount, to reduce any such minimum;
- (iv) to vary any method of, or basis for, calculating any Settlement Amount (other than as provided for in the Conditions);
- (v) to vary the currency or currencies of payment or denomination of the Securities; or
- (vi) to modify the provisions concerning the quorum required at any meeting of Holders or the majority required to pass the Extraordinary Resolution.

The quorum required to pass an Extraordinary Resolution shall be two or more persons holding or representing not less than 75 per cent or at any adjourned meeting not less than 25 per cent in number of the Securities of the relevant Series for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on all the Holders of the relevant Series, regardless of whether they are present at the meeting, save for those Securities that have not been cancelled but in respect of which an Option Exercise Notice shall have been delivered as described in General Condition 5 (*Exercise and cancellation of Securities*) prior to the date of the meeting (provided that such Securities will not confer the right to attend or vote at, or join in convening, or be counted in the quorum for, any meeting of the Holders).

The Holder of a Permanent Global Security shall (unless such Permanent Global Security represents only one Security) be treated as being two persons for the purposes of any quorum requirements of a meeting of Holders and, at any such meeting, the Holder of a Permanent Global Security shall be treated as having one vote in respect of each Security.

24. Further issues

The Issuer shall be at liberty from time to time, without the consent of the Holders, to create and issue further Securities so as to form a single Series with the Securities of any particular Series.

25. Purchases and cancellations

The Issuer and any of its subsidiaries may at any time purchase Securities in the open market or otherwise at any price.

All Securities so purchased may be held, surrendered for cancellation, or reissued or resold, and Securities so reissued or resold shall for all purposes be deemed to form part of the original Series, all in accordance with applicable laws and regulations. If the French Securities are purchased in accordance with and fulfil the requirements of Article L. 213-1-A of the French *Code monétaire et financier*, the French Securities may be held for a maximum of one year after the purchase and shall be cancelled at the expiry of such period.

French Cleared Securities shall be cancelled by being transferred to an account in accordance with the rules and procedures of Euroclear France.

26. Governing law and jurisdiction

26.1 Governing law

- (a) The Securities and the Master Agency Agreement and any non-contractual obligations arising out of or in connection with them are governed by and shall be construed in accordance with English law.

28. Severability

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

CLEARANCE AND SETTLEMENT

Book-entry ownership

Bearer Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of any Series of Bearer Securities. In respect of Bearer Securities, a Temporary Global Security and/or a Permanent Global Security in bearer form may be deposited with a common depository for Euroclear and/or Clearstream or an alternative clearing system as agreed between the Issuer and the Managers. Transfers of interests in such Temporary Global Securities or Permanent Global Securities will be made in accordance with the normal Euromarket debt securities operating procedures of Euroclear and Clearstream or, if appropriate, the alternative clearing system.

Registered Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of the Securities to be represented by a Global Security. Each Global Security deposited with a common depository for, and registered in the name of, a nominee of Euroclear and/or Clearstream will have an ISIN and a Common Code.

All Registered Securities will initially be in the form of Global Securities. Definitive Securities will only be available, in the case of Securities initially represented by a Global Security, in amounts or numbers specified in the Final Terms.

Transfers of Registered Securities

Transfers of interests in Global Securities within Euroclear and Clearstream will be in accordance with the usual rules and operating procedures of the Relevant Clearing System.

Beneficial interests in a Global Security may only be held through Euroclear or Clearstream.

Definitive Securities

Registration of title to Registered Securities in a name other than a common depository or its nominee for Clearstream and Euroclear will be permitted only in the circumstances set out in General Condition 1 (*Form, title and transfer*). In such circumstances, the Issuer will cause sufficient individual Securities to be executed and delivered to the Registrar for completion, authentication and despatch to the relevant Holder(s). A person having an interest in a Global Security must provide the Registrar with a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Securities.

Dutch Securities

Dutch Securities will be in the form of Global Registered Securities which will be delivered to, registered in the name of, and settled through Euroclear Netherlands. The rights of holders of (beneficial interests in) the Dutch Securities will be exercised in accordance with the Wge, as amended from time to time. Dutch Securities, including interests in a Global Registered Security, will be transferable only in accordance with the provisions of the Wge and the rules and procedures for the time being applicable to and/or issued by Euroclear Netherlands.

French Securities

French Securities are issued in dematerialised book-entry form. French Securities are issued, at the option of the Issuer, in either bearer form (*au porteur*), in which case they will be inscribed in the books of Euroclear France acting as central depository, which shall credit the accounts of the Accountholders, or registered form (*au nominatif*) of the relevant Holder in administered registered form (*au nominatif administré*), in which case they will be inscribed in the accounts of an Accountholder or fully registered form (*au nominatif pur*), in which case they will be inscribed in an account held by Euroclear France and in the books maintained by the Issuer or the registration agent acting on behalf of the Issuer (the Registration Agent). Title to French Securities in bearer form (*au porteur*) and in administered registered form (*au nominatif administré*) shall

pass upon, and transfer of such French Securities may only be effected through, registration of the transfer in the accounts of Accountholders.

Title to French Securities in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such French Securities may only be effected through, registration of the transfer in the accounts of the Issuer or of the Registration Agent.

TAXATION

1. General taxation information

The information provided below does not purport to be a complete overview of tax law and practice currently applicable to the Securities. Transactions involving Securities (including any purchase, transfer, exercise and/or cancellation), the accrual or receipt of any interest or premium payable on the Securities and the death of a holder of any Security may have tax consequences for investors which may depend, amongst other things, upon the tax residence and/or status of the investor. Investors are therefore advised to consult their own tax advisers as to the tax consequences of transactions involving Securities and the effect of any tax laws in any jurisdiction in which they may be tax resident or otherwise liable to tax. In particular, no representation is made as to the manner in which payments under the Securities would be characterised by any relevant taxing authority.

The following overviews do not consider the tax treatment of payments in respect of an Underlying Asset. The taxation provisions applicable to such items may be different (and in some cases significantly different) from those described in the overview below.

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in addition to the Issue Price or purchase price (if different) of the Securities and in connection with the transfer or delivery of any Underlying Asset.

Investors are referred to General Condition 4.6 (*Taxes, Settlement Expenses and conditions to settlement*).

Terms defined in the sections below are defined for the purpose of the relevant section only.

As used below, the "**Savings Directive**" shall mean Council Directive 2003/48/EC on the taxation of savings income.

2. United Kingdom taxation

The comments below are of a general nature based on current United Kingdom tax law and HM Revenue & Customs ("HMRC") published practice and are an overview of the understanding of the Issuer of current law and practice in the United Kingdom relating only to certain aspects of United Kingdom taxation. They are not intended to be exhaustive. They relate only to persons who are the beneficial owners of Securities and do not apply to certain classes of taxpayers (such as persons carrying on a trade of dealing in Securities, certain professional investors and persons connected with the Issuer) to whom special rules may apply.

Investors who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

2.1 Withholding tax

The Securities will not bear interest under their terms but payment of a premium on exercise or cancellation could be treated as interest for UK tax purposes. In this section, the term "**interest**" means amounts treated as interest for UK tax purposes. If an Issuer Tax Event occurs, the Issuer may, on giving irrevocable notice to the Holders of not less than a number of Business Days equal to the Early Redemption Notice Period Number, redeem all of the Securities of the relevant Series on the date specified by it in the notice and pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date.

(a) Payments of interest by the Issuer only

The Issuer, provided that it continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the "**Act**"), and provided that the interest on Securities is paid in the ordinary course of its business within the meaning of section 878 of the Act, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom tax.

(b) Payments of interest in respect of Securities which are listed on a recognised stock exchange

Payments of interest under Securities may be made without withholding or deduction for or on account of United Kingdom tax, provided that such Securities carry a right to interest, and are and remain listed on a 'recognised stock exchange', as defined in section 1005 of the Act. The Luxembourg Stock Exchange is a recognised stock exchange. Securities will satisfy this requirement if they are admitted to trading on the relevant recognised stock exchange, and are (in the case of the Luxembourg) included in the Official List or (in a country outside Luxembourg where there is a recognised stock exchange) are officially listed in accordance with provisions corresponding to those generally applicable in EEA states.

Provided, therefore, that Securities are and remain so listed, interest on such Securities will be payable without withholding or deduction for or on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

(c) Payments of interest to certain holders of Securities

Interest on Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where, at the time the payment is made, the Issuer reasonably believes that either:

- (i) the person beneficially entitled to the interest payable on such Securities is within the charge to United Kingdom corporation tax as regards the payment of such interest; or
- (ii) the payment is made to one of the classes of exempt bodies or persons set out in section 936 of the Act,

provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that such payment of interest will not be an 'excepted payment' at the time the payment is made) that the interest should be paid under deduction of tax.

(d) Securities with a maturity of less than 365 calendar days

Interest on Securities having a maturity of less than one year from the date of issue and which are not issued under arrangements, the effect of which is to render such Securities part of a borrowing with a total term of a year or more, may also be paid without deduction for or on account of United Kingdom income tax.

(e) Payments of interest on derivatives

Interest on Securities that fall within the derivative contract rules in Part 7 of Corporation Tax Act 2009 may also be paid without withholding or deduction for or on account of United Kingdom Income Tax.

(f) Other withholdings

In other cases, an amount may have to be withheld from payments of interest on Securities for or on account of United Kingdom income tax at the basic rate, subject to the availability of other exemptions (which will differ from those set out above) or reliefs or to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

In addition, an amount for or on account of United Kingdom income tax at the basic rate may have to be withheld on payments on Securities where such payments do not constitute interest for United Kingdom tax purposes but instead constitute either annual payments or, in the case of Securities which are capable of physical settlement, manufactured payments for United Kingdom tax purposes, in each case subject to the availability of exemptions or reliefs or subject to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

2.2 Reporting requirements

HMRC has powers, in certain circumstances, to obtain information. The persons from whom HMRC can obtain information include: a person who receives (or is entitled to receive) a payment derived from Securities; a person who makes such a payment (received from, or paid on behalf of another person); a person by or through whom interest is paid or credited; a person who effects or is a party to Securities transactions (which includes an issue of Securities) on behalf of others; registrars or administrators in respect of Securities transactions; and each registered or inscribed holder of Securities. The information HMRC can obtain includes: details of the beneficial owner of Securities; details of the person for whom the Securities are held, or the person to whom the payment is to be made (and, if more than one, their respective interests); information and documents relating to Securities transactions; and, in relation to interest paid or credited on money received or retained in the United Kingdom, the identity of the Security under which interest is paid.

In certain circumstances the information which HMRC has obtained using these powers may be exchanged with tax authorities in other jurisdictions.

Investors are also directed to the disclosure below in respect of the Savings Directive.

2.3 United Kingdom Stamp Duty and Stamp Duty Reserve Tax

(a) Issue

No UK stamp duty or stamp duty reserve tax ("**SDRT**") should generally be payable on the issue of Securities save that SDRT at 1.5% may be payable on an issue of Securities into an issuer of depository receipts or a clearance service (or their nominees) where all three of the conditions in (i), (ii) and (iii) below are met:

- (i) the Securities do not constitute exempt loan capital (see below);
- (ii) the Securities are not covered by article 5(2) of the capital duties directive (Council Directive 2008/7/EC); and
- (iii) there is a provision for physical settlement.

Additionally, stamp duty at up to 1.5% may be payable on an issue of Securities outside of a depository receipts system or a clearance service (or their nominees).

Securities will constitute 'exempt loan capital' if the Securities constitute 'loan capital' (as defined in section 78 Finance Act 1986) and do not carry (and in the case of (ii)-(iv) below have never carried) any one of the following four rights:

- (i) a right for the holder of the securities to opt for conversion into shares or other securities or to acquire shares or other securities, including loan capital of the same description;
- (ii) a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the capital;
- (iii) a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or of any part of, a business or to the value of any property; or
- (iv) a right on repayment to an amount which exceeds the nominal amount of the capital and is not reasonably comparable with what is generally repayable (in respect of a similar nominal amount of capital) under the terms of issue of loan capital listed in the Official List of the London Stock Exchange.

(b) Transfer of Securities

Transfers of interests in Securities held through a clearance service do not attract UK stamp duty or SDRT provided that no section 97A election has been made.

Where Securities do not comprise exempt loan capital and are not held through a clearance service, then:

- (i) agreements to transfer such Securities may attract SDRT at 0.5 per cent. of the chargeable consideration where the Securities provide for physical settlement; and
- (ii) stamp duty at 0.5 per cent may arise in respect of any document transferring any such Securities.

However, where a liability to stamp duty is paid within six years of a liability to SDRT arising, the liability to SDRT will be cancelled or repaid as appropriate.

(c) Settlement of Securities

If the Securities are capable of physical settlement then stamp duty or SDRT at 0.5 per cent may arise on physical settlement of Securities in certain cases. Where such stamp duty or SDRT is payable, it may be charged at the higher rate of 1.5 per cent if settlement is by the transfer of the relevant property to a depositary receipts system or clearance service.

(d) Clearance services

For these purposes, the clearing systems run by Euroclear Bank and Clearstream Luxembourg constitute a 'clearance service' however the CREST system run by Euroclear UK & Ireland does not.

3. European Union taxation

3.1 EU Directive on the Taxation of Savings Income

Under Council Directive 2003/48/EC on the taxation of savings income (the "**Savings Directive**") each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income payments ("**Savings Income**") made by a person within its jurisdiction to or collected by such a person for an individual, or to certain non-corporate entities, resident in that other Member State (interest payments on the Notes will for these purposes be Savings Income). However, for a transitional period, Austria is instead applying a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, including Switzerland, and certain dependent or associated territories of certain Member States have adopted and implemented similar measures (either provision of information or transitional withholding – a withholding system in the case of Switzerland) in relation to payments of Savings Income made by a person within its jurisdiction to an individual, or to certain non-corporate entities, resident in a Member State.

In addition, Member States have entered into reciprocal arrangements with certain of those non-EU countries and dependent or associated territories of certain Member States in relation to payments of Savings Income made by a person in a Member State to an individual, or to certain non-corporate entities, resident in certain dependent or associated territories or non-EU countries.

Where an individual Holder receives a payment of Savings Income from any Member State or dependent or associated territory employing the withholding arrangement, the individual Holder may be able to elect not to have tax withheld. The formal requirements may vary slightly from jurisdiction to jurisdiction. They generally require the individual Holder to produce certain information (such as his tax number) and consent to details of payments and other information being transmitted to the tax authorities in his home state. Provided that the other tax authority receives all of the necessary information the payment will not suffer a withholding under Council Directive 2003/48/EC or the relevant law conforming with the directive in a dependent or associated territory.

Prospective holders of Securities should note that an amended version of the Savings Directive was adopted by the European Council on 24 March 2014 (the "**Amending Directive**"), which is intended to close loopholes identified in the current Savings Directive. The amendments, which must be transposed by Member States prior to 1 January 2016 and which will apply from 1 January 2017, will extend the scope of the Savings Directive to (i) payments made through certain intermediate structures (whether or not established in a Member State) for the ultimate benefit of an EU resident individual, and (ii) a wider range of income similar to interest.

The Organisation for Economic Co-operation and Development ("**OECD**") has been tasked by the G20 with undertaking the technical work needed to take forward the single global standard for automatic exchange of financial account information endorsed by the G20 in 2013. The OECD has released a full version of the Standard for Automatic Exchange of Financial Account Information in Tax Matters (the "**Common Reporting Standard**"), which calls on governments to obtain detailed account information from their financial institutions and exchange that information automatically with other jurisdictions on an annual basis. On 9 December 2014, the Economic and Financial Affairs Council of the European Union officially adopted the revised Council Directive on Administrative Cooperation 2011/16/EU (the "**DAC**") (regarding mandatory automatic exchange of information in the field of taxation), which effectively incorporates the Common Reporting Standard. EU member states are required to adopt and publish the laws, regulations and administrative provisions necessary to comply with the DAC by 31 December 2015. They are required to apply these provisions from 1 January 2016 and to start the automatic exchange of information no later than end of September 2017.

Therefore, the European Commission has proposed the repeal of the EU Savings Directive no later than 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to ongoing requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and the DAC (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

3.2 The proposed financial transactions tax ("**FTT**")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, 'established' in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU member states may decide to participate.

Prospective holders of Securities are advised to seek their own professional advice in relation to the FTT.

4. Foreign account tax compliance withholding

Under FATCA, the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments (including settlement payments and gross proceeds) to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. Any such withholding would not begin earlier than 1 January 2017 except in the case of US-source payments, which generally should be limited to dividend equivalent payments and interests in US real property interests (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income).

No Gross Up

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

5. Dutch taxation

The following overview of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Base Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following overview does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Security, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

Investors are advised to consult their professional advisers as to the tax consequences of purchase, ownership and disposition of the Securities.

5.1 Withholding tax

All payments made by the Issuer of interest and principal under the Securities can be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein. The Issuer does not assume responsibility for the withholding of taxes at the source.

5.2 Other Taxes

The subscription, issue, placement, allotment, delivery or transfer of a Security will not be subject to registration tax, stamp duty or any other similar tax or duty payable in the Netherlands.

5.3 Residence

The holder of a Security will not be, or deemed to be, resident in the Netherlands for tax purposes and will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Security or the execution, performance, delivery and/or enforcement of a Security.

6. French taxation

This overview is based on tax laws and taxation practice, as in effect and applied as at May 2015, and is intended to provide general information only. Tax laws, taxation practices and their interpretation are subject to constant change, and such changes may sometimes have a retroactive effect and may change the conclusions set out in this overview.

6.1 Income tax and withholding tax

Investors in Securities who are French residents for tax purposes or who would hold such Securities through a permanent establishment or fixed base in France should be aware that transactions involving the Securities, including any purchase or disposal of, or other dealings in, the Securities, may have French tax consequences. The tax consequences regarding interest, premium on exercise and cancellation and capital gains in particular may depend, amongst other

things, upon the status of the investor (i.e. legal entities or individuals). Investors in Securities should consult their own advisers about the tax implications of holding Securities and of any transactions involving Securities.

Pursuant to Article 125A of the French tax code, subject to certain limited exceptions, interest and other income received by French resident holders of such Securities treated as debt instruments for French tax purposes, who are individuals and who do not hold their Securities in connection with a business they carry on, is subject to a 24 per cent advance income tax, which is deductible from such holders' personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied on top of this at an aggregate rate of 15.5 per cent on interest and other income paid to such holders. If the relevant Paying Agent is established in France, it would generally be up to such Paying Agent to withhold and report such payments (exceptions to the withholding obligation may however apply depending on level of income of the taxpayer). If the relevant Paying Agent is established outside France, such Paying Agent is in principle not involved in this withholding obligation, unless it is established in an EU or EEA member state and has been expressly appointed by the French taxpayer to do so.

6.2 Implementation of the Savings Directive

The Savings Directive was implemented into French law under Article 242 ter of the French tax code, which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another member state, including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

7. Luxembourg taxation

The comments below are intended as a basic overview of certain tax consequences in relation to the purchase, ownership and disposal of the Securities under Luxembourg law. Persons who are in any doubt as to their tax position should consult a professional tax adviser.

7.1 Withholding tax and self-applied tax

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to certain Luxembourg resident individual holders or so-called residual entities, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest), nor upon repayment of principal in case of reimbursement, exercise, cancellation, repurchase or exchange.

7.2 Luxembourg non-resident individuals

Under the Luxembourg laws dated 21 June 2005 (the "Laws") implementing the Savings Directive, as amended by the Law of 25 November 2014, and several agreements concluded between Luxembourg and certain dependent or associated territories of the EU, a Luxembourg-based paying agent (within the meaning of the Laws) is required since 1 January 2015 to report to the Luxembourg tax authorities the payment of interest and other similar income (and defined as interest by the Laws) paid by it to (or, under certain circumstances, to the benefit of) an individual or certain 'residual entities' resident or established in another member state or in certain EU dependent or associated territories, and certain personal details on the beneficial owner. Such details will be provided by the Luxembourg Tax Authorities to the competent foreign tax authorities of the state of residence of the beneficial owner (within the meaning of the Laws). 'Residual entities' within the meaning of Article 4.2 of the Savings Directive are entities established in a member state or in certain EU dependent or associated territories which are not legal persons (the Finnish and Swedish companies listed in Article 4.5 of the Savings Directive are not considered as legal persons for this purpose), whose profits are not taxed under the general arrangements for business taxation, and which are not and have not opted to be treated as UCITS, recognised in accordance with Council Directive 85/611/EEC, as replaced by Directive 2009/65/EC of the European Parliament and of the Council, or similar collective investment funds

located in Jersey, Guernsey, the Isle of Man, the Turks and Caicos Islands, the Cayman Islands, Montserrat or the British Virgin Islands.

The investors should also note that the European Council formally adopted a Council Directive amending the Savings Directive on 24 March 2014 (the "**Amending Directive**"). The Amending Directive broadens the scope of the requirements described above. It will in particular enlarge the scope of the Savings Directive to cover new types of savings income and products that generate interest or equivalent income and the scope of the tax authorities' requirements to be complied with. The member states will have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Directive.

In addition, the Council of the European Union adopted on 9 December 2014 amendments to the Council Directive 2011/16/EU on administrative cooperation in the field of taxation (the 'DAC'), which provide for a mandatory automatic exchange of information for additional types of income and account balances.

Due to of the overlap between the Savings Directive, as amended by the Amending Directive and the DAC, there is a proposal to repeal the Savings Directive.

7.3 Luxembourg resident individuals

In accordance with the law of 23 December 2005, as amended (the "**2005 Law**"), on the introduction of a withholding tax on certain interest payments on savings income, interest payments made by Luxembourg paying agents (defined in the same way as in the Savings Directive) to Luxembourg individual residents or to certain residual entities that secure interest payments on behalf of such individuals (unless such entities have opted either to be treated as UCITS, recognised in accordance with Council Directive 85/611/EEC, as replaced by European Directive 2009/65/EC of the European Parliament and of the Council, or for the exchange of information regime) are subject to a 10 per cent withholding tax in full discharge of income tax. The Luxembourg-based paying agent is responsible for retaining the withholding tax.

Pursuant to the 2005 Law, Luxembourg resident individuals, acting in the course of their private wealth, can opt to self-declare and pay a 10 per cent tax on interest payments made after 31 December 2007 by paying agents (defined in the same way as in the Savings Directive) located in an EU member state other than Luxembourg, a member state of the European Economic Area other than an EU member state or in a state or territory which has concluded an international agreement directly related to the Savings Directive.

PURCHASE AND SALE

Pursuant to the Master Subscription Agreement dated 18 May 2015 (as amended, supplemented and/or restated from time to time, the "**Master Subscription Agreement**"), each Manager (being, at the date of this Base Prospectus, each of Barclays Bank PLC and Barclays Capital Inc. in their respective capacities as a Manager) has agreed with the Issuer the basis on which it may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under '*Summary*' and '*Terms and Conditions of the Securities*'. In the Master Subscription Agreement, the Issuer has agreed to reimburse the relevant Manager for certain of its expenses in connection with the Securities issued pursuant to the Programme.

No representation is made that any action has been or will be taken by the Issuer or the Managers in any jurisdiction that would permit a public offering of any of the Securities or possession or distribution of this Base Prospectus or any other offering material or any Final Terms in relation to any Securities in any country or jurisdiction where action for that purpose is required (other than actions by the Issuer to meet the requirements of the Prospectus Directive for offerings contemplated in this Base Prospectus and/or the Final Terms). No offers, sales, resales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction and/or to any individual or entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or the Managers.

Subject to the restrictions and conditions set out in this Base Prospectus, the categories of potential investors to which the Securities are intended to be offered are retail and institutional investors in Luxembourg, France, or the Netherlands.

Selling restrictions

European Economic Area

In relation to each member state of the European Economic Area which has implemented the Prospectus Directive (each a "**Relevant Member State**"), each Manager has represented and agreed, and each further Manager appointed pursuant to the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that, with effect from and including the Relevant Implementation Date, an offer of such Securities may be made to the public in that Relevant Member State:

- (a) if the Issuer expressly specifies that an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a 'Public Offer'), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Public Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;

- (e) it has not and agrees that it will not enter into any written contract (other than confirmation or other notice of the transaction) pursuant to which any other party to the contract (other than one of its Affiliates or another Manager) has offered or sold, or during the restricted period will offer or sell, any Bearer Instruments except where pursuant to the contract the relevant Manager has obtained or will obtain from that party, for the benefit of the Issuer and each Manager, the representations contained in, and that party's agreement to comply with, the provisions of sub-clauses (a), (b), (c) and (d).

In addition, to the extent that the Final Terms relating to Bearer Instruments specifies that the Securities are subject to US Treasury Regulation section 1.163-5(c)(2)(i)(C) (the "**C Rules**"), the Bearer Instruments are subject to US tax law requirements and may not be offered, sold or delivered within the United States or its possessions. Each Manager has represented and agreed (and each additional Manager named in a set of Final Terms will be required to represent and agree) that it will not offer, sell or deliver any Bearer Instruments within the United States.

None of such Manager, its affiliates, or any persons acting on its or their behalf, has engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Securities, and such Manager, its affiliates and all persons acting on its or their behalf have complied and will comply with any applicable offering restrictions requirement of Regulation S.

In addition, until 40 calendar days after the completion of the distribution of an identifiable tranche of Securities, an offer or sale of Securities within the United States by any Manager (whether or not participating in the offering of such Securities) may violate the registration requirements of the Securities Act.

Notes on Issuer ratings: The information in these footnotes has been extracted from information made available by each rating agency referred to below. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by such rating agencies, no facts have been omitted which would render the reproduced information inaccurate or misleading.

² A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

³ 'P-1' Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

⁴ An 'F1' rating indicates the highest short-term credit quality and the strongest intrinsic capacity for timely payment of financial commitments; may have an added '+' to denote any exceptionally strong credit feature.

⁵ An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

⁶ Obligations rated 'A' are considered upper-medium grade and are subject to low credit risk. Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

⁷ An 'A' rating indicates high credit quality and denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.
